The Politics of Consumption Alan Bradshaw, Norah Campbell, Stephen Dunne, 2013-05 This age of austerity comes on the back of a lengthened period of apparently rampant consumer excess: that was a party for which we are all now having to pay. A spectacular period of unsustainably funded over-indulgence, it seems, has now given rise to a

sobering period of barely fundable mere-subsistence. Consumption, narrated along such lines, is a sin which has to be paid for. Beyond the deceptive theology of consumption, however, lies actual politics. In May 2012, we hosted a conference at Dublin's Royal Society of the Antiquaries of Ireland in order to analyse and debate the politics of consumption. This special issue is the outcome of the discussions which took place during that event. It features conceptual and empirical investigations into the politics of consumption, a head-to-head debate on the idea of consumer citizenship, a series of notes on the relationship between art, politics, and consumption, and reviews of two recent books. Taken together, these diverse pieces underline the need for a politically-oriented analysis of consumption, not only for the sake of informing academic debates but also for the sake of informing contemporary consumption practices. Consumption, we argue, is political: to approach it otherwise is to dogmatically seek refuge in a world of fantasy. Issue editors: Alan Bradshaw, Norah Campbell and Stephen Dunne. Contributors: Ben Fine, Kate Soper, Peter Armstrong, Matthias Zick Varul, Eleftheria Lekakis, Isleide Fontenelle, Adam Arvidsson, Detlev Zwick, Olga Kravets, Stevphen Shukaitis, David Mabb, Antigoni Memou, Femke Kaulingfreks, Ruud Kaulingfreks, Andreas Chatzidakis, Georgios Patsiaouras, Gavin Brown and Angus Cameron.

Great Women of Imperial Rome Jasper Burns, 2006-11-22 Drawing from a broad range of documentation this book vividly characterizes

eleven royal women who are brought visually to life through photographs of over 300 ancient coins and through the author's own illustrations. Spanning the period from the death of Julius Caesar in 44BC to the third century AD, and with an epilogue surveying empresses of later eras, the author's compelling biographies reveal their remarkable contributions towards the legacy of Imperial Rome. Examining the wives, daughters, sisters and mothers of emperors, the study includes: a pregnant Roman princess who saves a Roman army through an act of personal heroism three third-century empresses who rule the most powerful state on Earth, presiding over unprecedented social and political reform an empress, though revered by her husband, is immortalized in history for infidelity and corruption by students of her greatest enemy. Jasper Burns paints portraits of these exceptional women that are colourful, sympathetic, and above all profoundly human. This book will be highly valuable to numismatists, students and scholars of Roman history or women's studies.

The Psychology of the Girl with the Dragon Tattoo Robin S. Rosenberg, Shannon O'Neill, 2011-12-06 Lisbeth Salander, heroine of Stieg Larsson's *The Girl with the Dragon Tattoo* and its sequels, is one of the most compelling, complex characters of our time. Is she an avenging angel? A dangerous outlaw? What makes Salander tick, and why is our response to her—and to Larsson's *Millennium* trilogy—so strong? In *The Psychology of the Girl with the Dragon Tattoo*, 19 psychologists and psychiatrists attempt to do what

even expert investigator Mikael Blomkvist could not: understand Lisbeth Salander. • What does Lisbeth's infamous dragon tattoo really say about her? • Why is Lisbeth so drawn to Mikael, and what would they both need to do to make a relationship work? • How do we explain men like Martin Vanger, Nils Bjurman, and Alexander Zalachenko? Is Lisbeth just as sexist and as psychopathic as they are? • What is it about Lisbeth that allows her to survive, even thrive, under extraordinary conditions? • How is Lisbeth like a Goth-punk Rorschach test? And what do we learn about ourselves from what we see in her?

More than 200 ethnographies have been published through the years, many of which have become classics in the field. And as the world continues to evolve into a global community, the more recent studies in the series provide not only readable, informative ethnographic treatments of the world's cultures but also discussions of their interactions and the consequent changes that ensue. Cooney, 1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.-- Jacket.

So They Understand William Schneider, 2002-11 Illustrated with numerous stories collected from Alaska, the Yukon, and South Africa and further enlivened by the author's accessible style and experiences as a longtime oral historian and archivist, So They Understand is a comprehensive study of the special challenges and concerns involved in documenting, representing, preserving, and interpreting oral narratives. The title of the book comes from a quotation by Chief Peter John, the traditional chief of the Tanana Chiefs region

in central Alaska: In between the lines is something special going on in their minds, and that has got to be brought to light, so they understand just exactly what is said. William Schneider discusses how stories work in relation to their cultures and performance settings, sorts out different types of stories-from broad genres such as personal narratives and life histories to such more specific and less-often considered types as presentations at hearings and other public gatherings-and examines a variety of critical issues, including the roles and relationships of storytellers and interviewers, accurate representation and preservation of stories and their performances, understanding and interpreting their cultural backgrounds and meanings, and intellectual property rights. Throughout, he blends a diverse selection of stories, including his own, into a text rich with pertinent examples. William Schneider is curator of oral history and associate in anthropology at the Rasmuson Library, University of Alaska Fairbanks, where he introduced oral history jukeboxes, innovative interactive, multimedia computer files that present and cross-reference audio oral history and related photos and maps. Among other works, his publications include, as editor, *Kusiq: An Eskimo Life History from the Arctic Coast of Alaska* and, with Phyllis Morrow, *When Our Words Return: Writing, Hearing, and Remembering Oral Traditions of Alaska and the Yukon*.

A Generation Divided Rebecca E.

Klatch, 2023-09-01 The 1960s was not just an era of civil rights, anti-war protest, women's

liberation, hippies, marijuana, and rock festivals. The untold story of the 1960s is in fact about the New Right. For young conservatives the decade was about Barry Goldwater, Ayn Rand, an important war in the fight against communism, and Young Americans for Freedom (YAF). In *A Generation Divided*, Rebecca Klatch examines the generation that came into political consciousness during the 1960s, telling the story of both the New Right and the New Left, and including the voices of women as well as men. The result is a riveting narrative of an extraordinary decade, of how politics became central to the identities of a generation of people, and how changes in the political landscape of the 1980s and 1990s affected this identity.

The Death and Life of Charlie St. Cloud Ben Sherwood, 2004-03-02 *The Death and Life of Charlie St. Cloud* tells the haunting story of a young man who narrowly survives a terrible car wreck that kills his little brother. Years later, the brothers' bond remains so strong that it transcends the normal boundaries separating life and death. Charlie St. Cloud lives in a snug New England fishing village. By day he tends the lawns and monuments of the ancient cemetery where his younger brother, Sam, is buried. Graced with an extraordinary gift after surviving the accident, he can still see, talk, and even play catch with Sam's spirit. But townsfolk whisper that Charlie has never recovered from his loss. Into his carefully ordered life comes Tess Carroll, a captivating, adventuresome woman training for a solo sailing trip around the globe. Fate steers her boat into a treacherous storm that blows her

back to harbor, to a charged encounter with Charlie, and to a surprise more overwhelming than the violent sea itself. Charlie and Tess discover a beautiful and uncommon connection that leads to a race against time and a desperate choice between death and life, between the past and the future, between holding on and letting go. Luminous, soulful, and filled with unforgettable characters, *The Death and Life of Charlie St. Cloud* is one of those rare, wise books that reveal the mysteries of the unseen world around us, gently transforming the worst pain of loss into hope, healing, and even laughter. Suspenseful and deeply moving, its startling climax reminds us that sometimes tragedies can bring about miracles if we simply open our hearts.

Arguments and Icons : Divergent Modes of Religiosity Harvey Whitehouse, 2000-06-01 Why do initiations in Papua New Guinea often subject novices to violence and terror? Why do some cargo cults lead to regional unity and others to regional divisions? How have features of cognitive processing in missionary Christianity contributed to new forms of identity among Melanesians? The theory of 'modes of religiosity' which Whitehouse here develops answers these and a range of other questions about Melanesia with reference to a set of interconnections between styles of religious transmission, systems of memory, and patterns of political association. Although building his argument on detailed Melanesian ethnography, Whitehouse goes on to suggest that the theory of modes of religiosity may have wider applicability. Thus, in the final two chapters of this book, he

explores such diverse topics as the spread of Reformed Christianity in sixteenth-century Europe, the interpretation of Upper Palaeolithic cave art, the genesis of tribal warfare, and the impact of literacy on social transmission and organization.

Father Night Eric Lustbader, 2013-08-27 When reform efforts in the Middle East culminate in a violent power struggle between two criminal underworld bosses, Jack McClure finds himself at the center of a multi-national uprising that is complicated by powerful enemies.

During My Time Margaret B. Blackman, 2017-08-24 This book is the first life history of a Northwest Coast Indian woman. Florence Davidson, daughter of noted Haida carver and chief Charles Edenshaw, was born in 1896. As one of the few living Haida elders knowledgeable about the culture of a bygone era, she was a fragile link with the past. Living in Masset on the Queen Charlotte Islands, some fifty miles off the northwest coast of British Columbia, Florence Davidson grew up in an era of dramatic change for her people. One of the last Haida women to undergo the traditional puberty seclusion and an arranged marriage, she followed patterns in her life typical of women of her generation. Florence's narrative -- edited by Professor Blackman from more than fifty hours of tape recordings -- speaks of girlhood, of learning female roles, of the power and authority available to Haida women, of the experiences of menopause and widowhood. Blackman juxtaposes comments made by early observers of the Haida, government agents, and missionaries, with appropriate portions of the life history narrative, to portray a culture

neither traditionally Haida nor fully Canadian, a culture adapting to Christianity and the imposition of Canadian laws. Margaret Blackman not only preserves Florence Davidson's memories of Haida ways, but with her own analysis of Davidson's life, adds significantly to the literature on the role of women in cross-cultural perspective. The book makes an important contribution to Northwest Coast history and culture, to the study of culture change, to fieldwork methodology, and to women's studies.

Alive in the Writing Kirin Narayan, 2012-03 Anton Chekhov is revered as a boldly innovative playwright and short story writer - but he wrote more than just plays and stories. In this book, the author introduces readers to some other sides of Chekhov.

Pedagogic Frailty and Resilience in the University Ian M. Kinchin, Naomi E. Winstone, 2017-04-17 *Pedagogic Frailty and Resilience in the University* presents a theoretical model and a practical tool to support the professional development of reflective university teachers. It can be used to highlight links to key issues in higher education. Pedagogic frailty exists where the quality of interaction between elements in the evolving teaching environment succumbs to cumulative pressures that eventually inhibit the capacity to develop teaching practice. Indicators of frailty can be observed at different resolutions, from the individual, to the departmental or the institutional. Chapters are written by experts in

their respective fields who critique the frailty model from the perspectives of their own research. This will help readers to make practical links between established bodies of research literature and the concept of frailty, and to form a coherent and integrated view of higher education. This can then be explored and developed by individuals, departments or institutions to inform and evaluate their own enhancement programmes. This may support the development of greater resilience to the demands of the teaching environment. In comparison with other commonly used terms, we have found that the term 'frailty' has improved resonance with the experiences of colleagues across the disciplines in higher education, and elicits a personal (sometimes emotional) response to their professional situation that encourages positive dialogue, debate and reflection that may lead to the enhancement of university teaching. This book offers a particular route through the fractured discourses of higher education pedagogy, creating a coherent and cohesive perspective of the field that may illuminate the experiences and observations of colleagues within the profession. "If we are to realise the promise of higher education ... we will need the concepts, methods, and reflections contained in this book." – Robert R. Hoffman
