Tetris Box Brown,2016 It is, perhaps, the perfect video game. Simple yet addictive, Tetris delivers an irresistible, unending puzzle that has players hooked. Play it long enough and you ll see those brightly colored geometric shapes everywhere. You ll see them in your dreams. Alexey Pajitnov had big ideas about games. In 1984, he created Tetris in his spare time while developing software for the Soviet government. Once Tetris emerged from behind the Iron Curtain, it was an instant hit. Nintendo, Atari, Sega game developers big and small all wanted Tetris. A bidding war was sparked, followed by clandestine trips to Moscow, backroom deals, innumerable miscommunications, and outright theft. In this graphic novel, New York Times bestselling author Box Brown untangles this complex history and delves deep into the role games play in art, culture, and commerce. For the first time and in unparalleled detail, Tetris: The Games People Play tells the true story of the world s most popular video game.

Beyond Edutainment: Exploring the Educational Potential of Computer Games Simon Egenfeldt-Nielsen, 2011-01-25 Computer games have attracted much attention over the years, mostly attention of the less flattering kind. This has been true for computer games focused on entertainment, but also for what for years seemed a sure winner, edutainment. These years the area has gained new momentum and labels - game-based learning, serious games and educational games are just some of them. This dissertation aims to be a contribution to understanding educational use of computer games by building a framework that goes beyond edutainment. The framework laid out extends from an experiential learning approach, where concrete experiences are the starting point that can be transformed through reflection, instruction and active experimentation. It is concluded that computer games provide rich concrete experience that can be manipulated in the game universe providing more handles for the student compared to other media formats.

The Reddening Adam Nevill, 2023-10-31 Winner of The August Derleth Award for Best Horror Novel 2020. A folk horror thriller from the author of *The Ritual* and *No One Gets Out Alive*. One million years of evolution didn't change our nature. Nor did it bury the horrors predating civilisation. Ancient rites, old deities and savage ways can reappear in the places you least expect. Lifestyle journalist Katrine escaped past traumas by moving to a coast renowned for seaside holidays and natural beauty. But when a vast hoard of human remains and prehistoric artefacts is discovered in nearby Brickburgh, a hideous shadow engulfs her life. Helene, a disillusioned lone parent, lost her brother, Lincoln, six years ago. Disturbing subterranean noises he recorded prior to vanishing, draw her to Brickburgh's caves. A site where early humans butchered each other across sixty thousand years. Upon the walls, images of their nameless gods remain. Amidst rumours of drug plantations and new sightings of the mythical red folk, it also appears that the inquisitive have been disappearing from this remote part of the world for years. A rural idyll where outsiders are unwelcome and where an infernal power is believed to linger beneath the earth. A timeless supernormal influence that only the desperate would dream of confronting. But to save themselves and those they love, and to thwart a crimson tide of pitiless barbarity, Kat and Helene are given no choice. They were involved and condemned before they knew it. *The Reddening* is an epic story of folk and prehistoric horrors, written by the author of *The Ritual* and four times winner of The August Derleth Award for Best Horror Novel.
