**Cyber Fraud** Rick Howard, 2009-04-23 With millions lost each year, cyber crime has evolved from a minor nuisance to a major concern involving well-organized actors and highly sophisticated organizations. Combining the best of investigative journalism and technical analysis, *Cyber Fraud: Tactics, Techniques, and Procedures* documents changes in the culture of cyber criminals and explores the innovations that are the result of those changes. The book uses the term Botnet as a metaphor for the evolving changes represented by this underground economy. Copiously illustrated, this engaging and engrossing book explores the

state of threats present in the cyber fraud underground. It discusses phishing and pharming, trojans and toolkits, direct threats, pump-and-dump scams, and other fraud-related activities of the booming cyber-underground economy. By examining the geopolitical and socio-economic foundations of a cyber threat landscape, the book specifically examines telecommunications infrastructure development, patterns and trends of internet adoption and use, profiles of specific malicious actors, threat types, and trends in these areas. This eye-opening work includes a variety of case studies – including the cyber threat landscape in Russia and Brazil. An in-depth discussion is provided on the Russian Business Network's (RBN) role in global cyber crime as well as new evidence on how these criminals steal, package, buy, sell, and profit from the personal financial information of consumers. Armed with this invaluable information, organizations and individuals will be better able to secure their systems and develop countermeasures to disrupt underground fraud.

**Mashpee in Words and Pictures** Rosemary Burns Love, 2015-09-08 A trip to Ireland in 1978 to visit the birthplace of her ancestors, who emigrated to Stamford, Connecticut in 1850, motivated Rosemary Hickey Burns Love to learn more about her relatives and their lives in Stamford. She spent many hours searching all of the available records, discovering births, deaths and marriages, and the properties bought and sold by her great-great-grandfather and his descendants. That accomplished, she widened her research to discover the identity of the builder of the centuries-old stonewall on the property where she lived in Stamford. The result was a 216-page history: *Springdale Remembered - A History of a Section of Stamford, Connecticut 1640-1949*, published in 1982. She was a long time member of the Board of Directors of the Stamford Historical Society. A graduate of Katharine Gibbs School in New York City, Rosemary, who was born in Stamford in 1930, and her husband Joe Burns, parents of three daughters, Kelli Young, June Norden and Susan Windle, resided in Stamford until 1985, when they moved to Mashpee, Massachusetts. Rosemary immediately joined the Mashpee Historical Commission and began a study of Mashpee's past. She has spent thousands of hours researching and correlating all of the records made known to her. To celebrate the 125th anniversary of the incorporation of the town of Mashpee, Rosemary wrote *Mashpee 1870-1995*, a pictorial history. In 2008 she authored *A History of New Seabury* by the

Sea, about the community where she lives in Mashpee. The Connecticut League of Historical Societies, and nationally known authors Nathaniel Philbrick, William Martin, and Daniel Mandell have acknowledged her contributions to local history. A widow since 1996, Rosemary married Jack Love of New Seabury and North Fort Myers, Florida in 2011. Active golfers and boaters, they reside on Ockway Bay, enjoying all of Mashpee's natural wonders.
