Multi-Agent-Based Production Planning and Control Jie Zhang,2017-08-28 At the crossroads of artificial intelligence, manufacturing engineering, operational research and industrial engineering and management, multi-agent based production planning and control is an intelligent and industrially crucial technology with increasing importance. This book provides a complete overview of multi-agent based methods for today's competitive manufacturing environment, including the Job Shop Manufacturing and Re-entrant Manufacturing processes. In addition to the basic control and scheduling systems, the author also highlights advance research in numerical optimization methods and wireless sensor networks and their impact on intelligent production planning and control system operation. Enables students, researchers and engineers to understand the fundamentals and theories of multi-agent based production planning and control Written by an author with more than 20 years' experience in studying and formulating a complete theoretical system in production planning technologies Fully illustrated throughout, the methods for production planning, scheduling and controlling are presented using experiments, numerical simulations and theoretical analysis Comprehensive and concise, Multi-Agent Based Production Planning and Control is aimed at the practicing engineer and graduate student in industrial engineering, operational research, and mechanical engineering. It is also a handy guide for advanced students in artificial intelligence and computer engineering.

Understanding Options for Agricultural Production G.Y. Tsuji,G. Hoogenboom,P.K.

Thornton,2013-03-14 The first premise of this book is that farmers need access to options for improving their situation. In agricultural terms, these options might be management alternatives or different crops to grow, that can stabilize or increase household income, that reduce soil degradation and dependence on off-farm inputs, or that exploit local market opportunities. Farmers need a facilitating environment, in which affordable credit is available if needed, in which policies are conducive to judicious management of natural resources, and in which costs and prices of production are stable. Another key ingredient of this facilitating environment is information: an understanding of which options are viable, how these operate at the farm level, and what their impact may be on the things that farmers perceive as being important. The second premise is that systems analysis and simulation have an important role to play in fostering this understanding of options, traditional field experimentation being time-consuming and costly. This book summarizes the activities of the International Benchmark Sites Network for Agrotechnology Transfer (IBSNAT) project, an international

initiative funded by the United States Agency for International Development (USAID). IBSNAT was an attempt to demonstrate the effectiveness of understanding options through systems analysis and simulation for the ultimate benefit of farm households in the tropics and subtropics. The idea for the book was first suggested at one of the last IBSNAT group meetings held at the University of Hawaii in 1993.

The Assault on Journalism Ulla Carlsson, Reeta Pöyhtäri, 2017

A Gravity's Rainbow Companion Steven C. Weisenburger, 2011-03-15 Adding some 20 percent to the original content, this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's *Gravity's Rainbow*. Weisenburger takes the reader page by page, often line by line, through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. Weisenburger fully annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk, drug lingo, and military slang as well as the more obscure terminology of black magic, Rosicrucianism, and Pavlovian psychology. The Companion also reveals the underlying organization of *Gravity's Rainbow*--how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel. The Companion is keyed to the pages of the principal American editions of *Gravity's Rainbow*: Viking/Penguin (1973), Bantam (1974), and the special, repaginated Penguin paperback (2000) honoring the novel as one of twenty Great Books of the Twentieth Century.

Journalism Stuart Allan, Karen Fowler-Watt, 2015-11-11 Journalism provides coverage on key, up-to-the-minute, journalism issues and society text, combining theory and practice.

Cardiac SPECT Imaging E. Gordon DePuey, Ernest V. Garcia, Daniel Sholom Berman, 2001

Cardiac SPECT Imaging, Second Edition offers the best of all possible worlds--a critical topic, internationally recognized authors and cutting-edge coverage. It guides you through all aspects of the modality--from basic principles (acquiring and processing images, quality control)...and clinical applications (evaluating myocardial infarction and coronary artery disease)...to the very latest equipment. It even compares SPECT with other modalities (PET, CT, MRI, and echocardiography) to ensure smart, cost-effective decisions by both the cardiologist and nuclear medicine physician. Look for new chapters on attenuation correction, gated perfusion SPECT, radiopharmaceuticals, and myocardial perfusion SPECT, as well as the very latest on myocardial perfusion SPECT in conjunction with exercise and pharmacologic stress, assessment of perfusion/viability with Tc-99m agents, how SPECT

compares with other advanced cardiac imaging modalities, and more!

Chemical Reactions and Chemical Reactors George W. Roberts, 2008-03-14 Focused on the undergraduate audience, Chemical Reaction Engineering provides students with complete coverage of the fundamentals, including in-depth coverage of chemical kinetics. By introducing heterogeneous chemistry early in the book, the text gives students the knowledge they need to solve real chemistry and industrial problems. An emphasis on problem-solving and numerical techniques ensures students learn and practice the skills they will need later on, whether for industry or graduate work.

The Dissection of Vertebrates Gerardo De Iuliis, Gerald De Iuliis, Dino Pulera, 2006-08-03 The Dissection of Vertebrates covers several vertebrates commonly used in providing a transitional sequence in morphology. With illustrations on seven vertebrates – lamprey, shark, perch, mudpuppy, frog, cat, pigeon – this is the first book of its kind to include high-quality, digitally rendered illustrations. This book received the Award of Excellence in an Illustrated Medical Book from the Association of Medical Illustrators. It is organized by individual organism to facilitate classroom presentation. This illustrated, full-color primary dissection manual is ideal for use by students or practitioners working with vertebrate anatomy. This book is also recommended for researchers in vertebrate and functional morphology and comparative anatomy. The result of this exceptional work offers the most comprehensive treatment than has ever before been available. * Received the Award of Excellence in an Illustrated Medical Book from the Association of Medical Illustrators * Expertly rendered award-winning illustrations accompany the detailed, clear dissection direction * Organized by individual organism to facilitate classroom presentation * Offers coverage of a wide range of vertebrates * Full-

color, strong pedagogical aids in a convenient lay-flat presentation

British Generals in Blair's Wars Jonathan Bailey, Richard Iron, 2016-04-15 **British Generals in Blair's Wars** is based on a series of high profile seminars held in Oxford in which senior British officers, predominantly from the army, reflect on their experience of campaigning. The chapters embrace all the UK's major operations since the end of the Cold War, but they focus particularly on Iraq and Afghanistan. As personal testimonies, they capture the immediacy of the authors' thoughts at the time, and show how the ideas of a generation of senior British officers developed in a period of rapid change, against a background of intense political controversy and some popular unease. The armed forces were struggling to revise their Cold War concepts and doctrines, and to find the best ways to meet the demands placed upon them by their political leaders in what was seen to be a 'New World Order'. It was a time when relations between the Government of the day and the armed services came under close scrutiny, and when the affection of the British public for its forces seemed to grow with the difficulty of their operational tasks. This is a truly unique and invaluable book. For the first time, we are offered first-hand testimony about Britain's involvement in recent campaigns by senior participants. In addition to touching on themes like civilian-military relations, the operational direction of war and relationships with allies, these eyewitness accounts give a real sense of how the character of a war changes even as it is being fought. It will be essential reading for those in military academies and staff colleges, not only in Britain but throughout NATO, and especially in the USA. It also has profound policy implications, as both the UK and NATO more generally reassess their strategies and the value of intervention operations. It will also become a primary source for historians and students of the wars, in Iraq and Afghanistan in particular.

Advances in Business, Management and Entrepreneurship Ratih Hurriyati, Benny Tjahjono, Ikuro Yamamoto, Agus Rahayu, Ade Gafar Abdullah, Ari Arifin Danuwijaya, 2020-01-06 The GCBME Book Series aims to promote the quality and methodical reach of the Global Conference on Business Management & Entrepreneurship, which is intended as a high-quality scientific contribution to the science of business management and entrepreneurship. The Contributions are the main reference articles on the topic of each book and have been subject to a strict peer review process conducted by experts in the fields. The conference provided opportunities for the delegates to exchange new ideas and implementation of experiences, to establish business or research connections and to find Global Partners for future collaboration. The conference and resulting volume in the book series is expected to be held and appear annually. The year 2019 theme of book and conference is Creating Innovative

and Sustainable Value-added Businesses in the Disruption Era. The ultimate goal of GCBME is to provide a medium forum for educators, researchers, scholars, managers, graduate students and professional business persons from the diverse cultural backgrounds, to present and discuss their researches, knowledge and innovation within the fields of business, management and entrepreneurship. The GCBME conferences cover major thematic groups, yet opens to other relevant topics: Organizational Behavior, Innovation, Marketing Management, Financial Management and Accounting, Strategic Management, Entrepreneurship and Green Business.

Consumer Behaviour in Action Peter Ling, Steven D'Alessandro, Hume Winzar, 2015 Consumer Behaviour in Action introduces students to the fundamental concepts of consumer behaviour in a contemporary context. The text provides a balanced approach as it illustrates theory with practical applications and research methods for understanding consumers. Practical examples and case studies provide global, regional and local industry examples. Extended case studies covering topics such as Nike, Cricket Australia, Target, and McDonald's in overseas markets, draw together each part of the book to connect the themes discussed and encourage students to develop a deeper understanding of the material. Research and insights from fields such as psychology, sociology and complex systems are included. The accompanying enriched ebook (available free with the paperback) and supplementary digital resources provides superior, ready-to-use support for both students and lecturers. Key Features Provides a thorough analysis of consumer behaviour for the future professional. Provides numerous real world examples of marketing in the Australasian region and practical examples from developed and less developed countries. Features perspectives from a range of industry practitioners at various points in their careers. Features a diverse range of organisations, goods and services and covers the social (positive and negative) impact of consumer behaviour. Includes additional examples and videos in the ebook.

Acoustic Metamaterials Richard V. Craster, Sébastien Guenneau, 2012-12-06 About the book: This book is the first comprehensive review on acoustic metamaterials; novel materials which can manipulate sound waves in surprising ways, which include collimation, focusing, cloaking, sonic screening and extraordinary transmission. It covers both experimental and theoretical aspects of acoustic and elastic waves propagating in structured composites, with a focus on effective properties associated with negative refraction, lensing and cloaking. Most related books in the field address electromagnetic metamaterials and focus on numerical methods, and little (or no) experimental section. Each chapter will be authored by an acknowledged expert, amongst the topics covered will be

experimental results on non-destructive imaging, cloaking by surface water waves, flexural waves in thin plates. Applications in medical ultrasound imaging and modeling of metamaterials will be emphasized too. The book can serve as a reference for researchers who wish to build a solid foundation of wave propagation in this class of novel materials.
