In the Beginning, Woman was the Sun Raichō Hiratsuka, 2010 'In the Beginning, Woman Was the Sun' presents a personal account of the author's life in late 19th and early 20th century Japanese society. This is a story of a woman at once idealistic and elitist, fearless and vain, perceptive and brilliant.

Parameter Setting in Evolutionary Algorithms F.J. Lobo, Cláudio F. Lima, Zbigniew Michalewicz, 2007-04-03 One of the main difficulties of applying an evolutionary algorithm (or, as a matter of fact, any heuristic method) to a given problem is to decide on an appropriate set of parameter values. Typically these are specified before the algorithm is run and include population size, selection rate, operator probabilities, not to mention the representation and the operators themselves. This book gives the reader a solid perspective on the different approaches that have been proposed to automate control of these parameters as well as understanding their interactions. The book covers a broad area of evolutionary computation, including genetic algorithms, evolution strategies, genetic programming, estimation of distribution algorithms, and also discusses the issues of specific parameters used in parallel implementations, multi-objective evolutionary algorithms, and practical consideration for real-world applications. It is a recommended read for researchers and practitioners of evolutionary computation and heuristic methods.

Principles of Petroleum Reservoir Engineering Gian L. Chierici, 2013-03-09 Six years ago, at the end of my professional career in the oil industry, I left my management position within Agip S.p.A., a major multinational oil company whose headquarters are in Italy, to take up the chair in reservoir engineering at the University of Bologna, Italy. There, I decided to prepare what was initially intended to be a set of lecture notes for the students attending the course. However, while preparing these notes, I became so absorbed in the subject matter that I soon found myself creating a substantial volume of text which could not only serve as a university course material, but also as a reference for wider professional applications. Thanks to the interest shown by the then president of Agip, Ing. Giuseppe Muscarella, this did indeed culminate in the publication of the first Italian edition of this book in 1989. The translation into English and publication of these volumes owes much to the encouragement of the current president of Agip, Ing. Guglielmo Moscato. My grateful thanks are due to both gentlemen. And now - the English version, translated from the second Italian edition, and containing a number of revisions and much additional material. As well as providing a solid theoretical basis for the various topics, this work draws extensively on my 36 years of worldwide experience in the development and exploitation of oil and gas fields.

Lev Shestov and His Times Andrius Valevičius,1993 Lev Shestov (1866-1938) has been acclaimed as the most original twentieth-century Russian philosopher. Living in Paris after the Russian Revolution, Shestov caught the attention of French intellectuals (such as A. Gide, G. Marcel, E. Mounier and later A. Camus) with his penetrating portrayals of existentialists in France. This book examines Shestov's interpretations of Dostoevsky, Tolstoy, Nietzsche, Chekhov, Ibsen and his confrontation with the philosopher Edmund Husserl, whom Shestov first introduced to philosophical circles. This book also takes into consideration a wealth of Russian language literature on Shestov.

Moticka,2015-11-25 A Historical Perspective on Evidence-Based Immunology focuses on the results of hypothesis-driven, controlled scientific experiments that have led to the current understanding of immunological principles. Rethinking India's Oral and Classical Epics Alf Hiltebeitel, 2009-02-15 Throughout India and Southeast Asia, ancient classical epics—the Mahabharata and the Ramayana—continue to exert considerable cultural influence. *Rethinking India's Oral and Classical Epics* offers an unprecedented exploration into South Asia's regional epic traditions. Using his own fieldwork as a starting point, Alf Hiltebeitel analyzes how the oral tradition of the south Indian cult of the goddess Draupadi and five regional martial oral epics compare with one another and tie in with the Sanskrit epics. Drawing on literary theory and cultural studies, he reveals the shared subtexts of the Draupadi cult Mahabharata and the five oral epics, and shows how the traditional plots are twisted and classical characters reshaped to reflect local history and religion. In doing so, Hiltebeitel sheds new light on the intertwining oral traditions of medieval Rajput military culture, Dalits (former Untouchables), and Muslims. Breathtaking in scope, this work is indispensable for those seeking a deeper understanding of South Asia's Hindu and Muslim traditions. This work is the third volume in Hiltebeitel's study of the Draupadi cult. Other volumes include *Mythologies: From Gingee to Kuruksetra* (Volume One), *On Hindu Ritual and the Goddess* (Volume Two), and *Rethinking the Mahabharata* (Volume Four).
