**Encounters** Cynthia Y. Ning, John S. Montanaro, 2012-02-14 Welcome to Encounters, a groundbreaking Chinese language programme that features a dramatic series filmed entirely in China. The programme's highly communicative approach immerses learners in the Chinese language and culture through video episodes that directly correspond to units in the textbook. By combining a compelling story line with a wealth of educational materials, Encounters weaves a tapestry of Chinese language and culture rich in teaching and learning opportunities. Encounters follows a carefully structured and cumulative approach. Students progress from listening and speaking to the more difficult skills of reading and writing Chinese characters, building grammar, vocabulary, and pronunciation skills along the way. The Encounters programme includes: Two Full-colour Student Books for introductory Chinese study; Annotated Instructor's Editions with answer keys and suggested class activities; Two Character Writing Workbooks linked directly to the Student Book; Ten hours of video materials, comprising dramatic episodes, cultural segments, and animations, all integrated with the Student Books; A total of 200 minutes of audio material, linked to the Student Books, for listening and speaking practice; and, a website providing a year's free access to all audiovisual material of the programme upon adoption.

**Modern Chinese (BOOK 2) - Learn Chinese in a Simple and Successful Way - Series** Vivienne Zhang, 2013-06-11 Author Vivienne Zhang is a native Chinese speaker fluent in English who has been translating, interpreting and teaching for many years. She has tried, tested and perfected various lessons and techniques that apply well to Chinese studies. These modern techniques are now published in a series of four books. Each book teaches the reader both Pinyin and Hanzi (Chinese characters). One of the unique features in these books is the literal translation into English of common Chinese expressions and vocabulary. For example, you can often see the annotation "lit." with the grammar points in BOOK 2, showing the direct translation of the Chinese text. This technique reinforces an understanding of sentence structure and grammar which has proven to be instrumental in helping the students and readers to retain the Chinese that they have already learned. Other Chinese language books do not use this approach. In BOOK 2, Part 1 provides more grammar points which continue from BOOK 1. There are useful examples to help you grasp each of the grammar points. Part 1 is arranged in such a way that any topic in this part can be studied independently. Upon completion of this book, you will attain not only mastery of Chinese grammar and vocabulary, but also an expanded knowledge of Chinese writing. NOTE: After you have learnt Pinyin (initials, finals and tones) in Part 1 of BOOK 1, you are ready to continue studying any books within the Modern Chinese series...BOOK 1, 2, 3 and 4.

**Chinese Word Book**, 2004 Basic Chinese words are presented in both romanized (pinyin) and character formats, along with their English meanings. An illustration accompanies each word.

**China's English** Bob Adamson, 2004-04-01 This book traces the history of English education in the People's Republic of China from 1949 to the present day. It uses the

junior secondary school curriculum as the means to examine how English curriculum developers and textbook writers have confronted the shifting ambiguities and dilemmas over five distinct historical periods. The study of the processes of curriculum development and the products such as syllabi and textbooks offers insights into the construction of an 'official' English, as well as what was considered as acceptable content in English. This book addresses fundamental and significant questions concerning the English promoted in China, namely its characteristics; its changes over time and explanations for such changes; and the kind of content that has been viewed as appropriate for textbooks. To investigate these issues, the analysis draws on qualitative and quantitative data, such as interviews with principal stakeholders and analysis of the syllabus and recommended textbooks. Specifically, it looks at the choice and organization of linguistic components, and the orientation and messages of the curriculum. "Language education in China during the second half of the twentieth century might arguably be called the world's largest language engineering project. In this comprehensive study, Dr Adamson examines a part of that project by charting the twists and turns of English language education from the pre-revolutionary period to the present. He successfully illustrates how tensions in China's massive educational system are negotiated from center to periphery, how textbook writers adapt to the socio-political mandates of their time to construct formal school curricula. Adamson also raises significant questions regarding the contradictions inherent in Chinese globalization." –Heidi Ross, Professor, Department of Educational Leadership and Policy Studies, School of Education, Indiana University at Bloomington "Bob Adamson has provided in this book one of the first detailed studies published in English of the history of a school subject in the PRC. The study provides fascinating insights into the changing nature of the English curriculum, the shifting socio-political context of the PRC and their complex inter-relationships." –Paul Morris, President, The Hong Kong Institute of Education "The learning of English is a crucial aspect of China's opening up to the world and increasingly prominent global role. This welcome volume provides an in-depth historical perspective on this important subject, including the recent periods of modernization (1978–1993) and globalization (1993 to the present). It should be compelling reading for all those involved with contemporary China across a wide spectrum of areas." –Ruth Hayhoe, University of Toronto; President Emerita, The Hong Kong Institute of Education

*Learn to Read Chinese, Book 2* Jeff Pepper, 2021-01-21 Two friends find a golden nugget on the ground. A young girl meets a fox spirit. A dog saves a life, a tiger takes a life. A girl runs away from her fishing boat. And a boy saves the spirit of his grandfather. Believe it or not, it's possible for you to read and understand the stories in this book even if you start off not knowing a single word of Chinese! We won't lie to you and say it will be easy, but with time and patience you can certainly do it. Each page of Chinese faces a page of pinyin (phonetic spelling), so if you don't recognize a word, you can check the pinyin to see how it's pronounced. You can then look up the word's meaning in the glossary in the back of the book. A full English translation is also included. You can also listen to a complete audiobook of all of these stories, available free on YouTube and downloadable from our website. These stories are written by the best-selling writing team of Jeff Pepper and Xiao Hui Wang, authors of the Journey to the West series of graded readers, translations of Chinese classics including the Dao De Jing, the Art of War and the San Zi Jing, and lots of other great books.
