Dude, Where's My Black Studies Department? Cecil Brown,2007-05-15 ***WINNER, 2008 PEN Oakland - Josephine Miles National Literary Award Blacks have been vanishing from college campuses in the United States and reappearing in prisons, videos, and movies. Cecil Brown tackles this unwitting disappearing act head on, paying special attention to the situation at UC Berkeley and the University of California system generally. Brown contends that educators have ignored the importance of the oral tradition in African American upbringing, an oversight mirrored by the media. When these students take exams, their abilities are not tested. Further, university officials, administrators, professors, and students are ignoring the phenomenon of the disappearing black student – in both their admissions and hiring policies. With black studies departments shifting the focus from African American and black community interests to black immigrant issues, says Brown, the situation is becoming dire. *Dude, Where's My Black Studies Department?* offers both a scorching critique and a plan for rethinking and reform of a crucial but largely unacknowledged problem in contemporary society.

Black Man in a White Coat Damon Tweedy, M.D.,2015-09-08 A NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S TOP TEN NONFICTION BOOKS OF THE YEAR A LIBRARY JOURNAL BEST BOOK SELECTION • A BOOKLIST EDITORS' CHOICE BOOK SELECTION One doctor's passionate and profound memoir of his experience grappling with race, bias, and the unique health problems of black Americans When Damon Tweedy begins medical school,he envisions a bright future where his segregated, working-class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. The recipient of a scholarship designed to increase black student enrollment, Tweedy soon meets a professor who bluntly questions whether he belongs in medical school, a moment that crystallizes the challenges he will face throughout his career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds, More common in blacks than in whites. *Black Man in a White Coat* examines the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine. As Tweedy transforms from student to practicing physician, he discovers how often race influences his encounters with patients. Through their stories, he illustrates the complex social, cultural, and economic factors at the root of many health problems in the black community. These issues take on greater meaning when Tweedy is himself diagnosed with a chronic disease far more common among black people. In this powerful, moving, and deeply empathic book, Tweedy explores the challenges confronting black doctors, and the disproportionate health burdens faced by black patients, ultimately seeking a way forward to better treatment and more compassionate care.

Black Like Me John Howard Griffin,1961 The Deep South of the late 1950's was another country: a land of lynchings, segregated lunch counters, whites-only restrooms, and a color line etched in blood across Louisiana, Mississippi, Alabama, and Georgia. White journalist John Howard Griffin, working for the black-owned magazine *Sepia*, decided to cross that line. Using medication that darkened his skin to deep brown, he exchanged his privileged life as a southern white man for the disenfranchised world of an unemployed black man. What happened to John Howard Griffin--from the outside and within himself--as he made his way through the segregated Deep South is recorded in this searing work of nonfiction. Educated and soft-spoken, John Howard Griffin changed only the color of his skin. It was enough to make him hated ... enough to nearly get him killed. His audacious, still chillingly relevant eyewitness history is a work about race and humanity every American should read.

Black Bangor Maureen Elgersman Lee,2005 A vivid reconstruction of a once-vibrant African American community in northern New England.

The Assassination of the Black Male Image Earl Ofari Hutchinson,1994 A compelling expose of the truth behind society's racial and sexual stereotypes of black men, this book offers a wide historical perspective and insights into such recent racially charged events as the Clarence Thomas hearings, the O.J. Simpson trial, and the Million Man March. Hutchinson brilliantly counters the image of black men as a population entrenched in crime, drugs, and violence.

The Black Deal Freddie R. Burnett,2011-05-26 Madam Nancy Mae Webster is a successful black nightclub and restaurant owner during the 50s and 60s Jim-Crow South. Due to her heroin addiction and a heroin overdose her life's story becomes the body of the story as it is told by the conscious of her incarcerated son, while he waits to see her in the waiting room at the hospital. Her white-like skin and her son's very black complexion complicate everything. The great differences in their complexions are the results of her being raped and left for dead by two black men when she is an innocent young farm girl in West Tennessee. The son, Joel Webster, is the hopeful protagonist of his own story, while he is the despised antagonist in the story of his mother's trouble-ridden life. The two dramatic tales have him as a convict visiting the hospital to see his dying mother, while guarded by two sets of alternating prison guards one good and the other one bad. He tries to escape from his own impending death from jailhouse hit men because he witnesses two guards beating a black inmate to death in his jail cell and they want him dead where he can't testify against them. His and his mother's world are split in two black and white worlds that create tension and friction between family members. There are the two uncles Tom and Pete that add suspense to his every thought as he recalls his dying mother's life from her innocent childhood to her reprehensible demise at forty-one years old. Joel Webster is born into a life of rejection, hatred, and violence because of his black skin and being the son of one of the two black men that raped his mother and his uncles had killed for doing it. After much painful recalling a beautiful black woman that looks white, and his mother's double life as she passes for white in a bigoted society, and the rich white man that she loves and he loves her, he meets Bobby Lucky. He tells a different side of Nancy's life and his own life and his wife is ready to kick him out and his mother threatens to disinherit him from the family's fortune if he doesn't dump his Negro mistress. He repents and begs Joel for forgiveness for separating him from his mother when he is younger. He befriends Joel and works to help him get out of jail. He tells Joel everything that has happened to Nancy in the white world where she lives in a fine mansion with her heroin addiction and her servants that she struggles to conceal her true identity from while he is in reform school and jail. Joel is arrested for a robbery that he doesn't commit. Joel's life story is told in the present time of the early 70s when the civil-right struggles are in full-bloom and he's in the protests. Drugs and riotous living invade the black community like a wave of cold air and he sees the devastating effects of it in many of those around him. Nancy's best friend, Helen Bond, sheds many tears while Bobby Lucky tells of Nancy's heroin addiction and her betrayal. Nancy only wants to become a schoolteacher and have a family but life gives her everything but what she wants. She befriends the wrong person and it destroys her. Helen Bond serves her heroin when she is at her lowest point or what she thinks is her lowest point until the heroin hooks her. Her grandma Tina has long been dead but her pain goes deep into her grave. Her black son is a paradox in her life and he is the only link to her true identity in her white-world existence and she evades him at a great cost to both of their lives. She doesn't want to work as a five-dollar-per-day maid any longer and she takes a job in a house of prostitution as a recruiter. She is soon able to give her son everything he wants but her love and he goes to the reform school to escape his torment on the streets from everyone that knows him because of what his mother does for a living. She meets an old acquaintance who is rich and white and madly in love with her. He

takes her out of the whorehouse and sets her up with a nightclub and restaurant. Still her jealous fr

Man in the Mirror Robert Bonazzi,1997 Few readers know of the extraordinary journey that led to Griffin's risky experiment - the culmination of a lifetime of risk, struggle, and achievement. A native of Texas, Griffin was a medical student who became involved in the rescue of Jews in occupied France; a U.S. serviceman among tribal peoples in the South Pacific, where he suffered an injury that left him blinded for a decade; a convert to Catholicism; and, finally, a novelist and writer.

The Black Man William Brown,2014-09-13 This is a history of African Americans in America written by a former slave during the 19th century. From the preface: THE calumniators and traducers of the Negro are to be found, mainly, among two classes. The first and most relentless are those who have done them the greatest injury, by being instrumental in their enslavement and consequent degradation. They delight to descant upon the natural inferiority of the blacks, and claim that we were destined only for a servile condition, entitled neither to liberty nor the legitimate pursuit of happiness. The second class are those who are ignorant of the characteristics of the race, and are the mere echoes of the first. To meet and refute these misrepresentations, and to supply a deficiency, long felt in the community, of a work containing sketches of individuals who, by their own genius, capacity, and intellectual development, have surmounted the many obstacles which slavery and prejudice have thrown in their way, and raised themselves to positions of honor and influence, this volume was written. The characters represented in most of these biographies are for the first time put in print. The author's long sojourn in Europe, his opportunity of research amid the archives of England and France, and his visit to the West Indies, have given him the advantage of information respecting the blacks seldom acquired. If this work shall aid in vindicating the Negro's character, and show that he is endowed with those intellectual and amiable qualities which adorn and dignify human nature, it will meet the most sanguine hopes of the writer.

I'm a Man Who Happens to Be Black Brian Bolden,2006-06-01 As a race, we can no longer hold the entire Caucasian race responsible for what their parents and grandparents did to our parents and grandparents because they had nothing to do with it. Through the actions of many men and women who happened to be white, I have learned that love has no color. Only racism, prejudice, and hate recognize color. We can't change the prejudice and attitudes of other people; we can change their attitudes by not living up to their prejudice. If we, as a human race, would forgive others just one-third of how much Jesus forgives us, there would be very little prejudice, racism, jealousy, and envy. As a race, many of must get out of this poverty mentality and realize that speaking proper English, getting an education and becoming successful are not limited to one race but open to all races. Many African Americans feel like they have to be defined by their race when in actuality, we should all be defined by our individuality. We have to come to the conclusion that we are one race; before we were defined by our color, we were the human race. We must understand that the best way to prove you are a man is to simply be a man. A real man doesn't feel like he has to prove he's a man, because he already knows he's a man.

This truly inspirational work is a must-read for all. The tips and lessons he explains will assist anyone in being just a better, happier person.
