The App Generation Howard Gardner,Katie Davis,2013-10-22 No one has failed to notice that the current generation of youth is deeply--some would say totally--involved with digital media. Professors Howard Gardner and Katie Davis name today's young people The App Generation, and in this spellbinding book they explore what it means to be app-dependent versus app-enabled and how life for this generation differs from life before the digital era. Gardner and Davis are concerned with three vital areas of adolescent life: identity, intimacy, and imagination. Through innovative research, including interviews of young people, focus groups of those who work with them, and a unique comparison of youthful artistic productions before and after the digital revolution, the authors uncover the drawbacks of apps: they may foreclose a sense of identity, encourage superficial relations with others, and stunt creative imagination. On the other hand, the benefits of apps are equally striking: they can promote a strong sense of identity, allow deep relationships, and stimulate creativity. The challenge is to venture beyond the ways that apps are designed to be used, Gardner and Davis conclude, and they suggest how the power of apps can be a springboard to greater creativity and higher aspirations.

team members.

SPECIAL MESSENGER ROBERT W.

CHAMBERS,2007-01-01 Chambers was born in Brooklyn, New York, to William P. Chambers (1827–1911), a corporate and bankruptcy lawyer, and Caroline Smith Boughton (1842–1913). His parents met when his mother was twelve years old and William P. was interning with her father, Joseph Boughton, a prominent corporate lawyer. Eventually the two formed the law firm of Chambers and Boughton which continued to prosper even after Joseph's death in 1861. Robert Chambers's great-grandfather, William Chambers (birth unknown), a lieutenant in the British Royal Navy, was married to Amelia Saunders (1765–1822), a great granddaughter of Tobias Saunders of Westerly, Rhode Island. The couple moved from Westerly to Greenfield, Massachusetts and then to Galway, New York, where their son, also William Chambers (1798–1874), was born. The second William graduated from Union College at the age of 18, and then went to a college in Boston, where he studied medicine. Upon graduating, he and his wife, Eliza P. Allen (1793–1880), a direct descendant of Roger Williams, the founder of Providence, Rhode Island, were among the first settlers of Broadalbin, New York. His brother was the architect Walter Boughton Chambers.

Wilder Girls Rory Power,2019-07-11 'Your new favourite book' – Cosmopolitan An instant New York Times bestseller, Wilder Girls is Rory Power's chilling and unputdownable YA debut. The Power meets We Were Liars

in this compelling story of survival and the power of female friendships, perfect for fans of A Good Girl's Guide to Murder. Everyone loses something to the Tox; Hetty lost her eye, Reese's hand has changed, and Byatt just disappeared completely. It's been eighteen months since the Raxter School for Girls was put in quarantine. The Tox turned the students strange and savage, the teachers died off one by one. Cut off from the mainland, the girls don't dare wander past the school's fence where the Tox has made the woods wild and dangerous. They wait for the cure as the Tox takes; their bodies becoming sick and foreign, things bursting out of them, bits missing. But when Byatt goes missing, Hetty will do anything to find her best friend, even if it means breaking quarantine and braving the horrors that lie in the wilderness past the fence. As she digs deeper, she learns disturbing truths about her school and what else is living on Raxter Island. And that the cure might not be a cure at all . . . Youth Gambling Jeffrey L. Derevensky,Daniel T. L. Shek,Joav Merrick,2011-10-27 Youth gambling represents a potentially serious public policy and health issue. Nevertheless, the rise in youth gambling issues and problems in the global context is not matched with a parallel increase in research on adolescent gambling. As such, there is an urgent need to conduct more studies on adolescent gambling behaviour. Recently significant advances in the knowledge of the risk factors associated with adolescent problems has emerged. This book addresses issues related to prevalence, assessment, prevention and treatment of youth gambling problems as well as concerns related to technological changes associated with youth problem gambling.

Material Encounters and Indigenous Transformations in the Early Colonial Americas,2019-04-09 Material Encounters and Indigenous Transformations in the Early Colonial Americas brings together 15 archaeological case studies that offer new

The Routledge Handbook of Sensory Archaeology Robin Skeates, Jo Day, 2019-10-28 Edited by two pioneers in the field of sensory archaeology, this Handbook comprises a key point of reference for the ever-expanding field of sensory archaeology: one that surpasses previous books in this field, both in scope and critical intent. This Handbook provides an extensive set of specially commissioned chapters, each of which summarizes and critically reflects on progress made in this dynamic field during the early years of the twenty-first century. The authors identify and discuss the key current concepts and debates of sensory archaeology, providing overviews and commentaries on its methods and its place in interdisciplinary sensual culture studies. Through a set of thematic studies, they explore diverse sensorial practices, contexts and materials, and offer a selection of archaeological case-studies from different parts of the world. In the light of this, the research methods now being brought into the service of sensory archaeology are re-examined. Of interest to scholars, students and others with an interest in archaeology around the world, this book will be invaluable to archaeologists and is also of relevance to scholars working in disciplines contributing to sensory studies: aesthetics, anthropology, architecture, art history, communication studies, history (including history of science), geography, literary and cultural studies, material culture studies, museology, philosophy, psychology, and sociology.

Managing Our Past Into the Future Corinne Lisette

Hofman, Jay B. Haviser, 2015 Caribbean archaeological heritage is threatened by natural impacts but also increasingly by economic developments, often resulting from the tourist industry. The continuous construction of specific projects for tourists, accompanied by illegal practices such as looting and sand mining, have major impacts on the region's archaeological heritage. The geopolitical and cultural diversity of the Caribbean, the general lack of awareness of island histories and multiple stakeholders involved in the preservation process, have in many cases slowed down the effective enforcement of regulations and heritage legislation. The development of archaeological heritage management (AHM) in the Dutch Caribbean islands started slowly in the early years of their semi-autonomy within the Kingdom of the Netherlands from 1954 onwards. With the dissolution of the Netherlands Antilles on 10 October 2010, Curaçao and St. Martin

obtained a more autonomous status within the Kingdom, similar to Aruba has since 1986. Simultaneously, Bonaire, Saba and St. Eustatius became special overseas municipalities of the Kingdom of the Netherlands. Consequently, these islands now fall under Dutch regulations for cultural resource management. Irrespective of these geopolitical changes, AHM has been developing on the six islands over the past 25 years, partly because of the active role of localized island-specific archaeological institutions. This volume provides a background to the history of archaeological research in the Dutch Caribbean and compiles a number of compliance archaeology projects that have been carried out under and in the spirit of the Valetta Treaty. In addition, with its discussion of the successful creation of localized community-based archaeological heritage associations serving as an excellent model for other island communities in the Caribbean, this volume represents a unique contribution to AHM in a wider regional perspective.
