The Cosmic Gallery Giles Sparrow,2013-02-28 The heavens are alive with breathtaking beauty: from the incandescent surface of the Sun to the shimmering tail of a comet; the birth of planets to the death of stars; the dancing shadows of Jupiter's moons to the silhouettes of eclipses. The Cosmic Gallery contemplates the entire cosmos as a grand celestial art exhibit. In six thematically organized chapters, Giles Sparrow presents an array of stunning images, ranging from easily seen phenomena to the most distant and intricate galaxies, providing the reader with an exciting and beautiful new perspective on the cosmos.

After-Images of the City Joan Ramon Resina,Dieter Ingenschay,2018-08-06 Criticism on the textual and iconographic construction of the city is extensive, yet the problem of historical change in representations of the urban has received little attention. Believing traditional accounts are limited by their reflection of a specific historical moment, Joan Ramon Resina and Dieter Ingenschay focus, by contrast, on transition. In essays written for this volume, scholars of literary and visual studies, the history of architecture, cultural theory, and urban geography explore the ways perceptual or conceptual paradigms of the city supersede or replace others, while at the same time retaining the after-image of what went before. The writers touch on a wide variety of issues related to contemporary urban cultures as they journey through cities including New York, Barcelona, Madrid, Paris, Tijuana, Berlin, and London. Drawing on the work of Roland Barthes, Walter Benjamin, Camilo José Cela, Honoré de Balzac, and Alfred Stieglitz, their approach is broadly cultural rather than technical. After-Images of the City takes into account the intrinsic instability of the image and reveals that representations of the modern metropolis cannot be fixed in time and history.

Garbage in Popular Culture Mehita Iqani,2020-11-01 Garbage in Popular Culture is the first book to explicitly link media discourse, consumer culture and the cultural politics of garbage in contemporary global society. It makes an original contribution to the areas of consumer culture studies, visual culture, media and communications, and cultural theory through a critical analysis of the ways in which waste and garbage are visually communicated in the public realm. Mehita Iqani examines three key themes evident in the global representation of garbage: questions of agency and activism, cultures of hedonism and luxury, and anxieties about devastation and its affect. Each theme is explored through a number of case studies, including zero-waste recycling campaigns communicated on Instagram, to fine art made with waste, popular entertainment festivals, tropical beach tourism, and films about oil spills and plastic waste in oceans. Iqani argues that we need a new vocabulary to think about what it means to be human in this new age of consumption-produced waste, and reflects on what rubbish allows us to learn about our relationship with the natural world.

News Discourse Monika Bednarek,Helen Caple,2018-10-19 Now reissued and retypeset, this canonical book explores the role of language and images in newspaper, radio, online and television news. The authors introduce useful frameworks for analysing language, image and the interaction between the two, and illustrate these with authentic news stories from around the English-speaking world, ranging from the Oktoberfest to environmental disasters to the killing of Osama bin Laden. This analysis persuasively illustrates how events are retold in the news and made 'newsworthy' through both language and image. This clearly written and accessible introduction to news discourse is essential reading for students, lecturers and researchers in linguistics, media and journalism studies and semiotics.
