Samurai Squadron: Spinward Fringe Broadcast 18 Randolph Lalonde,2023-04-18 The Order of Eden is expanding their reach. The Renegade Captain Jacob Valent can't gather enough large starships to fight them on their own terms, so he turns to his old friend and his band of pilots. Wing Commander Minh-Chu and Samurai Squadron have proven that a small fighter can do incredible damage and disappear before it's overwhelmed before, and everyone is depending on them to do it again.

Music and the Broadcast Experience Christina L. Baade,James Andrew Deaville,2016 How can broadcasting help us understanding music and its cultural role, both historically and today? To answer this question, 'Music and the Broadcast Experience' brings together fourteen leading music and media scholars, who explore how music and broadcasting have developed together throughout the twentieth and into the twenty-first centuries.

Farm Fresh Broadband Christopher Ali,2021-09-21 An analysis of the failure of U.S. broadband policy to solve the rural-urban digital divide, with a proposal for a new national rural broadband plan. As much of daily life migrates online, broadband—high-speed internet connectivity—has become a necessity. The widespread lack of broadband in rural America has created a stark urban-rural digital divide. In Farm Fresh Broadband, Christopher Ali analyzes the promise and the failure of national rural broadband policy in the United States and proposes a new national broadband plan. He examines how broadband policies are enacted and implemented, explores business models for broadband providers, surveys the technologies of rural broadband, and offers case studies of broadband

use in the rural Midwest. Ali argues that rural broadband policy is both broken and incomplete: broken because it lacks coordinated federal leadership and incomplete because it fails to recognize the important roles of communities, cooperatives, and local providers in broadband access. For example, existing policies favor large telecommunication companies, crowding out smaller, nimbler providers. Lack of competition drives prices up—rural broadband can cost 37 percent more than urban broadband. The federal government subsidizes rural broadband by approximately \$6 billion. Where does the money go? Ali proposes democratizing policy architecture for rural broadband, modeling it after the wiring of rural America for electricity and telephony. Subsidies should be equalized, not just going to big companies. The result would be a multistakeholder system, guided by thoughtful public policy and funded by public and private support.
