The Author's Craft Arnold Bennett,2017-08-30 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Theming Asia Maribeth Erb,Chin Ee Ong,2018-10-18 Theming Asia: Culture, Nature and Heritage in a Transforming Environment presents a theoretical, thematic and empirical examination of theming, theme parks and themed spaces in contemporary Asia. Drawing on cases from China, Hong Kong, Japan, Kazakhstan, Malaysia and Singapore, it details how the proliferation of theming in places of consumption, education, entertainment and everyday life has shaped the social and spatial terrains of modern-day Asia. This is done largely through the radical transformation of ideas of culture, nature and heritage – a theoretical and empirical area that warrants urgent and dedicated scholarly inquiry. Providing an innovative study of theme parks and themed spaces in contemporary Asia, this publication highlights the critical role of theming in the making, ordering, branding, as well as contestation of cultural, natural and heritage places. The intersections of these processes are foregrounded within the context of Disneyization, the experience economy, imagineered spaces and debates over authenticity and superficiality. A diverse range of case studies, as well as a general theoretical introduction, give much room for revisiting and reimagining issues of culture and nature in a transforming Asia. This book was originally published as a special issue of *Tourism Geographies*.

Setting Up and Running a School Garden ,2005 Adequate nutrition and education are key to the development of children and their future livelihoods. The reality facing millions of children, however, is

that these essentials are far from being met. Schools can make an important contribution to countries' efforts to overcome hunger and malnutrition, and school gardens can help to improve the nutrition and education of children and their families in both rural and urban areas. FAO promotes school gardens primarily as a platform for learning, as well as a vehicle for better nutrition. Schools are encouraged to create learning gardens that are moderate in size so that they can be easily managed by students, teachers and parents, but that also allow for the production of a variety of nutritious vegetable and fruit (and where possible, some small-scale livestock such as chicken or rabbits). In preparing this manual, intended to assist school teachers, parents and the wider community, FAO has drawn upon experiences and best practices derived from school garden initiatives all over the world. Production methods are kept simple so that they can be easily replicated by students and parents at their homes. Also published in French and in Spanish.

Alphabet Stories Hermann Zapf, 2007 Written as an anecdotal first-person account, the reader is treated to famed German calligrapher and typographer Hermann Zapf's personal recollections of technical breakthroughs. Zapf reveals milestones tracing his education in 1930s Germany, to his work on forefront of computer-aided typesetting in the 1970s, to the tour de force design of a complex calligraphic font-Zapfino in the late '90s. Vivid reproductions of Zapf's calligraphy, production proofs, typographic specimens, and photographs complete the portrait of one of the most prolific designers of our time. After a complete sell-out of the American edition, RIT Press is releasing a second edition of *Alphabet Stories: A Chronicle of Technical Developments*. This new edition is enhanced by the addition of a letterpress-printed broadside designed by Zapf. The insert was typeset and printed at the RIT Cary Graphic Arts Collection using its

collection of rare metal Virtuosa type - Zapf's elegant script face originally released by Stempel Typefounders in 1952. This book is the first Hermann Zapf monograph to be typeset in the new Palatino Nova and Palatino Sans digital typefaces issued by Linotype.
