An author platform is the most powerful key to success in today's saturated market, and increasingly, publishers are demanding that new authors come to them with an existing audience of interested followers. Authors who are self-publishing have an even bigger need to build an engaged audience. Social media makes building the author platform easier than ever, but, unfortunately, most authors struggle to get it right. How can authors create their unique platform, connect with followers, write a manuscript, and grow their business? In *Build Your Author Platform: The New Rules*, top literary agent Carole Jelen and tech expert Michael McCallister apply their combined 35 years of expertise to outline 14 practical, hands-on steps to create a presence that will produce high book sales and expanded audience. The Corporate Blog as an Emerging Genre of Computer-mediated Communication Cornelius

Puschmann, 2010 Digital technology is increasingly impacting how we keep informed, how we communicate professionally and privately, and how we initiate and maintain relationships with others. The function and meaning of new forms of computer-mediated communication (CMC) is not always clear to users on the onset and must be negotiated by communities, institutions and individuals alike. Are chatrooms and virtual environments suitable for business communication? Is email increasingly a channel for work-related, formal communication and thus for old people, as especially young Internet users flock to Social Networking Sites (SNSs)? Cornelius Puschmann examines the linguistic and rhetorical properties of the weblog, another relatively young genre of CMC, to determine its function in private and professional (business) communication. He approaches the question of what functions blogs realize for authors and readers and argues that corporate blogs, which, like blogs by private individuals,

are a highly diverse in terms of their form, function and intended audience, essentially mimic key characteristics of private blogs in order to appear open, non-persuasive and personal, all essential qualities for companies that wish to make a positive impression on their constituents.

The Blog That Became a Book Edward Trice, 2013-10-31 This book began as a series of posts on my blog/website edwardsjournal.com in April 2008. Spirited by the need to vent my frustrations with daily life, the posts expanded in choice of subjects. The elections and events of that year, economic collapse, disturbing lies with a horrific war all provided ample fuel to blog. The posting dates provided a running factual history of occurrences as I saw them then. The events from the beginning to the present has been a treasure chest to look back on and a reference for what is truly problematic to all of us. Reaching every concern of my life, especially democratic issues, sports, my journal became more personally therapeutic with each and every post. These blogs reflect my humble understanding of our world and it's events. With as much gratitude and appreciation to my readers that can be imagined for finding the time to read and consider it's content , I offer my book from my blog

All's Fair in Blog and War Chrissie Peria, 2013-10
Five Cuevas @5travels Three guesses to where I'm going next. Starts with an M. Ends with a U. Has a lechon named after it. #travel
Twenty-something travel blogger Five thinks she

has hit the jackpot when she gets invited to glittering Macau for an all-expense-paid bloggers tour. Think majestic old churches, sparkling casinos, exhilarating bungee jumps, and the world's most unforgettable egg tarts. The trip is practically perfect, except for one little glitch. She gets assigned to be travel buddies with Jesse, the world's most infuriating photo blogger, and it's definitely war at first sight. Will Five let Jesse turn her dream vacation into a total nightmare? Or will falling in love be on the itinerary?

365 Blog Topic Ideas Dana Fox, 2014-11-26 It can be tough coming up with new blog topics every now and then. Do you ever just feel stuck? This book was designed to help dig you out of a blogging rut and inspire new ideas. Whether you're just getting started with your blog, or you're a seasoned blogger, 365 Blog Topic Ideas For The Lifestyle Blogger Who Has Nothing to Write About is the one book you should keep close by. Containing an entire year's worth of actual blog topics that can be adapted by a wide variety of lifestyle blogs, this easily formatted book will help you fall in love with writing all over again. FROM THE AUTHOR: 365 Blog Topic Ideas is a book I wrote to help you feel a little more inspired when you're feeling stuck for content. You literally get an entire year's worth of ideas that you can mix in with your own regular content whenever you feel the desire! My goal: to help you become unstuck and spark a little creativity. Being a lifestyle blogger could mean something different for many of us. Some of us blog about our home lives, some about cooking or beauty or fashion. I tried my best to make these topics appeal to a large group of different niches, and I think it's fairly easy to adapt them to your own blog demographic if you need to. I also included different types of topics to help your readers get to know you, and also

increase the share quality of your posts, because I think that both are super important in building a following as well as traffic. From my research and experience, certain types of posts get more shares than others, so I've made sure to include handfuls of those in this book! You can jump into the book at any page, in no particular order, whether you're just getting started with your blog or not. You can use the topics as-is, or even get a little creative and add your own spin on them! Enjoy your blogging journey! Dana Fox

The Blog Ahead R Hall, Scott, R. Scott Hall, 2006
THE BLOG AHEAD One of the Internet pioneers takes a look at the impact-and future-of the Blog Revolution. Ideas are flashing around the world at light speed, and R. SCOTT HALL, an Internet pioneer from the early days at CompuServe and online entrepreneur, explores and brilliantly illuminates the way blogs are transforming the way human beings connect minds. Bloggers, Hall maintains, are at the forefront of the greatest change in the life of the mind since the Gutenberg press. Individuals with no establishment connections or entrie can connect with millions worldwide, relying solely on the power of their ideas and their prose to get-and influence-an audience that print journalists and authors could

only dream of. Communities of interest, unlimited by time and space, are springing into existence: now they are even exerting force on the traditional levers of power. Hall gives a trenchant, often humorous, analysis of this revolution in the human Zeitgeist, ranging from politics, to media, to the arts. Here's some of the fascinating terrain he covers in his analysis of how blogging is reshaping the world of ideas, affecting global public opinion and mass media: ¶ This new form of horizontal communication is examined and compared to its (feeble) predecessors ¶ Blogging runs smack-dab into the Rear Guard, and both sides end up blinking ¶ The remunerated wordsmiths test the new blogging waters for unmined gold ¶ Businesses from the Drucker Era bow down to the great god Gates ¶ The next generation of leaders master the tools they will use ¶ The dank world of geekery meets the high-wattage expectations of aesthetics ¶ The blogosphere auto-assembles-andbecomes a powerful force for change Finally, Hall assembles a list of Axioms of Blogosophy: principles for the first true citizens of the world. This survey of the world of blogs is only a sampling of the wonderful, surprising, and occasionally repulsive experiences that await the undaunted armchair explorer of the blogosphere. - R. Scott Hall

Say Everything Scott Rosenberg, 2009-06-16 Blogs are everywhere. They have exposed truths and spread rumors. Made and lost fortunes. Brought couples together and torn them apart. Toppled cabinet members and sparked grassroots movements. Immediate, intimate, and influential, they have put the power of personal publishing into everyone's hands. Regularly dismissed as trivial and ephemeral, they have proved that they are here to stay. In *Say Everything*, Scott Rosenberg chronicles blogging's unplanned rise and improbable triumph, tracing its impact on

politics, business, the media, and our personal lives. He offers close-ups of innovators such as Blogger founder Evan Williams, investigative journalist Josh Marshall, exhibitionist diarist Justin Hall, software visionary Dave Winer, mommyblogger Heather Armstrong, and many others. These blogging pioneers were the first to face new dilemmas that have become common in the era of Google and Facebook, and their stories offer vital insights and warnings as we navigate the future. How much of our lives should we reveal on the Web? Is anonymity a boon or a curse? Which voices can we trust? What does authenticity look like on a stage where millions are fighting for attention, yet most only write for a handful? And what happens to our culture now that everyone can say everything? Before blogs, it was easy to believe that the Web would grow up to be a clickable TV-slick, passive, mass-market. Instead, blogging brought the Web's native character into focus-convivial, expressive, democratic. Far from being pajama-clad loners, bloggers have become the curators of our collective experience, testing out their ideas in front of a crowd and linking people in ways that broadcasts can't match. Blogs have created a new kind of public sphere-one in which we can think out loud together. And now that we have begun, Rosenberg writes, it is impossible to imagine us stopping. In his first book, *Dreaming in Code*, Scott Rosenberg brilliantly explored the art of creating software (the first true successor to *The Soul of a New Machine*, wrote James Fallows in *The Atlantic*). In *Say Everything*, Rosenberg brings the same perceptive eye to the blogosphere, capturing as no one else has the birth of a new medium.

Google Scholar and More William Miller, Rita Pellen, 2014-01-02 In only a few years, Google has become an authoritative provider of multiple products which have changed the digital information landscape. This book discusses how libraries can go beyond Google's basic search and Scholar functions to expand services for their patrons. Respected authorities reveal the expanding variety of new Google applications developed in the past few years, many of which have not received wide attention and are as yet not often used in libraries. Applications explored include Google Co-op, Google News, Google Docs & Spreadsheets, Google Calendar, and Google Talk. This book also discusses different important aspects of the company's expansion of functions, such as the failure of the Google Answers experiment, the broad variety of free Google applications that librarians can use to collaborate, and the success of Google's Blogger, among others. A helpful chronology of Google's growth is provided, as well as comparative analyses between various Google functions and other functions that are currently available. The book is extensively referenced. This book is an invaluable resource for academic librarians, public librarians, school librarians, library science faculty, and special librarians. This book was published as a special issue of the Journal of Library Administration.

The Discourse of Blogs and Wikis Greg Myers, 2010-01-11 An insightful analysis of the new discourse produced by blogs and wikis.

Bloggging Jill Walker Rettberg, 2013-08-20 Blogging has profoundly influenced not only the nature of the internet today, but also the nature of modern communication, despite being a genre

invented less than a decade ago. This book-length study of a now everyday phenomenon provides a close look at blogging while placing it in a historical, theoretical and contemporary context. Scholars, students and bloggers will find a lively survey of blogging that contextualises blogs in terms of critical theory and the history of digital media. Authored by a scholar-blogger, the book is packed with examples that show how blogging and related genres are changing media and communication. It gives definitions and explains how blogs work, shows how blogs relate to the historical development of publishing and communication and looks at the ways blogs structure social networks and at how social networking sites like MySpace and Facebook incorporate blogging in their design. Specific kinds of blogs discussed include political blogs, citizen journalism, confessional blogs and commercial blogs.
