Complex Spreading Phenomena in Social Systems Sune Lehmann,Yong-Yeol Ahn,2018-06-21 This text is about spreading of information and influence in complex networks. Although previously considered similar and modeled in parallel approaches, there is now experimental evidence that epidemic and social spreading work in subtly different ways. While previously explored through modeling, there is currently an explosion of work on revealing the mechanisms underlying complex contagion based on big data and data-driven approaches. This volume consists of four parts. Part 1 is an Introduction, providing an accessible summary of the state of the art. Part 2 provides an overview of the central theoretical developments in the field. Part 3 describes the empirical work on observing spreading processes in real-world networks. Finally, Part 4 goes into detail with recent and exciting new developments: dedicated studies designed to measure specific aspects of the spreading processes, often using randomized control trials to isolate the network effect from confounders, such as homophily. Each contribution is authored by leading experts in the field. This volume, though based on technical selections of the most important results on complex spreading, remains quite accessible to the newly interested. The main benefit to the reader is that the topics are carefully structured to take the novice to the level of expert on the topic of social spreading processes. This book will be of great importance to a wide field: from researchers in physics, computer science, and sociology to professionals in public policy and public health.

A History of the Photographic Lens Rudolf Kingslake,1989-11-22 The lens is generally the most expensive and least understood part of any camera. In this book, Rudolf Kingslake traces the historical development of the various types of lenses from Daguerre's invention of photography in 1839 through lenses commonly used today. From an early lens still being manufactured for use in low-cost cameras to designs made possible through such innovations as lens coating, rare-earth glasses, and computer aided lens design and testing, the author details each major advance in design and fabrication. The book explains how and why each new lens type was developed, and why most of them have since been abandoned. This authoritative history of lens technology also includes brief biographies of several outstanding lens designers and manufacturers of the past.

What You Can Do With Your Computer Alan J Hartley, Bill Tweddle,

Everybody Loves Our Town Mark Yarm,2011-09-06 Twenty years after the release of Nirvana's landmark album Nevermind comes Everybody Loves Our Town: An Oral History of Grunge, the definitive word on the grunge era, straight from the mouths of those at the center of it all. In 1986, fledgling Seattle label C/Z Records released Deep Six, a compilation featuring a half-dozen local bands: Soundgarden, Green River, Melvins, Malfunkshun, the U-Men and Skin Yard. Though it sold miserably, the record made music history by documenting a burgeoning regional sound, the raw fusion of heavy metal and punk rock that we now know as grunge.

But it wasn't until five years later, with the seemingly overnight success of Nirvana's "Smells Like Teen Spirit," that grunge became a household word and Seattle ground zero for the nineties alternative-rock explosion. Everybody Loves Our Town captures the grunge era in the words of the musicians, producers, managers, record executives, video directors, photographers, journalists, publicists, club owners, roadies, scenesters and hangers-on who lived through it. The book tells the whole story: from the founding of the Deep Six bands to the worldwide success of grunge's big four (Nirvana, Pearl Jam, Soundgarden and Alice in Chains); from the rise of Seattle's cash-poor, hype-rich indie label Sub Pop to the major-label feeding frenzy that overtook the Pacific Northwest; from the simple joys of making noise at basement parties and tiny rock clubs to the tragic, lonely deaths of superstars Kurt Cobain and Layne Staley. Drawn from more than 250 new interviews—with members of Nirvana, Pearl Jam, Soundgarden, Alice in Chains, Screaming Trees, Hole, Melvins, Mudhoney, Green River, Mother Love Bone, Temple of the Dog, Mad Season, L7, Babes in Toyland, 7 Year Bitch, TAD, the U-Men, Candlebox and many more—and featuring previously untold stories and never-before-published photographs, Everybody Loves Our Town is at once a moving, funny, lurid, and hugely insightful portrait of an extraordinary musical era.

Even Vanyel, the most powerful of the Herald-Mages is almost at the end of his strength, in need of a respite from the dual threats of war and dark magic. But for Vanyel, there can be no rest. Not when his Companion, Yfandes, receives a summons which can't be ignored ? a desperate cry for help which draws them both into the heart of a magical holocaust in the neighboring kingdom. Almost overwhelmed by the devastation they discover there, Herald-Mage and Companion must try to unravel this tragic mystery. Is the young Prince Tashir, a newly Chosen Herald who can't control his own magic, responsible for the destruction? Or is Tashir a pawn in a deeper, more deadly game ? and, if so, will Vanyel be able to find and defeat the true destroyer before this master of dark powers can strike again? The Front Steps Project Kristen Collins,Cara Soulia,2020-11-24 People magazine's top reason for Hope in America. Curated from a grassroots social movement, The Front Steps Project is an inspiring, uplifting portrait series capturing how people coped with living in isolation during the COVID-19 pandemic. The Front Steps Project™ demonstrates that even in the most challenging of circumstances, kindness, love, courage, and hope exist to build, bind, and connect communities around the globe. Created on March 18, 2020, The Front Steps Project™ began when friends Kristen Collins and Cara Soulia sought out to unite their neighbors through photographs of life in quarantine. In addition to incorporating work from other local photographers, the women traveled to neighborhoods around Needham, Massachusetts to photograph residents in front of their homes in exchange for donations to their local food pantry. Within days, #TheFrontStepsProject became a grassroots social mission, connecting thousands of people across the globe and raising over \$3,250,000 for vital non-profit organizations and local businesses including food pantries, frontline workers, homeless and animal shelters, hospitals and so much more. Through their noble efforts, hundreds of thousands of images and stories of love, sacrifice, compassion, kindness, perseverance, and - ultimately hope - flooded social media. Featured on Good Morning America, The Today Show, People Magazine, The Wall Street Journal, The Boston Globe and more, The Front Steps Project brings communities together virtually, despite being - and maybe feeling - isolated. The Front Steps Project contains over 400 photographs and dozens of stories of families during the COVID-19 pandemic. This heartwarming keepsake commemorates a massive effort of courage, unity, and goodwill. As a tribute to the good work of The Front Steps Project, a portion of book sales will be donated to The United Way to help people impacted by the pandemic.
