Complex Spreading Phenomena in Social Systems Sune Lehmann,Yong-Yeol Ahn,2018-06-21 This text is about spreading of information and influence in complex networks. Although previously considered similar and modeled in parallel approaches, there is now experimental evidence that epidemic and social spreading work in subtly different ways. While previously explored through modeling, there is currently an explosion of work on revealing the mechanisms underlying complex contagion based on big data and data-driven approaches. This volume consists of four parts. Part 1 is an Introduction, providing an accessible summary of the state of the art. Part 2 provides an overview of the central theoretical developments in the field. Part 3 describes the empirical work on observing spreading processes in real-world networks. Finally, Part 4 goes into detail with recent and exciting new developments: dedicated studies designed to measure specific aspects of the spreading processes, often using randomized control trials to isolate the network effect from confounders, such as homophily. Each contribution is authored by leading experts in the field. This volume, though based on technical selections of the most important results on complex spreading, remains quite accessible to the newly interested. The main benefit to the reader is that the topics are carefully structured to take the novice to the level of expert on the topic of social spreading processes. This book will be of great importance to a wide field: from researchers in physics, computer science, and sociology to professionals in public policy and public health.

A History of the Photographic Lens Rudolf Kingslake,1989-11-22 The lens is generally the most expensive and least understood part of any camera. In this book, Rudolf Kingslake traces the historical development of the various types of lenses from Daguerre's invention of photography in 1839 through lenses commonly used today. From an early lens still being manufactured for use in low-cost cameras to designs made possible through such innovations as lens coating, rare-earth glasses, and computer aided lens design and testing, the author details each major advance in design and fabrication. The book explains how and why each new lens type was developed, and why most of them have since been abandoned. This authoritative history of lens technology also includes brief biographies of several outstanding lens designers and manufacturers of the past.

Spark Joy Marie Kondo,2020-08-20 Marie Kondo's first book, The Life-Changing Magic of Tidying, transformed the homes and lives of millions of people around the world. Spark Joy is her in-depth tidying masterclass, a line-illustrated, room-by-room guide to decluttering and organising your home. It covers every room in the house - from the bedroom and kitchen to the bathroom and living room - as well as all the items that occupy their spaces. Charming line drawings explain how to organise your house and apply Marie Kondo's unique folding method to all your clothes, including shirts, trousers, jackets, skirts, socks and bras. The secret to Marie Kondo's unique and simple KonMari tidying method is to tidy by category and to focus on what you want to keep, not what you want to get rid of. Ask yourself if something 'sparks joy' and suddenly it becomes so much easier to understand if you really need it in your home and your life. Except tidying up is not just about transforming your home: when you surround yourself with things you love, you will find that your whole life begins to change.

Pakistan Cinema Mushtaq Gazdar,2019 First published in 1997 to commemorate the fiftieth anniversary of the creation of Pakistan, the book features a review of films before Partition, plots of great cinema classics, trivia, and cinema lore. It contains anecdotes and reminiscences about the people who shaped the entertainment industry, as well as interviews with directors and producers. But alongside the trivia is a clever synthesis juxtaposing the artistic development of the cinematic world with the overall social development in the country. It shows how the narrow self-interest of the ruling clique clashed with the creative potential of the artistic world, stifling originality and all but destroying the film industry. The narrative is punctuated with over a hundred photographs and contains an index of all the films made to date. In this second edition of Mushtaq Gazdar's seminal work, I. A. Rehman, Haris Gazdar, and Aisha Gazdar provide an overview of the two decades since, marking seventy years of the country's film industry. The filmography has also been updated to include the last two

decades.

Everybody Loves Our Town Mark Yarm,2011-09-06 Twenty years after the release of Nirvana’s landmark album Nevermind comes Everybody Loves Our Town: An Oral History of Grunge, the definitive word on the grunge era, straight from the mouths of those at the center of it all. In 1986, fledgling Seattle label C/Z Records released Deep Six, a compilation featuring a half-dozen local bands: Soundgarden, Green River, Melvins, Malfunkshun, the U-Men and Skin Yard. Though it sold miserably, the record made music history by documenting a burgeoning regional sound, the raw fusion of heavy metal and punk rock that we now know as grunge. But it wasn’t until five years later, with the seemingly overnight success of Nirvana’s “Smells Like Teen Spirit,” that grunge became a household word and Seattle ground zero for the nineties alternative-rock explosion. Everybody Loves Our Town captures the grunge era in the words of the musicians, producers, managers, record executives, video directors, photographers, journalists, publicists, club owners, roadies, scenesters and hangers-on who lived through it. The book tells the whole story: from the founding of the Deep Six bands to the worldwide success of grunge’s big four (Nirvana, Pearl Jam, Soundgarden and Alice in Chains); from the rise of Seattle’s cash-poor, hype-rich indie label Sub Pop to the major-label feeding frenzy that overtook the Pacific Northwest; from the simple joys of making noise at basement parties and tiny rock clubs to the tragic, lonely deaths of superstars Kurt Cobain and Layne Staley. Drawn from more than 250 new interviews—with members of Nirvana, Pearl Jam, Soundgarden, Alice in Chains, Screaming Trees, Hole, Melvins, Mudhoney, Green River, Mother Love Bone, Temple of the Dog, Mad Season, L7, Babes in Toyland, 7 Year Bitch, TAD, the U-Men, Candlebox and many more—and featuring previously untold stories and never-before-published photographs, Everybody Loves Our Town is at once a moving, funny, lurid, and hugely insightful portrait of an extraordinary musical era.

Francis Bacon and the Project of Progress Robert K. Faulkner,1993 The wild magic is taking its toll on the land. Many Heralds and Herald-Mages have died fighting to preserve the peace. Even Vanyel, the most

powerful of the Herald-Mages is almost at the end of his strength, in need of a respite from the dual threats of war and dark magic. But for Vanyel, there can be no rest. Not when his Companion, Yfandes, receives a summons which can't be ignored ? a desperate cry for help which draws them both into the heart of a magical holocaust in the neighboring kingdom. Almost overwhelmed by the devastation they discover there, Herald-Mage and Companion must try to unravel this tragic mystery. Is the young Prince Tashir, a newly Chosen Herald who can't control his own magic, responsible for the destruction? Or is Tashir a pawn in a deeper, more deadly game ? and, if so, will Vanyel be able to find and defeat the true destroyer before this master of dark powers can strike again? Don't miss MAGIC?S PAWN, the first novel The Last-Herald Mage trilogy.
