Breaking with the Past Hans van de Ven, 2014-02-11 Between its founding in 1854 and its collapse in 1952, the Chinese Maritime Customs Service delivered one-third to one-half of all revenue collected by China's central authorities. Much more than a tax collector, the institution managed China's harbors, erected lighthouses, and surveyed the Chinese coast. It funded and oversaw the Translator's College, which trained Chinese diplomats while its staff translated Chinese classics, novels, and poetry and wrote important studies on the Chinese economy, its financial system, its trade, its history, and its government. It organized contributions to international exhibitions, developed its own shadow diplomacy, pioneered China's modern postal system, and even maintained its own armed force. After the 1911 Revolution, the agency became deeply involved in the management of China's international loans and domestic bond issues. In other words, the Customs Service was pivotal to China's post-Taiping integration into the world of modern nation-states and twentieth-century trade and finance. If the Customs Service introduced the modern governance of trade to China, it also made Chinese legible to foreign audiences. Following the activities of the Inspectors General, who were virtual autocrats within the service and communicated regularly with senior Chinese officials and foreign diplomats, this history tracks the Customs Service as it transformed China and its relationship to the world. The Customs Service often kept China together when little else did. This book reveals the role of the agency in influencing the outcomes of the Sino-French War, the Boxer Rebellion, and the 1911 Revolution, as well as the rise of the Nationalists in the 1920s, and concludes with the Customs Service purges of the early 1950s, when the relentless logic of revolution dismantled the agency for good.

The Break with the Past Deborah Ascher Barnstone, 2017-08-15 Between 1918 and 1933 the German interwar avant-garde was a primary force driving European cultural innovation and modernism. These innovations continue to influence artistic practice, theory, and arts education today, thus making a comprehensive study of the relationship between individual war experience and the immediate response of avant-garde architects after the war all the more important. *The Break with the Past* pursues several important, interrelated questions. What were the disparate war experiences of German architects, and did they have different effects on Weimar cultural production? Did political orientation play a part in support for the war? In aesthetic choices? What changes occurred in avant-garde architectural practice after 1918? How do they compare with pre-war positions and practices, and expectations for post-war outcomes? In order to address these questions, the book uses individual case studies of four leading architects: Bruno Taut, Walter Gropius, Erich Mendelsohn, and Hans Scharoun. This is a valuable resource for academics and students in the areas of Art and Architecture History, German history and Cultural Studies, European Culture and Modernism.

Forgiveness: Breaking the Power of the Past Kay Arthur, David Lawson, BJ Lawson, 2009-07-21 Unleash the Healing Power of Forgiveness As imperfect people living in an imperfect world, we eventually confront in nearly every

relationship the need to extend or receive forgiveness. But when the wounds run deep, forgiveness doesn't come easy. This eye-opening study deals with the difficult questions of forgiveness, including How can I forgive when the pain is so great? Does forgiving mean I have to forget the past? and What if I choose not to forgive? As you dig into what the Bible says on this vital topic, you'll encounter the depths of God's own mercy and discover how choosing forgiveness can free you from a painful past and propel you toward being all that God intends you to be.

Breaking the power of the Past Dr. D. K. Olukoya, 2015-04-22 The past can become a terror. The negative past can lie upon someone like the corpse of a giant. If care is not taken one can spend the entire profits he will make in the future to service the debts of the past. You cannot erase your past by wishful thinking. The battles from a negative past and a dark ancestry are real. What you have in your hand is not just another book from Dr. Olukoya. It is the key to your deliverance from the dark and mysterious past.

Breaking the Chains of Stigma Associated with Post Traumatic Stress Samuel M. Rhodes, 2014-01-30 When we met, Sam shared his own story with me and explained his growing passion to help other Soldiers suffering from post-traumatic stress. I encouraged him to expand his efforts, and we kept in touch after he retired. He shared with me the feedback he received from Soldiers and their families after they had heard his presentations, and he gave me a copy of his first book, *Changing the Military Culture of Silence*. I could only be impressed as he carried his message across the country. George W. Casey General, US Army (Ret) Former Army Chief of Staff With our veterans committing suicide at an epidemic rate of 22 suicides per day, the chains of stigma must be broken. This book is a reflection of Sam Rhodess personal experiences; he wears the proverbial tee-shirt. One doesn't experience life without experiencing life-changing events. It's how one handles those changes that counts. This book addresses ways to handle those changes to effect a positive outcome. Charles T. Jones Colonel, KYARNG Deputy Chief of Staff Personnel CSM Rhodes carried the hidden wounds of three combat tours inside him when he returned to Fort Benning to serve as the CSM of the Infantry School Training Brigade. After much soul-searching and anguish, he finally realized and publicly acknowledged that he suffered from Post-Traumatic Stress Disorder (PTSD). In doing so, he realized that part of his healing needed to include a concerted effort on his part to give back to the extended family he had come to know so well, his fellow Soldiers and their families, and to confront the issues plaguing him. Philip R. Tilly, Lieutenant Colonel, US Army (Ret)

Break the Grip of Past Lovers Jumana Sophia, 2019-10-15 In *Break the Grip of*

Past Lovers, author Jumana Sophia teaches women how to move beyond the lingering betrayals of past relationships to reclaim their personal power, reestablish healthy boundaries, and move forward into deeper and more intimate relationships with a renewed sense of sensual receptivity and emotional balance. With a teaching style that is warm, down to earth, and full of wisdom that speaks to the often-misunderstood vulnerability and power of female sexuality, Jumana guides women beyond the limitations of talk therapy and into a personal homecoming that will become a foundation for truly healthy intimacy in the future. Break the Grip of Past Lovers addresses regret, remorse, low self-esteem, and the inability to connect fully or trust someone new. Jumana guides the reader through experiences of betrayal, neglect, loss of personal power, manipulation, and even experiences that were so beautiful that they have left grief and irreconcilable longing in their place. The journey she presents is a journey of initiation into power, catalyzed by the kind of heartbreak and loss of self that only past sexual relationships can provide.

Breaking History: Vanished! Sarah Pruitt,2017-11-15 A front row seat to the breaking news, photos and hype surrounding history's most mysterious disappearances. Breaking History books offer a front row seat to history as it broke (like "breaking news") and give the blow-by-blow of historical discovery—what we learned, when we learned it, who made the discovery, and how. Vanished! is an illustrated tour of history's most confounding cases of disappearance from Amelia Earhart to Jimmy Hoffa; DB Cooper; Alcatraz escapees Frank Morris, John Anglin, and Clarence Algin; Jim Thompson; Judge Joseph Force Crater; and more. Starting with the first 30 days surrounding each incident, and then looking at efforts up to this very day to solve each case, this book covers in photos and text history's most perplexing vanishings.

Organisational Transformation in the Russian Oil Industry Sarah

Dixon, 2008-01-01 The author of this volume provides an insider view of the story due to her involvement with the [Russian oil] industry over a long period and her access to information from key players of the industry. . . the book is a welcome addition, especially for its sound story line. Anyone interested in the transformation of the Russian oil industry will find it a valuable work. It will also inspire researchers to analyse organisational transformation of other types of industries, especially electricity and gas in many countries around the world that have undergone radical changes in the past. Subhes C. Bhattacharyya, International Journal of Energy Sector Management Sarah Dixon has produced a fascinating look at the internal workings of four major Russian oil companies during the decade following their privatisation in the mid-1990s. Dixon has utilised her in-depth knowledge of Russia and her business experience in its thriving oil industry to gain access to Russia's powerful business titans. Her insights and careful observations have resulted in a masterful analysis of organisational transformation during Russia's radical institutional upheaval. The book is a valuable contribution to resource-based theory by explaining linkages between organisational learning, dynamic capabilities, and implementation of organisational transformation. Practitioners will also benefit from the rich case studies offering insight into constraints and enablers of organisational transformation. Sheila M. Puffer, Northeastern University, Boston, US Here the example of the Russian oil industry in the context of transition from a planned to a market economy is used to develop a three-stage framework for organisational transformation. Four longitudinal case studies of Russian oil companies are drawn upon to explain the process of organisational transformation. The book highlights how and why this process differs between companies within the same industry, explores the complexity of the change process and discusses the importance of the top management team. The links between organisational learning, dynamic capabilities and the implementation of change are analysed. An interesting insight into the constraints and enablers of organisational change is also provided. The framework developed from this study can be successfully applied to other organisations wishing to bring about organisational change. Integrating several perspectives, including a resource-based view, organisational learning, dynamic capabilities and top management team theory, this book will be of great interest to scholars and researchers of business and management, international business and organisational behaviour.
