*Garry Fabian Miller* Garry Fabian Miller,2019-10-10 The first monograph in almost a decade on one of the most significant abstract photographers working today Garry Fabian Miller is one of the most progressive artists working with photography today. He gained international acclaim in the 1970s for his photographs of sky, land and sea. Since the mid-1980s, he has exclusively made 'camera-less' photographs, using the techniques of the earliest pioneers of photography to experiment with the nature and possibilities of light as medium and subject. He works in the darkroom, shining light through coloured glass and liquid and over cut paper to create forms that record directly onto photographic paper. In contrast to the norm of exposures that last for a fragment of a second, Fabian Miller often uses long exposure times - of up to twenty hours - to create his unique and luminous images. With his interest in pure light and 'true colour', he not only realigns photography with abstraction, but also takes the medium back to a degree-zero state of process. *Blaze* presents recent work by Fabian Miller made during the anxious period when the materials and chemistry that have sustained his practice for nearly forty years have been disappearing. It also represents a step forward in his examination of the potential of digital technology that has rendered his Cibachrome printmaking obsolete. The book includes forty-five works made in the last four years that represent what fellow artist Edmund de Waal identifies as an 'endgame'. De Waal brings the moment of *Blaze* into focus in an introductory essay and meditation on the word itself and on ideas about 'late work' in the life of a maker. A poem by the award-winning poet Alice Oswald written in response to the works in the book completes this beautiful volume.

*HOLLYWOOD 'B' MOVIES: A Treasury of Spills, Chills & Thrills* John Reid,2005-09-01 By the mid-1930s, cinema patrons insisted on value-for-money. Double feature programs became mandatory at all neighborhood cinemas. Usually the A feature film figured as the main attraction, and the supporting movie, the B. Sometimes that role was reversed. On many occasions picturegoers felt the unheralded B movie had actually proved more entertaining than the widely advertised A attraction. More than two hundred of these wonderful B film classics from Hollywood's golden age are described, reviewed and detailed in this book. It's a must-have for all film addicts, movie fans and nostalgia connoisseurs.

Art, Ritual, and Trance Inquiry Barbara A. Bickel,2020-11-02 This book provides insights into the practice of trance-based inquiry through arts-based research, serving as a beacon to guide the way to thresholds of ancient, yet novel, transmissions. Embedded in lived experience and theory, this book introduces the reader to the liminal space of place and trance-based inquiry processes entwined with creative artworkings. The interweaving of art, ritual, and trance-based inquiry opens sacred spaces for learning and unlearning that bring spirit into form. Each chapter presents examples from women artists and culminates with experiential practices drawn from the author's decades of creative peregrinations to assist artists, teachers, and researchers in transmitting a conscious way of practicing and creating with trance.

Brannigan's Building Construction for the Fire Service Francis Brannigan,Glenn Corbett,2010-02-22 Brannigan's Building

Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition. *Fundamentals of Fire Fighter Skills* International Association of Fire Chiefs,2009 With the release of the Second Edition, Jones and Bartlett Publishers, the National Fire Protection Association®, and the International Association of Fire Chiefs have joined forces to raise the bar for the fire service once again. Safety Is Fundamentals! The Second Edition features a laser-like focus on fire fighter injury prevention, including a dedicated chapter on safety. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, of every fire department, and of the entire fire community working together. It is with this goal in mind that we have integrated the 16 Fire Fighter Life Safety Initiatives developed by the National Fallen Fire Fighter Foundation into Chapter 2, Fire Fighter Safety. In most of the chapters, actual National Fire Fighter Near-Miss Reporting System cases are discussed to drive home important points about safety and the lessons learned from those real-life incidents. It is our profound hope that this textbook will contribute to the goal of reducing line-of-duty deaths by 25 percent in the next 5 years. Fundamentals of Fire Fighter Skills, Second Edition thoroughly supports instructors and prepares students for the job. This one-volume text meets and exceeds the Fire Fighter I and II professional qualifications levels as outlined in the 2008 edition of NFPA 1001, Standard for Fire Fighter Professional Qualifications. It also covers all of the Job Performance Requirements (JPRs) listed in the 2008 edition of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, at the awareness and operations levels, including Section 6.2, Mission-

Specific Competencies: Personal Protective Equipment and Section 6.6, Mission-Specific Competencies: Product Control. Click here to view a sample chapter from Fundamentals of Fire Fighter Skills, Second Edition.
