Shopping Environments Peter Coleman,2007-06-07 Shopping centers have become the most common of shopping environments and have influenced the make-up of cities around the world. However, in recent years, the enclosed mall has evolved and diversified with new types of retail environments that were developed to better suit their locale and meet public expectation. This design guide has over 600 illustrations that present the core values and considerations that make a successful retail center: location, catchment user needs, as well as access and layout. Covering everything from site master planning to the essentials of public facilities and the technical systems, this is essential reading for architects of contemporary shopping centers. A series of international examples showcasing different types of shopping environments are included to cover the wide range of designs that have occurred in recent years. From the out of town mall to retail parks and mixed use town center developments, the best of contemporary design is illustrated to provide both practical information and inspiration.

Anatomy of a Banking Scandal Robert Pasley,2017-07-05 In the early 1990s, the First National Bank of Keystone in West Virginia began buying and securitizing subprime mortgages from all over the country, and quickly grew from a tiny bank with just \$100 million in assets to over \$1.1 billion. For three years, it was listed as the most profitable large community bank in the country. It was all a fraud. All of the securitization deals the bank entered into lost money. To hide that fact, bank insiders started cooking the books, and concealing that they were also embezzling millions of dollars from the bank. This was all hidden from the bank's attorneys and auditors, federal bank examiners, and even the board of directors of the bank. To keep the examiners at bay, the bank insiders did everything possible to avoid giving them access to documents they were entitled to see, documents they knew would sink their scheme. The head of the bank even went so far as to bury four large truckloads of documents in a ditch on her ranch. Robert S. Pasley explores the failure of the First National Bank of Keystone, the intrigue involved, and the lessons that could have been learnedand still can be learnedabout how banks operate, how federal banking regulators supervise financial institutions, how agencies interact with one another, and how such failures can be avoided in the future.

The Palace of Glass Django Wexler,2016-04-12 An action-packed middle-grade fantasy with classic writing, a resourceful heroine, a host of magical creatures, and no shortage of narrow escapes—for fans of *Story Thieves*, *Inkheart*, *Coraline*, and *Harry Potter*. For Alice, danger threatens from inside the library as well as out. Having figured out the role her master and uncle, Geryon, played

in her father's disappearance, Alice turns to Ending—the mysterious, magical giant feline and guardian of Geryon's library—for a spell to incapacitate Geryon. But, like all cats, Ending is adept at keeping secrets and Alice doesn't know the whole story. Once she traps Geryon with Ending's spell, there's no one to stop the other Readers from sending their apprentices to pillage Geryon's library. As Alice prepares to face an impending attack from the combined might of the Readers, she gathers what forces she can—the apprentices she once thought might be her friends, the magical creatures imprisoned in Geryon's library—not knowing who, if anyone, she can trust.

The Native American Renaissance Alan R. Velie, A. Robert Lee, 2013-11-11 The outpouring of Native American literature that followed the publication of N. Scott Momaday's Pulitzer Prize-winning *House Made of Dawn* in 1968 continues unabated. Fiction and poetry, autobiography and discursive writing from such writers as James Welch, Gerald Vizenor, and Leslie Marmon Silko constitute what critic Kenneth Lincoln in 1983 termed the Native American Renaissance. This collection of essays takes the measure of that efflorescence. The contributors scrutinize writers from Momaday to Sherman Alexie, analyzing works by Native women, First Nations Canadian writers, postmodernists, and such theorists as Robert Warrior, Jace Weaver, and Craig Womack. Weaver's own examination of the development of Native literary criticism since 1968 focuses on Native American literary nationalism. Alan R. Velie turns to the achievement of Momaday to examine the ways Native novelists have influenced one another. Post-renaissance and postmodern writers are discussed in company with newer writers such as Gordon Henry, Jr., and D. L. Birchfield. Critical essays discuss the poetry of Simon Ortiz, Kimberly Blaesser, Diane Glancy, Luci Tapahonso, and Ray A. Young Bear, as well as the life writings of Janet Campbell Hale, Carter Revard, and Jim Barnes. An essay on Native drama examines the work of Hanay Geiogamah, the Native American Theater Ensemble, and Spider Woman Theatre. In the volume's concluding essay, Kenneth Lincoln reflects on the history of the Native American Renaissance up to and beyond his seminal work, and discusses Native literature's legacy and future. The essays collected here underscore the vitality of Native American literature and the need for debate on theory and ideology.

Buildings of Michigan Kathryn Bishop Eckert, 1993 In *Buildings of Michigan*, Kathryn Bishop Eckert provides the first study of Michigan's architectural history to encompass the full range of buildings from early settlement to the present and to account for the full spectrum of architectural styles unique to this state. Dividing the state into two regional sections--the Upper Peninsula and Lower Peninsula--the book examines such structures as the mine locations in the Copper Range, early inns and houses

along the Sauk Trail, the sandstone architecture of the Lake Superior region, resort architecture of the Little Traverse region, lighthouses and lifesaving stations of the Michigan shorelines of the Upper Great Lakes, the great houses of automotive industrialists in Grosse Pointe, the factories of Albert Kahn, the work of various local architects, and so on. Buildings of each period, style, type, and material is represented and a balanced selection of structures from urban, suburban, and rural areas are maintained to capture the essence of Michigan's architectural experience

Many Peoples, One Land Alethea K. Helbig, Agnes Regan Perkins, 2000-10-30 Celebrating the wealth of quality multicultural literature recently published for children and young adults, this valuable resource examines the fiction, oral tradition, and poetry from four major ethnic groups in the United States. Each of these genres is considered in turn for the literature dealing with African Americans, Asian Americans, Hispanic Americans, and Native-American Indians. Taking up where their earlier volume *This Land is Our Land* left off, Helbig and Perkins have teamed up once again to identify and expertly evaluate more than 500 multicultural books published from 1994 through 1999. Both considered authorities in the field of children's literature, the two of them personally selected, read, and evaluated all the books included here. Their insightful annotations help readers carefully consider both literary standards such as plot development, characterization, and style, as well as cultural values as they are represented in these cited works. Each entry also indicates the suggested age and grade level appropriateness of the work. With the proliferation and ever increasing popularity of multicultural literature for children and young adults, this sensitively written volume will serve as an invaluable collection development tool. Teachers, as well as librarians, will find the comprehensiveness and organization of this bibliography helpful as a guide in selecting appropriate materials for classroom use. Even students will find this book easy to use, with its five indexes identifying works by title, writer, illustrator, grade level, and subject. Public libraries and school media centers will find much use for *Many Peoples, One Land*.

Dreams of Fiery Stars Catherine Rainwater, 2010-08-03 Selected by *Choice* magazine as an

Outstanding Academic Book for 1999 Since the 1968 publication of N. Scott Momaday's *House Made of Dawn*, a new generation of Native American storytellers has chosen writing over oral traditions. While their works have found an audience by observing many of the conventions of the mainstream novel, Native American written narrative has emerged as something distinct from the postmodern novel with which it is often compared. In *Dreams of Fiery Stars*, Catherine Rainwater examines the novels of writers such as Momaday, Linda Hogan, Leslie Marmon Silko, Gerald Vizenor, and Louise Erdrich and contends that the very act of writing narrative imposes constraints upon these authors that are foreign to Native American tradition. Their works amount to a break with—and a transformation of—American Indian storytelling. The book focuses on the agenda of social and cultural regeneration encoded in contemporary Native American narrative, and addresses key questions about how these works achieve their overtly stated political and revisionary aims. Rainwater explores the ways in which the writers create readers who understand the connection between storytelling and personal and social transformation; considers how contemporary Native American narrative rewrites Western notions of space and time; examines the existence of intertextual connections between Native American works; and looks at the vital role of Native American literature in mainstream society today.

Nevada Michael S. Green, 2015-03-23 Nevada: A History of the Silver State has been named a CHOICE Outstanding Title. Michael S. Green, a leading Nevada historian, provides a detailed survey of the Silver State's past, from the arrival of the early European explorers, to the predominance of mining in the 1800s, to the rise of world-class tourism in the twentieth century, and to more recent attempts to diversify the economy. Of the numerous themes central to Green's analysis of Nevada's history, luck plays a significant role in the state's growth. The miners and gamblers who first visited the state all bet on luck. Today, the biggest contributor to Nevada's tourist economy, gaming, still relies on that same belief in luck. Nevada's financial system has generally been based on a "one industry" economy, first mining and, more recently, gaming. Green delves deeply into the limitations of this structure, while also exploring the theme of exploitation of the land and the overuse of the state's natural resources. Green covers many more aspects of the Silver State's narrative, including the dominance of one region of the state over another, political forces and corruption, and the citizens' often tumultuous relationship with the federal government. The book will appeal to scholars, students, and other readers interested in Nevada history.

Bingo Capitalism Kate Bedford, 2019-07-19 Casinos are often used by political economists, and popular commentators, to think critically about capitalism. Bingo - an equal chance numbers game played in many parts of the world - is overlooked in these conversations about gambling and political economy. *Bingo Capitalism* challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation of everyday gambling economies. The book draws on official records of parliamentary debate, case law, regulations and in-depth interviews with both bingo players and workers to offer the first socio-legal account of this globally significant and immensely popular pastime. It explores the legal and political history of bingo and how gender shapes, and is shaped by, diverse state rules on gambling. It also sheds light on the regulation of workers, players, products, places, and technologies. In so doing it adds a vital new dimension to accounts of UK gambling law and regulation. Through *Bingo Capitalism*, Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy, showing the role of the state in supporting and then eclipsing environments where gambling played a key role as mutual aid. In centring the regulatory entanglement between vernacular play forms, self-organised membership activity, and corporate leisure experiences, she offers a fresh vision of gambling law from the everyday perspective of bingo.
