Laurel Kiser

Breakout Dominique Mondesir, 2017-09-17 He has one shot--to get out, to save himself, and to protect his family. Looking for a major payoff, Phoenix Jones will do anything to save the people he cares about. With his brother and sister suffering in a hospital, he needs money--and fast. But when his temper lands him in prison light years from home, everything changes. Now all he's ever known and loved is on the line. It's up to Phoenix to break out of jail and battle vicious aliens he never knew existed. But can he save the only place he's ever called home before it's too late? If *Firefly* and *Guardians of the Galaxy* had a baby this story would be it!

The +vbar Breakout During Approach to Space Station Freedom National Aeronautics and Space Adm Nasa, 2018-10-12 A set of burn profiles was developed to provide bounding jet firing histories for a +vbar breakout during approaches to Space Station Freedom. The delta-v sequences were designed to place the Orbiter on a safe trajectory under worst case conditions and to try to minimize plume impingement on Space Station Freedom structure. Dunham, Scott D. Breakout P R Adams, 2023-11-06 The race has been run, and now comes a new struggle. Private Avery Shetty always saw war as horrific, but the life of the prisoner proves even worse. Torture, abuse, terror—the Oranian conquerors have no humanity. Worse, they may not even be the greatest threat. As bad as things are on Ferekon, the ripples of the failed military campaign spread throughout the Kedraalian Republic. While Shetty and his comrades suffer, violence and instability undermine the very reason they fight. With support for the Marines collapsing, Shetty's only hope for survival is himself. The vast, action-packed tale of military science fiction and space opera continues in

Breakout, book three in The Chronicle of the Final Light series.

Breakout Into Space George Henry Elias,1990 Presents a case for moving civilization beyond earth's limits and into the solar system. Here the author explores the environmental, economic, and political benefits of space settlement.

Player vs. Monster Jaroslav Svelch,2023-02-07 A study of the gruesome game characters we love to beat—and what they tell us about ourselves. Since the early days of video games, monsters have played pivotal roles as dangers to be avoided, level bosses to be defeated, or targets to be destroyed for extra points. But why is the figure of the monster so important in gaming, and how have video games come to shape our culture's conceptions of monstrosity? To answer these questions, Player vs. Monster explores the past half-century of monsters in games, from the dragons of early tabletop role-playing games and the pixelated aliens of Space Invaders to the malformed mutants of The Last of Us and the bizarre beasts of Bloodborne, and reveals the common threads among them. Covering examples from aliens to zombies, Jaroslav Švelch explores the art of monster design and traces its influences from mythology, visual arts, popular culture, and tabletop role-playing games. At the same time, he shows that video games follow the Cold War-era notion of clearly defined, calculable enemies, portraying monsters as figures that are irredeemably evil yet invariably vulnerable to defeat. He explains the appeal of such simplistic video game monsters, but also explores how the medium could evolve to present more nuanced depictions of monstrosity.

Advances in Human Factors in Wearable Technologies and Game Design Tareq Z. Ahram,2018-06-23 This book focuses on the human aspects of wearable technologies and

game design, which are often neglected. It shows how user centered practices can optimize wearable experience, thus improving user acceptance, satisfaction and engagement towards novel wearable gadgets. It describes both research and best practices in the applications of human factors and ergonomics to sensors, wearable technologies and game design innovations, as well as results obtained upon integration of the wearability principles identified by various researchers for aesthetics, affordance, comfort, contextual-awareness, customization, ease of use, ergonomics, intuitiveness, obtrusiveness, information overload, privacy, reliability, responsiveness, satisfaction, subtlety, user friendliness and wearability. The book is based on the AHFE 2018 Conference on Human Factors and Wearable Technologies and the AHFE 2018 Conference on Human Factors in Game Design and Virtual Environments , held on July 21-25, 2018 in Orlando, Florida, and addresses professionals, researchers, and students dealing with the human aspects of wearable, smart and/or interactive technologies and game design research.

They explore means by which these difficulties can be solved, and cover a wide range of related topics including: deep learning; artificial

intelligence; applications of game theory; mixed modality learning; and multi-agent reinforcement learning. Practicing engineers and scholars in the field of machine learning, game theory, and autonomous control will find the Handbook of Reinforcement Learning and Control to be thought-provoking, instructive and informative.

The Large Group Facilitator's Manual Kerry Napuk,Eddie Palmer,2017-05-15 Most organizations are adept at using small groups - witness the widespread use of teams. Yet, how do you work with 20 to 500 people at a time? How would you involve all stakeholders in a critical issue or the organization's future? How can you generate contributions, consensus and commitment from the bottom up? People want to contribute but often are frustrated through a lack of opportunity or means. Large Group Processes allow people to participate over things that matter to them. Participation leads to commitment and commitment to ownership. Working with large groups is relatively new, but these processes are proving very effective with positive outcomes. Audiences can be customized with stakeholders who might be inside or outside the organization, such as employees, customers, suppliers, shareholders, the general public and any other interested parties. Applications are wide-ranging, touching on almost every aspect of organizational life. The Large Group Facilitator's Manual offers you a blueprint for planning, preparing, running and reporting successful large group events. The authors walk

you through six different processes from concept to step-by-step facilitation with sample invitations, checklists and even scripts. It is the first facilitator's guide to cover so many processes with such detailed instructions.

Strengthening Family Coping Resources Laurel Kiser, 2015-01-14 Strengthening Family Coping Resources (SFCR) uses a skill-building, multi-family group framework to teach constructive resources to families who have a high exposure to stress and trauma. As an intervention for high-risk families, SFCR can cause a reduction in symptoms of traumatic distress and behavior problems and help families demonstrate higher functioning. The SFCR manual is based on a systemic, family approach and uses empirically-supported trauma treatment that focuses on family ritual, storytelling, and narration, which improves communication and understanding within family members. The manual is organized into three accessible parts: • Part 1 details the theoretical and empirical foundations of SFCR • Part 2 focuses on implementation and the clinical guidelines for conducting SFCR • Part 3 contains session guidelines focused on the multi-family group versions of SFCR Each session included in the intervention is structured according to specific guidelines, and instructions provide examples of what facilitators might say to a group. Formed through the input of psychiatrists, psychologists, social workers, and anthropologists, Strengthening Family Coping Resources will help you reduce the symptoms of traumatic stress disorders and increase coping resources in children, adult caregivers, and the family system. It also provides a novel approach to addressing co-occurring traumatic reactions in multiple family members by including developmentally

appropriate skill-building activities that are reinforced with family practice. For anyone working with families in a therapeutic capacity, this manual is a must-have resource.

Design for the Changing Educational Landscape

Andrew Harrison, Les Hutton, 2013-10-15 The whole landscape of space use is undergoing a radical transformation. In the workplace a period of unprecedented change has created a mix of responses with one overriding outcome observable worldwide: the rise of distributed space. In the learning environment the social, political, economic and technological changes responsible for this shift have been further compounded by constantly developing theories of learning and teaching, and a wide acceptance of the importance of learning as the core of the community, resulting in the blending of all aspects of learning into one seamless experience. This book attempts to look at all the forces driving the provision and pedagogic performance of the many spaces, real and virtual, that now accommodate the experience of learning and provide pointers towards the creation and design of learning-centred communities. Part 1 looks at the entire learning universe as it now stands, tracks the way in which its constituent parts came to occupy their role, assesses how

they have responded to a complex of drivers and gauges their success in dealing with renewed pressures to perform. It shows that what is required is innovation within the spaces and integration between them. Part 2 finds many examples of innovation in evidence across the world – in schools, the higher and further education campus and in business and cultural spaces – but an almost total absence of integration. Part 3 offers a model that redefines the learning landscape in terms of learning outcomes, mapping spatial requirements and activities into a detailed mechanism that will achieve the best outcome at the most appropriate scale. By encouraging stakeholders to creating an events-based rather than space-based identity, the book hopes to point the way to a fully-integrated learning landscape: a learning community.

Higher Education - Reflections From the Field - Volume 4 ,2023-11-02 COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved

so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections on 'Embracing Quality Assurance', 'Educational Standards and Quality Assurance', 'Evaluating Educational Access' and 'Why Assessment?'. It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.
