Monster Boss Patricia King,2008-08-17 Every day, problem bosses rob employees of job satisfaction, motivation, career advancement - and, at their most dastardly - physical and emotional health. But it doesn't have to be that way. This book shows employees how to improve their situation, save their sanity, and, when necessary, fight back. They also learn how to change undesirable situations and when the only option is to move on. This informative guide offers solutions to every type of Monster Boss: the blood-sucking boss who extracts as much work as possible from his employees with no regard to their limit the split-personality boss who constantly changes priorities or rethinks decisions that have already been made the evasive boss who leaves her employees without goals, guidance, or leadership, but magically resurfaces when it's time to accept praise for their work and many others This book will also include updates on bad boss behavior that has become recently topical - including executive crime, verbal abuse, and harassment.

Boss Build Aaron Crash,2020-10-18 Roy Boss, the CEO of VentureForge Industries, just woke up in a different galaxy. He's lost his company and his body, and the man who murdered him might still be alive. The good news is he's on Plymouth, an almost mythical world where monsters are designed and printed for Roy's game worlds. First order of the day: print himself a superpowered body and get back what's his. But everything isn't as it seems. The research lab he arrived in is deserted except for a few dead security guards, and the streets outside are filled with thousands of robot dogs programmed for one single purpose: kill Roy Boss. But Roy has an entire catalog of savior-class monster girls he can print up to help him clean house, each with their own powers, transformations, and fetishes. Hit Print for justice, for satisfaction, and for the love of the game. From Aaron Crash, bestselling author of Barbarian Outcast and the American Dragon series, comes a brand-new world that will leave you turning pages late into the night. Disclaimer: Boss Build is an explicit sci-if harem adventure. There are girls, guns, and sex on the page. Each of Roy's monster girls is fully configurable when it comes to bedroom activities. It's like a smutty I Am Legend meets Westworld. You have been warned.

Beyond Fun Drew Davidson,2008 This book focuses on strategies for applying games, simulations and interactive experiences in learning contexts. A facet of this project is the interactive and collaborative method in which it was created. Instead of separated individual articles, the authors and editors have orchestrated the articles together, reading and writing as a whole so that the concepts across the articles resonate with each other. It is our intention that this text will serve as the basis of many more discussions across conference panels, online forums and interactive media that in turn will engender more special collaborative issues and texts.

The Author's POV ?? (Chugong),2022-05-04 [Webnovel provides the latest update of The Author's POV] The person whom the world revolves around. The person who defeats all of his opponents, and ultimately gets the beautiful girl. The sole existence all villains fear. That is the protagonist. What about me? As a failed author who had only one success throughout his whole career, I had reincarnated into my late novel. This is it I thought, as I tightly clenched my fist. Did I just get reincarnated in my own novel? Is this where I reincarnate in a novel and become the protagonist? No. Sadly it's not that kind of novel, as I reincarnated as a mob. The world doesn't revolve around me. The girls don't come flocking towards me. The cheat items don't come to me. Phew I let out a sigh of relief. Thank god I'm not the protagonist I joyfully shouted as tears streamed down my cheeks. Wait, are you curious as to why I don't want to be the protagonist? I did forget to mention the most important thing when I was describing a protagonist. That is... They are calamity magnets. I just died. If I learned something from that, it's that it really isn't a pleasant experience. If possible let me live a long stable life. Thank you, whoever reincarnated me. I would later come to regret these words...

Learn iPhone and iPad cocos2d Game Development Steffen Itterheim,2011-07-30 Learn iPhone and iPad cocos2D Game Development provides a rock-solid introduction to the cocos2d iPhone game engine and related tools. It focuses on the process of creating several games made entirely with cocos2d and little-to-no iPhone SDK and OpenGL code. By creating 2-3 sample games over the course of the book, you'll learn key concepts of the cocos2d game engine and relevant tools like Zwoptex (TextureAtlas), ParticleDesigner (Particle Effects), and others. The example games are modeled after popular App Store games so that they are relevant, recognizable, and immediately fun and inspiring. The games increase in complexity and highlight common recurring cocos2d beginner questions. As you move along, you'll learn about possible stumbling blocks and how to navigate them successfully. As you move from beginning to advanced, you'll encounter general game programming wisdom, tips for performance improvement, as well as pointers to alternative implementations and further reading. It is assumed that the reader has previous programming knowledge but not necessarily with Objective-C. Related topics such as Xcode, Objective-C, the iPhone SDK, and OpenGL are only discussed where absolutely necessary.

Silent Hill 2 Mike Drucker,2021-01-26 A troubled man travels to a mysterious town from his past after receiving a letter from his wife... who's been dead for years. And while our hero explores dark corridors and battles countless disturbing enemies, his journey offers more psychological horror than survival horror. Welcome to Silent Hill, where the monster is you. Silent Hill 2 doubles down on what made the first game so compelling: The feeling of being lost in a foggy, upside-down town as unsettling as it is familiar. Nearly two decades after first experiencing Silent Hill 2, writer and comedian Mike Drucker returns to its dark depths to explore how this bold video game delivers an experience that is tense, nightmarish, and anything but fun. With an in-depth and highly personal study of its tragic cast of

characters, and a critical examination of developer Konami's world design and uneven marketing strategy, Drucker examines how Silent Hill 2 forces its players to grapple with the fact that very real-world terrors of trauma, abuse, shame, and guilt are far more threatening than any pyramid-headed monster could ever be.
