*Buyology* Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

*The Transhumanist Wager* Zoltan Istvan, 2013  
Philosopher, entrepreneur, and former National Geographic and New York Times correspondent Zoltan Istvan presents his visionary novel, *The Transhumanist Wager*, as a seminal statement of our times. Scorned by over 500 publishers and literary agents around the world, his philosophical thriller has been called revolutionary and socially dangerous by readers, scholars, and religious authorities. The novel debuts a challenging original philosophy, which rebuffs modern civilization by inviting the end of the human

species-and declaring the onset of something greater. Set in the present day, the novel tells the story of transhumanist Jethro Knights and his unwavering quest for immortality via science and technology. Fighting against him are fanatical religious groups, economically depressed governments, and mystic Zoe Bach: a dazzling trauma surgeon and the love of his life, whose belief in spirituality and the afterlife is absolute. Exiled from America and reeling from personal tragedy, Knights forges a new nation of willing scientists on the world's largest seasteading project, Transhumania. When the world declares war against the floating city, demanding an end to its renegade and godless transhuman experiments and ambitions, Knights strikes back, leaving the planet forever changed.

**Active Dreaming** Robert Moss, 2011 Moss's *Active Dreaming* is an original synthesis of contemporary dream work and shamanic methods of journeying and healing. **Screen Space Reconfigured** Susanne O. Saether, Synne T. Bull, 2020-06-05 *Screen Space Reconfigured* is the first edited volume that critically and theoretically examines the many novel renderings of space brought to us by 21st century screens. Exploring key cases such as post-perspectival space, 3D, vertical framing, haptics, and layering, this volume takes stock of emerging forms of screen space and spatialities as they move from the margins to the centre of contemporary media practice. Recent years have seen a marked scholarly interest in spatial dimensions and conceptions of moving image culture, with some theorists claiming that a 'spatial turn' has taken place in media studies and screen practices alike.

Yet this is the first book-length study dedicated to on-screen spatiality as such. Spanning mainstream cinema, experimental film, video art, mobile screens, and stadium entertainment, the volume includes contributions from such acclaimed authors as Giuliana Bruno and Tom Gunning as well as a younger generation of scholars.

*Diversity in Disney Films* Johnson Cheu, 2013-01-10

Although its early films featured racial caricatures and exclusively Caucasian heroines, Disney has, in recent years, become more multicultural in its filmic fare and its image. From Aladdin and Pocahontas to the Asian American boy Russell in Up, from the first African American princess in The Princess and the Frog to Spanish-mode Buzz Lightyear in Toy Story 3, Disney films have come to both mirror and influence our increasingly diverse society. This essay collection gathers recent scholarship on representations of diversity in Disney and Disney/Pixar films, not only exploring race and gender, but also drawing on perspectives from newer areas of study, particularly sexuality/queer studies, critical whiteness studies, masculinity studies and disability studies. Covering a wide array of films, from Disney's early days and Golden Age to the Eisner era and current fare, these essays highlight the social impact and cultural significance of the entertainment giant. Instructors considering this book for use in a course may request an examination copy here.
