The Bright Fish James Ward,2019-08-26 Something's not right aboard the cruise ship Aurora. Yet that's probably what you would think when you're with the girl you love and everyone else is about fifty years your senior. You're 3000 miles from home, young, and high on emotion. Maybe it just ratchets up the sense of adventure. And yet perhaps something really is wrong. There's the passenger everyone thought was dead, but who reappears one evening in the lounge without comment or explanation. And eighty-year-old Celia Soper who reads Tarot cards, but only for 'the history of the world' ... whatever that means. And then, of course, the disappearances. Which, apparently, only you two have noticed. Above all, there are the bright fish, creatures the size of dolphins that materialise unexpectedly, at intervals, alongside the hull, glowing with indescribable colours. And which never seem to inspire the sort of delight one might expect. Quite the opposite, in fact. The Bright Fish is a love story. It deals with what it means to live, lose one's heart, and ultimately, to die in the metaphysically reticent context of the present century. Are we always essentially alone, or is true interdependency possible? Is death our beginning or end? Or both? Conversely, is the truth stranger than we can possibly imagine?

Welfare of the Laying Hen G. C. Perry,2004-01-01 The welfare of egg-producing poultry is a topic of great concern to the poultry industry and to researchers in applied animal behaviour. It is also subject to increased legislation. Issues such as battery cages, space requirements, access to daylight and "free-range" eggs have attracted public interest.

The Teleios Ring Adam Loxley,2011 In a quiet corner in rural Kent, a 75 year old spinster is found dead at the bottom of her stairs, apparently killed while disturbing a burglary. Within days, two more people have been brutally murdered, triggering a race against time to catch a serial-killer before it is too late. Local Police Officer, John Garrick is on the case, closely followed by Journalist Neil Ashton, both of them out of their depth but both trying to unravel the mystery of something called Teleios, the word sprayed in bright, red letters at each of the murder scenes. And unknown to both of them, sinister, ex-government security agent, Craven, also wants to find out what Teleios means - but for very different reasons. What none of them realise is the magnitude of what they are dealing with; a chain of events that threatens the very heart of the establishment and which will change the fabric of society forever. An outcome so unimaginable that people are prepared to kill for it. Will any of them get there in time? And when they discover the true meaning of Teleios, will their lives ever be the same again? The plot combines the classic English murder mystery with the murky world of politics and international espionage. In an old fashion sense, the story is a mixture of Agatha Christie and John le Carré. In contemporary terms, the story is told from the perspective of three different protagonists, in a style reminiscent of Robert Goddard and Susan Hill.

Age of Consent Howard Mittelmark,2007-02-06 The house has a terrifying history and now history is repeating itself. Once upon a time, a group of student radicals found a leader and followed him beyond all reason. Years before that, in the same place, a prophet was visited by an angel, and followed it to a horrible end. Peter Coulter ignored the strange rumors about the house—until things started changing. His sister Ginny, once outgoing and popular, is now secretive and self-destructive. Peter's nightmares have become so vivid, so real. His father is possessed by a sudden calling from God. And all of them have seen the long-haired stranger in the woods. The one who wants them to do such shameful things, and who beckons them too, to follow him.

Drunk Tank Pink Adam Alter,2014-02-25 A New York Times bestseller! A revelatory look at how our environment unconsciously yet dramatically shapes the judgments and decisions we make every day Most of us go through life believing that we are in control of the choices we make—that we think and behave almost independently from the world around us. But as Drunk Tank Pink illustrates, the truth is our environment shapes our thoughts and actions in myriad ways without our permission or even our knowledge. Armed with surprising data and endlessly fascinating examples, Adam Alter addresses the subtle but substantial ways in which outside forces influence us—such as color's influence on mood, our bias in favor of names with which we identify, and how sunny days can induce optimism as well as aggression. Drunk Tank Pink proves that the truth behind our feelings and actions goes much deeper than the choices we take for granted every day.

The Heaven Trilogy Ted Dekker,2011-07-06 Dive deep into the stories that began it all. Ted Dekker's first novels--collected together for the first time. This trilogy is the collection of three gripping, psychological thrillers that peel back the skin of this world to reveal a supernatural reality rarely seen. A daring wager of life and death in Denver. An unfathomable leap of faith in a small Balkan village near the end of WWII. A global struggle for power that begins deep in the Amazon jungle. All three stories are bound together by one family's timeless, harrowing discovery of love and all that is unseen. The Heaven Trilogy offers a window into a world more real and vital than most people ever discover here on earth. A hidden world where the real dramas of the universe--and our daily lives--continually unfold. Well, well, well, guess what I've found. A fiction writer with a rare knack for a compelling story. Expansive...Clever...A provocative read. --Best-selling author Frank Peretti for Heaven's Wager Don't miss this book. Don't miss this author's writing. And don't miss the point. Beautiful and suspenseful. I'll have to read this one again.--Eric Wilson, author of the Jerusalem Unded Trilgoy, for When Heaven Weeps

Animalkind Ingrid Newkirk,Gene Stone,2021-01-19 The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with "admiration and empathy" (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding

beings with intelligence, emotions, intricate communications networks, and myriad abilities. In *Animalkind*, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish “sing” underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it’s medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. *Animalkind* provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.

With no warning. In the dead of night, a precipitous plunge into a freezing river trapped everyone inside the bus. It was then that Army veteran John Reiff’s life came to an end. Extinguished in the sudden rush of frigid water. There was no expectation of survival. None. Let alone waking up beneath blinding hospital lights. Struggling to move, or see, or even breathe. But the doctors assure him that everything is normal. That things will improve. And yet, he has a strange feeling that there's something they're not telling him. As Reiff's mind and body gradually recover, he becomes certain that the doctors are lying to him. One-by-one, puzzle pieces are slowly falling into place, and he soon realizes that things are not at all what they seem. Critical information is being kept from him. Secrets. Supposedly for his own good. But who is doing this? Why? And the most important question: can he keep himself alive long enough to uncover the truth? But as Conway's curiosity grows and his leads proliferate, his investigation takes him from Scotland to Belfast. Shocked by the sectarian violence of the past, and by the prejudice and hatred he encounters even now, Conway soon grows obsessed with the story of Lyons and all he represents.
