Proceedings of the 20th International Meshing Roundtable William Roshan

Quadros,2011-12-06 This volume contains the articles presented at the 20th International Meshing Roundtable (IMR) organized, in part, by Sandia National Laboratories and was held in Paris, France on Oct 23-26, 2011. This is the first year the IMR was held outside the United States territory. Other sponsors of the 20th IMR are Systematic Paris Region Systems & ICT Cluster, AIAA, NAFEMS, CEA, and NSF. The Sandia National Laboratories started the first IMR in 1992, and the conference has been held annually since. Each year the IMR brings together researchers, developers, and application experts, from a variety of disciplines, to present and discuss ideas on mesh generation and related topics. The topics covered by the IMR have applications in numerical analysis, computational geometry, computer graphics, as well as other areas, and the presentations describe novel work ranging from theory to application.

Portraits of Battle Peter Farrugia,Evan J. Habkirk,2021-04-01 Portraits of Battle brings together biography, battle accounts, and historiographical analysis to examine the lives of a cross-section of Canadians who served in the First World War. All Canadians are taught about Vimy Ridge, but that celebrated victory was just one battle among many to shape the country's experience of the war. These portraits of the formerly faceless men and women honoured on war memorials provide a fresh and nuanced perspective on the complex legacy of the Great War in Canadian history.

A Miners Pals Battalion at War Mike Hall,2015-06-28 On the 100th anniversary of the start of the First World War, this is a story that so far has never been told. The 18th Battalion Middlesex Regiment were not infantry men whose primary job was to go 'over the top' at the start or during battle. Nor were they deployed behind the lines away from the action with the generals and base camp workers. They had a different job - to build the infrastructure necessary to prosecute the war. These 'miners pals' played a vital role in the war. They dug and drained trenches, wired No Man's Land, mined under enemy lines, made and repaired roads, filled in craters, constructed dug-outs, stock piled ammunition, built and improved billets, fetched and carried, kept open communications with the front, made and repaired railways, built and demolished bridges, gassed the enemy, picqueted rods and held the front line. If a job needed doing, they did it - no matter where, when or how dangerous. At times they fought back the Germans with only their picks and shovels, and in High Wood, at the height of the Battle of the Somme, they were deployed to fight the enemy at bayonet point. By this, amongst other events, the 18th Battalion earned the right to use the Middlesex Regiment nickname 'die-hards'. A Miners Pals Battalion at War is written in diary form, based on the 18th Middlesex Battalion War Diary and the 33rd Division War Diary. Volume 1 covers August 1914 - June 1917, with Volume 2 continuing the entries from July 1917 to January 1919. There are many accounts of the bravery of members of the battalion, recording biographical details of each soldier, including the cemetery where they are buried or memorial where they are honoured. The book is a goldmine of information, laden with incidents from the war and facts that have been

cross-checked and verified. It is a fascinating read for anyone looking for an untold aspect of WWI.

Corporate Acquisitions and Mergers in Indonesia Idwan Ganie, Arum Tarina, 2023-09-25
Derived from Kluwer's multi-volume Corporate Acquisitions and Mergers, the largest and most detailed database of M&A know-how available anywhere in the world, this work by highly experienced partners in the leading international law firm Lubis Ganie Surowidjojo Law Firm provides a concise, practical analysis of current law and practice relating to mergers and acquisitions of public and private companies in Indonesia. The book offers a clear explanation of each step in the acquisition process from the perspectives of both the purchaser and the seller. Key areas covered include: structuring the transaction; due diligence; contractual protection; consideration; and the impact of applicable company, competition, tax, intellectual property, environmental and data protection law on the acquisition process. Corporate Acquisitions and Mergers is an invaluable guide for both legal practitioners and business executives seeking a comprehensive yet practical analysis of mergers and acquisitions in Indonesia. Equivalent analyses of M&A law and practice in some 50 other jurisdictions, all contributed by leading law firms, are accessible on-line at www.kluwerlawonline.com under Corporate Acquisitions and Mergers.

Logic Functions and Equations Bernd Steinbach, Christian Posthoff, 2022-06-06 The greatly expanded and updated 3rd edition of this textbook offers the reader a comprehensive introduction to the concepts of logic functions and equations and their applications across computer science and engineering. The authors' approach emphasizes a thorough understanding of the fundamental principles as well as numerical and computer-based solution methods. The book provides insight into applications across propositional logic, binary arithmetic, coding, cryptography, complexity, logic design, and artificial intelligence. Updated throughout, some major additions for the 3rd edition include: a new chapter about the concepts contributing to the power of XBOOLE; a new chapter that introduces into the application of the XBOOLE-Monitor XBM 2; many tasks that support the readers in amplifying the learned content at the end of the chapters; solutions of a large subset of these tasks to confirm learning success; challenging tasks that need the power of the XBOOLE software for their solution. The XBOOLE-monitor XBM 2 software is used to solve the exercises; in this way the time-consuming and error-prone manipulation on the bit level is moved to an ordinary PC, more realistic tasks can be solved, and the challenges of thinking about algorithms leads to a higher level of education.
