Spell It Out David Crystal,2013-01-01 Why is there an 'h' in ghost? William Caxton, inventor of the printing press and his Flemish employees are to blame: without a dictionary or style guide to hand in fifteenth century Bruges, the typesetters simply spelled it the way it sounded to their foreign ears, and it stuck. Seventy-five per cent of English spelling is regular but twenty-five per cent is complicated, and in Spell It Out, our foremost linguistics expert David Crystal extends a helping hand to the confused and curious alike. He unearths the stories behind the rogue words that confound us, and explains why these peculiarities entered the mainstream, in an epic journey taking in sixth century monks, French and Latin upstarts, the Industrial Revolution and the internet. By learning the history and the principles, Crystal shows how the spellings that break all the rules become easier to get right.

The Other Woman Amanda Brookfield,2020-10-13 'An engaging, emotionally-charged and intriguing story' Michelle Gorman No one gets to the heart of human relationships quite so perceptively as Brookfield.' The Mirror On a normal day, in a normal house, on a normal street, wife and mother Fran has had enough. She packs a case, leaves a note for her bullying husband Pete, and one for her beloved twenty-year-old son Harry, and heads to the airport - and freedom. In another house, on another street, Helena is desperately baiting her husband Jack into a fight. These days it feels like the only way to get Jack to take notice of her. Passionate, volatile, increasingly fragile, Helena is fast running out of hope. What Helena and Fran don't know, is that soon their lives are going to collide in ways neither expect nor understand. And if Fran and Helena are going to change their own futures, then first they will have to change each other's. Amanda Brookfield is back with a triumphant, crackling story about love, marriage, lies and fate, and how our destinies can be changed by the

smallest decisions. Perfect for fans of Sheila O'Flanagan, Jane Fallon and Jane Green. Praise for Amanda Brookfield 'Unputdownable. Perceptive. Poignant. I loved it.' bestselling author Patricia Scanlan on Before I Knew You 'If Joanna Trollope is the queen of the Aga Saga, then Amanda Brookfield must be a strong contender for princess.' Oxford Times

Group Theory in Physics Wu-Ki Tung,1985 An introductory text book for graduates and advanced undergraduates on group representation theory. It emphasizes group theory's role as the mathematical framework for describing symmetry properties of classical and quantum mechanical systems. Familiarity with basic group concepts and techniques is invaluable in the education of a modern-day physicist. This book emphasizes general features and methods which demonstrate the power of the group-theoretical approach in exposing the systematics of physical systems with associated symmetry. Particular attention is given to pedagogy. In developing the theory, clarity in presenting the main ideas and consequences is given the same priority as comprehensiveness and strict rigor. To preserve the integrity of the mathematics, enough technical information is included in the appendices to make the book almost self-contained. A set of problems and solutions has been published in a separate booklet.

Foxlogic, Fireweed Jennifer K. Sweeney,2020-09-01 Winner of the Backwaters Prize in Poetry, Jennifer K. Sweeney’s Foxlogic, Fireweed follows a lyrical sequence of five physical and emotional terrains—floodplain, coast, desert, suburbia, and mesa—braiding themes of nature, domesticity, isolation, and human relationships. These are poems of the earth’s wild heart, its searing mysteries, its hollows, and its species, poems of the complex domestic space, of before and after motherhood, gun terror, the election, of dislocation and home, and of how we circle toward and away from our centers. Sweeney is not afraid to take up the domestic and inner lives of women, a nuanced relationship with the natural world that feels female or even maternal, or a duty to keeping alive poetry’s big questions of transcendence, revelation, awe, and deep presence in the ordinary.
