**The Global Casino** Nick Middleton, 2013-07-18 The Global Casino is an introduction to environmental issues which deals both with the workings of the physical environment and the political, economic and social frameworks in which the issues occur. Using examples from all over the world, the book highlights the underlying causes behind environmental problems, the human actions which have made them issues, and the hopes for solutions. It is a book about the human impact on the environment and the ways in which the natural environment impacts human society. The fifth edition has been fully revised and updated throughout, with new case studies, figures, and online resources such as downloadable figures and tables from the text and multiple choice questions for students, accessible at: [www.routledge.com/cw/middleton](http://www.routledge.com/cw/middleton). New topics covered in extended boxed case studies include payment for environmental services, ocean acidification, biofuels in Brazil, waste reduction through industrial symbiosis, and the long-term impact of natural disasters on vulnerable groups. Other approaches and concepts covered for the first time in this new edition include traditional ecological knowledge, environmental justice, the 'resource curse', and urban biodiversity. Eighteen chapters on key issues follow three initial chapters which outline the background contexts of the physical and human environments and the concept of sustainable development. Each chapter provides historical context for key issues, outlines why they have arisen, and highlights areas of controversy and uncertainty to appraise how issues can be resolved both technically and in political and economic frameworks. Each chapter also contains an updated critical guide to further reading and websites, as well as discussion points and essay questions. The text can be read in its

entirety or individual chapters adopted as standalone reading. The Global Casino is an essential resource for students of the environment, geography, earth sciences and development studies. It provides comprehensive and inspirational coverage of all the major global environmental issues of the day in a style that is clear and critical.

**Into the Wild** Jon Krakauer,2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in

the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

*Tabloid City* Pete Hamill,2011-05-05 Both a portrait of the modern city and a gripping thriller, *Tabloid City* is a classic New York novel from the writer who captured the city for decades. In a stately West Village town house, a wealthy socialite and her secretary are murdered. In the 24 hours that follow, a flurry of activity surrounds their shocking deaths. The head of one of the city's last tabloids stops the presses. A cop investigates the killing. A reporter chases the story. A disgraced hedge fund manager flees the country. An Iraq War vet seeks revenge. And an angry young extremist plots a major catastrophe. The city is

many things: a proving ground, a decadent carnival, or a palimpsest of memories -- a historic metropolis eclipsed by modern times.

*Alas, Babylon* Pat Frank, 2013-06-04 "An extraordinary real picture of human beings numbed by catastrophe but still driven by the unconquerable determination of living creatures to keep on being alive." —The New Yorker "Alas, Babylon." Those fateful words heralded the end. When the unthinkable nightmare of nuclear holocaust ravaged the United States, it was instant death for tens of millions of people; for survivors, it was a nightmare of hunger, sickness, and brutality. Overnight, a thousand years of civilization were stripped away. But for one small Florida town, miraculously spared against all the odds, the struggle was only just beginning, as the isolated survivors—men and women of all ages and

—found the courage to come together and confront the harrowing darkness. This classic apocalyptic novel by Pat Frank, first published in 1959 at the height of the Cold War, includes an introduction by award-winning science fiction writer and scientist David Brin.
