*Australian Administrative Law* Matthew Groves, H. P. Lee, 2007-09-24 The growth of administrative law in Australia has continued in an unabated form since the introduction of innovative reforms in the mid-seventies. The centre plank of these reforms was the establishment of the Administrative Appeals Tribunal with follow-on reforms relating to the Ombudsman, judicial review and freedom of information legislation. The impact of these reforms has been vast and significant. This 2007 book seeks to take stock of the growth and development of administrative law principles. Particular attention is paid to the important cases and key doctrines which provide the theoretical underpinnings of these principles. In this book a team of highly respected administrative law scholars and jurists aim to provide a lucid exposition of the relevant case law, principles and doctrines. The book should illuminate the fundamental features of Australian administrative law and should prove useful to students and practitioners interested in this field.

**Affective Health and Masculinities in South Africa** Hans Reihling, 2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**Welfare** Gwendolyn Mink, Rickie Solinger, 2003-09 Federal welfare policy has been a political and cultural preoccupation in the United States for nearly seven decades. Debates about who poor people are, how they got that way, and what the government should do about poverty were particularly bitter and misleading at the end of the twentieth century. These public discussions left most Americans with far more attitude than information about poverty, the poor, and poverty policy in the United States. In response, Gwendolyn Mink and Rickie Solinger compiled the first documentary history of welfare in America, from its origins through the present. *Welfare: A Documentary History of U.S. Policy and Politics* provides historical context for understanding recent policy developments, as it traces public opinion, recipients' experiences, and policy continuities and innovations over time. The documents collected range across more than 100 years, from government documents and proclamations of presidents throughout the 20th century, to accounts of activist and grass roots organizations, newspaper reports and editorials, political cartoons, posters and more. They enable readers to go straight to the source to find out how public figures racialized welfare in the minds of white Americans, to explore the origins of the claim that poor women have babies in order to collect welfare, and to trace how that notion has been perpetuated and contested. The documents also illustrate how policymakers in different eras have invoked and politicized the idea

of dependency, as well as how ideas about women's dependency have followed changing characterizations of poor women as workers and as mothers. Welfare provides a picture of the government's evolving ideas about poverty and provision, along side powerful examples of the voices too often eclipsed in the public square—welfare recipients and their advocates, speaking about mothering, poverty, and human rights.

Stereoelectronic effects in nucleosides and nucleotides and their structural implications Christophe Thibaudeau, Jyoti Chattopadhyaya, 1999

**Antoine of Oregon : A Story of the Oregon Trail** James Otis, 1912 Antoine of Oregon : A Story of the Oregon Trail The author of this series of stories for children has endeavored simply to show why and how the descendants of the early colonists fought their way through the wilderness in search of new homes. The several narratives deal with the struggles of those adventurous people who forced their way westward, ever westward, whether in hope of gain or in answer to the call of the wild, and who, in so doing, wrote their names with their blood across this country of ours from the Ohio to the Columbia. To excite in the hearts of the young people of this land a desire to know more regarding the building up of this great nation, and at the same time to entertain in such a manner as may stimulate to noble deeds, is the real aim of these stories. In them there is nothing of romance, but only a careful, truthful record of the part played by children in the great battles with those forces, human as well as natural, which, for so long a time, held a vast 4 portion of this broad land against the advance of home seekers. With the knowledge of what has been done by our own people in our own land, surely there is no reason why one should resort to fiction in order to depict scenes of heroism, daring, and sublime disregard of suffering in nearly every form.
