**Billion Dollar Brand Club** Lawrence Ingrassia,2020-01-28 A leading business journalist takes us inside a business revolution: the upstart brands taking on the empires that long dominated the trillion-dollar consumer economy. Dollar Shave Club and its hilarious marketing. Casper mattresses popping out of a box. Third Love’s lingerie designed specifically for each woman’s body. Warby Parker mailing you five pairs of glasses to choose from. You’ve seen their ads. You (or someone you know) use their products. Each may appear, in isolation, as a rare David with the bravado to confront a Goliath, but taken together they represent a seismic shift in a business model that has lasted more than a century. As Lawrence Ingrassia--former business and economics editor and deputy managing editor at the New York Times--shows in this timely and eye-opening book, a growing number of digital entrepreneurs have found new and creative ways to crack the code on the bonanza of physical goods that move through our lives every day. They have discovered that manufacturing, marketing, logistics, and customer service have all been flattened—where there were once walls that protected big brands like Gillette, Sealy, Victoria’s Secret, or Lenscrafters, savvy and hungry innovators now can compete on price, value, quality, speed, convenience, and service. Billion Dollar Brand Club reveals the world of the entrepreneurs, venture capitalists, and corporate behemoths battling over this terrain. And what fun it is. It’s a massive, high-stakes business saga animated by the personalities, flashes of insight, and stories behind the stuff we use every day.

*Data Science of Renewable Energy Integration* Yuichi Ikeda,  
*Nein, Nein, Nein!* Jerry Stahl,2022-07-05 A guided group tour to concentration camps in Poland and Germany allows Stahl to confront personal and historical demons with both deep despair and savage humor Gonzo meets the Shoah in this wildly irreverent—and brilliant—tour of Holocaust tourism . . . Stahl knows his Holocaust history . . . but he was also prepared to be surprised . . . A vivid, potent, decidedly idiosyncratic addition to the literature of genocide. —Kirkus Reviews, a Best Nonfiction Book of 2022 Stahl embarks on Holocaust tourism in this meditative yet humorous account, weaving personal narrative with reflections on current and past global events. —New York Times Book Review [Stahl's] razor-sharp gallows humor will have you howling one moment, breathless the next in the presence of wrenching generational pain, of humanity at its very worst, and goodness at its camouflaged best. —Brooklyn Rail An audacious, emotional journey. —The Village Voice In September 2016, Jerry Stahl was feeling nervous on the eve of a two-week trip across Poland and Germany. But it was not just the stops at Auschwitz, Buchenwald, and Dachau that gave him anxiety. It was the fact that he would be traveling with two dozen strangers, by bus. In a tour group. And he was not a tour-group kind of guy. The decision to visit Holocaust-world did not come easy. Stahl’s lifelong depression at an all-time high, his career and personal life at an all-time low, he had the idea to go on a trip where the despair he was feeling—out-of- control sadness, regret, and fear, not just for himself, but for the entire United States—would be appropriate. And where was despair more appropriate than the land of the Six Million? Seamlessly weaving global and personal history, through the lens of Stahl’s own bent perspective, Nein, Nein, Nein! stands out as a triumph of strange-o reporting, a tale that takes us from gang polkas to tour-rash to the truly disturbing snack bar at Auschwitz. Strap in for a raw, surreal, and redemptively hilarious trip. Get on the bus.

**More Important Than the Music** Bruce D. Epperson,2013-10-01 Today, jazz is considered high art, America’s national music, and the catalog of its recordings—its discography—is often taken for granted. But behind jazz discography is a fraught and highly colorful history of research, fanaticism, and the intense desire to know who played what, where, and when. This history gets its first full-length treatment in Bruce D. Epperson’s More Important Than the Music. Following the dedicated few who sought to keep jazz’s legacy organized, Epperson tells a fascinating story of archival pursuit in the face of negligence and deception, a tale that saw curses and threats regularly employed, with fisticuffs and lawsuits only slightly rarer. Epperson examines the documentation of recorded jazz from its casual origins as a novelty in the 1920s and ’30s, through the overwhelming deluge of 12-inch vinyl records in the middle of the twentieth century, to the use of computers by today’s discographers. Though he focuses much of his attention on comprehensive discographies, he also examines the development of a variety of related listings, such as buyer’s guides and library catalogs, and he closes with a look toward discography’s future. From the little black book to the full-featured online database, More Important Than the Music offers a history not just of jazz discography but of the profoundly human desire to preserve history itself.

7R Joan Cwaik,2020-03-01 El siglo XXI dejará su huella en la historia gracias al desarrollo de tecnologías emergentes que están generando una revolución que va más allá de lo industrial porque también involucra aspectos sociales, económicos y culturales. Decir que el mundo avanza a pasos agigantados es una frase trillada pero real. Todavía los autos no vuelan y no vacacionamos en el espacio, pero el siglo XXI va a dejar su huella en la historia gracias al desarrollo de las tecnologías emergentes. Aunque la ciencia ficción y la filosofía imaginaron todos estos adelantos, se está generando una nueva revolución que va más allá de lo industrial porque también involucra aspectos sociales, económicos y culturales. Joan Cwaik, investigador y especialista en innovación tecnológica, explica con claridad en qué consisten estos nuevos avances y cómo van a cambiar la vida de las personas. Las criptomonedas, el big data, las ciudades inteligentes, la impresión 3D, los robots, la Internet de las Cosas y la realidad virtual y la aumentada llegaron para quedarse y van a transformarnos para siempre.
