Welcome to Britain: Fixing Our Broken Immigration System Colin Yeo,2022-03-17 A must-read – Maya Goodfellow Highly readable – Joshua Rozenberg QC Brilliant and urgently necessary – Amelia Gentleman Incisive and compelling – The Secret Barrister *** How would we treat Paddington Bear if he came to the UK today? Perhaps he would be a casualty of extortionate visa application fees; perhaps he would experience a cruel term of imprisonment in a detention centre; or perhaps his entire identity would be torn apart at the hands of a hostile environment that delights in the humiliation of its victims. Britain thinks of itself as a welcoming country, but the reality is very different. This is a system in which people born in Britain are told in uncompromising terms that they are not British, in which those who have lived their entire lives on these shores are threatened with deportation, and in which

falling in love with anyone other than a British national can result in families being ripped apart. Now fully updated to include the Nationality and Borders Bill, in this vital and alarming book, campaigner and immigration barrister Colin Yeo tackles the subject with dexterity and rigour, offering a roadmap of where we should go from here as he exposes the injustice of an immigration system that is unforgiving, unfeeling and, ultimately, failing.

The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage Chul Woo

Son,2014-01-24 The concept of self-sacrifice is highly important to Korean Americans. With hierarchy of age, social status, and gender-defined roles taking primacy over equality and justice, self-sacrifice

becomes instrumental in maintaining family and social relationships. Unfortunately, in family relationships, sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial. When self-sacrifice carries hidden motives--coercive responsibility, obligation, shame, guilt, or one's reputation--that self-sacrifice is not self-giving, neither serving nor being of mutual benefit. In this context, it is important to explore the attitudes and motives of self-sacrifice in Korean American families. In unlocking and exploring the dynamics of the theology and practice of self-sacrifice for Korean Americans, this book explores cultural virtues, marital relationships, gender inequality, domestic violence, and their theological implications. The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self-sacrifice for Korean American family relationships. The element of equal regard as pertaining to self-sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting-off of culturally and religiously imposed burdens. The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality,

self-sacrifice, and individual fulfillment. When this is done, sacrificial love can be understood as justly appropriated for both husbands and wives, males and females, and parents and children. Thus, Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized, especially women and children.
