Francis Bacon and the Project of Progress Robert K. Faulkner, 1993 The wild magic is taking its toll on the land. Many Heralds and Herald-Mages have died fighting to preserve the peace. Even Vanyel, the most powerful of the Herald-Mages is almost at the end of his strength, in need of a respite from the dual threats of war and dark magic. But for Vanyel, there can be no rest. Not when his Companion, Yfandes, receives a summons which can't be ignored ? a desperate cry for help which draws them both into the heart of a magical holocaust in the neighboring kingdom. Almost overwhelmed by the devastation they discover there, Herald-Mage and Companion must try to unravel this tragic mystery. Is the young Prince Tashir, a newly Chosen Herald who can't control his own magic, responsible for the destruction? Or is Tashir a pawn in a deeper, more deadly game ? and, if so, will Vanyel be able to find and defeat the true destroyer before this master of dark powers can strike again? Don't miss MAGIC'S PAWN, the first novel The Last-Herald Mage trilogy.

Managing the Software Process Watts S. Humphrey, 1989 The author, drawing on

years of experience at IBM and the SEI, provides here practical guidance for improving the software development and maintenance process. He focuses on understanding and managing the software process because this is where he feels organizations now encounter the most serious problems, and where he feels there is the best opportunity for significant improvement. Both program managers and practicing programmers, whether working on small programs or large-scale projects, will learn how good their own software process is, how they can make their process better, and where they need to begin. This book will help you move beyond the turning point, or crisis, of feeling overwhelmed by the task of managing the software process to understanding what is essential in software management and what you can do about it.
