

Bronze Garden Statues 10

Jens M. Deahner, Kenneth Lapatin

Thelwell's Pony Cavalcade Norman Thelwell, 2017-04-17 Little girls. Fat hairy ponies. Hook-nosed riding teachers, riders on backward, and horses gone madly off course. The artist Norman Thelwell published his first pony cartoon in 1953, and quite by accident, his name became synonymous with these kinds of images. The response was instantaneous, he wrote in his autobiography. Suddenly I had fan mail...I dreamed up some more horsey ideas and people went into raptures. The Thelwell pony soon became the most-often referenced source of horse-humor the world over. In 1957, Thelwell's first collection of pony cartoons, *Angels on Horseback*, was published, followed by *A Leg at Each Corner* in '61, and *Riding Academy* in '63. In this Anniversary Special Collection, readers get all three classics, featuring page after page of Thelwell's hilarious cartoons along with his often blisteringly accurate advice for survival in and around the equine herd. Whether audiences open *Pony Calvacade* out of nostalgia or curiosity, the delightful details of Thelwell's illustrations and timeless wit of his caricatures and asides are a surefire way to change a day for the better, and certain to send a new

generation of fat-hairy-pony-lovers out to the barn to test the truths within.

Antique Garden Ornament John Patrick Stuart Davis, 1991 The history of garden ornament from the seventeenth century is covered in great detail with separate sections on lead, stone, bronze, marble and cast iron. The working techniques of the modellers and manufactories are discussed in detail as well as some of the gardens in which the finest examples may be found. This is a comprehensive work of original research.

Power and Pathos Jens M. Deahner, Kenneth Lapatin, 2015-05-24 For the general public and specialists alike, the Hellenistic period (323–31 BC) and its diverse artistic legacy remain underexplored and not well understood. Yet it was a time when artists throughout the Mediterranean developed new forms, dynamic compositions, and graphic realism to meet new expressive goals, particularly in the realm of portraiture. Rare survivors from antiquity, large bronze statues are today often displayed in isolation, decontextualized as masterpieces of ancient art. Power and Pathos gathers together significant examples of bronze sculpture in order to highlight their varying styles,

techniques, contexts, functions, and histories. As the first comprehensive volume on large-scale Hellenistic bronze statuary, this book includes groundbreaking archaeological, art-historical, and scientific essays offering new approaches to understanding ancient production and correctly identifying these remarkable pieces. Designed to become the standard reference for decades to come, the book emphasizes the unique role of bronze both as a medium of prestige and artistic innovation and as a material exceptionally suited for reproduction. *Power and Pathos* is published on the occasion of an exhibition on view at Palazzo Strozzi in Florence from March 14 to June 21, 2015; at the J. Paul Getty Museum from July 20 through November 1, 2015; and at the National Gallery of Art in Washington, DC, from December 6, 2015, through March 20, 2016.

Conserving Outdoor Bronze Sculpture Dennis Montagna, 1989

Cast in Bronze Musée du Louvre, Metropolitan Museum of Art (New York, N.Y.), J. Paul Getty Museum, 2009 This book provides an overview of the bronze sculpture produced in France from the 16th to 18th centuries. Works by major sculptors such as Goujon, Pilon, Prieur, Anguier, Puget,

Girardon, Desjardins, Coysevox, Le Lorrain, Bertrand, Cafferi, Pigalle, and Houdon represent a spectacular phase of French art and history ranging from the Renaissance through Neoclassicism up to the French Revolution.

Small Bronze Sculpture from the Ancient World ,1990 Historical and technical considerations in provenancing and collecting Greek, Etruscan, and Roman bronzes.

The Bronze Statue of a Youth David Rinne, Jiri Frel, 1975-01-01 Reproductions rarely form a part of any true art collection, but the circumstances leading to the recreation of an ancient bronze statue for the Getty Museum were unique. With many accompanying photographs, David Rinne leads the reader through the fascinating process of casting a bronze statue utilizing molds taken from the head and foot of the original bronze in the Getty collection and the torso of the same statue from the Burdur Museum in Turkey.

Greek Bronze Statuary Carol C. Mattusch, 2019-05-15 Freestanding bronze statuary was the primary mode of artistic expression in classical Greece, yet it was not until the nineteenth century that

any original large statues of that period were unearthed. Although ancient literature has preserved information about the most famous Greek sculptors who worked in bronze, our perception of the art has been limited by the small number of extant originals from the sixth and fifth centuries B.C. there remain fewer than ten large cast bronze statues, a like number of bronze heads, an assortment of fragments, and some clay molds for casting. Carol Mattusch enriches our knowledge of this beloved but elusive art form in a comprehensive study of the style and techniques of bronze statuary during the Archaic (6th century B.C.) and Classical (5th century B.C.) periods.

Make Way for Ducklings Robert McCloskey, 1999-02-01 Robert McCloskey's unusual and stunning pictures have long been a delight for their fun as well as their spirit of place.—The Horn Book Mrs. Mallard was sure that the pond in the Boston Public Gardens would be a perfect place for her and her eight ducklings to live. The problem was how to get them there through the busy streets of Boston. But with a little help from the Boston police, Mrs. Mallard and Jack, Kack, Lack, Nack, Ouack, Pack, and Quack arrive safely at their new home. This brilliantly illustrated, amusingly observed tale of Mallards

on the move has won the hearts of generations of readers. Awarded the Caldecott Medal for the most distinguished American picture book for children in 1941, it has since become a favorite of millions. This classic tale of the famous Mallard ducks of Boston is available for the first time in a full-sized paperback edition. Make Way for Ducklings has been described as one of the merriest picture books ever (The New York Times). Ideal for reading aloud, this book deserves a place of honor on every child's bookshelf. This delightful picture book captures the humor and beauty of one special duckling family. ... McClosky's illustrations are brilliant and filled with humor. The details of the ducklings, along with the popular sights of Boston, come across wonderfully. The image of the entire family proudly walking in line is a classic.—The Barnes & Noble Review The quaint story of the mallard family's search for the perfect place to hatch ducklings. ... For more than fifty years kids have been entertained by this warm and wonderful story.—Children's Literature

Sculpture Collections in Europe and the United States 1500-1930 ,2021-04-26 Exploring the various forms taken by sculpture collections, this volume presents new research on collectors, modes

of display, and the aesthetics of viewing sculpture, making a notable addition to the literature on the history of sculpture and art collecting as a cultural phenomenon.

Copper and Bronze in Art David A. Scott, 2002 This is a review of 190 years of literature on copper and its alloys. It integrates information on pigments, corrosion and minerals, and discusses environmental conditions, conservation methods, ancient and historical technologies.

Sculpture of a City Fairmount Park Art Association, 1974-01-01

The Getty Bronze Jiri Frel, 1982-01-01 Released from his prison of incrustation, having rested on the ocean floor for thousands of years, the bronze statue of an athlete stands in a quietly arrogant pose, having just placed an olive crown—the symbol of victory in the Olympic Games—on his head. In this monograph devoted to the Getty Bronze, Dr. Frel analyzes the technique and style that point to its attribution to the great fourth-century Greek sculptor Lysippos. The conservation of the bronze, its possible identity as a Hellenistic prince, and its place in Lysippos's oeuvre are discussed.

Classical Bronzes Carol C. Mattusch, 2019-04-15 One of the world's leading authorities on ancient

bronze sculpture, Carol C. Mattusch urges us to discard the terms Greek original and Roman copy and to adopt instead terms that distinguish unique works from those produced in series and those produced as variations on a theme. She discusses the dating of bronzes based on criteria of technique and style, and considers technical innovations in the art of portraiture. Most controversially, she offers evidence that Greek artists cast bronzes in series based on a single model. Mattusch points out that examples of series castings can be found among the statuettes and vessel attachments from the Geometric and Orientalizing periods. From the Classical period onward, statues also appear to have been cast in series. Certain styles and types of images that achieved widespread popularity during the Hellenistic and Roman periods were produced in large quantities and in several different places. This book will raise important new questions in the field of Classical bronze sculpture. How long might a single model remain in use and how far might casts from it be transported for production? What is the significance of an artist's signature on a work in a series and what influence was wielded by the potential buyer? And, given these issues, what should the criteria be for distinguishing Greek works

from Roman ones? *Classical Bronzes* is generously illustrated, including an eight-page color insert.

The Insula of the Menander at Pompeii Roger Ling, Penelope M. Allison, Paul R. Arthur, K. S. Painter, 1997 The Insula of the Menander is one of the most completely excavated city blocks in Pompeii, with buildings ranging from small shops to large aristocratic houses. This volume, the third in a series of five volumes examining the Insula, is the first ever comprehensive study of the contents of Pompeian houses and buildings within their original contexts. It provides a great insight into living conditions in Pompeii during the final years of the city.

Midnight in the Garden of Good and Evil John Berendt, 1994-01-13 NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city—now in a 30th anniversary edition with a new afterword by the author “Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.”—The New York Times Book Review Shots rang out in Savannah’s grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the

shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and masterfully written, *Midnight in the Garden of Good and Evil* is a sublime and seductive reading

experience.

Sculptural Monuments in an Outdoor Environment Virginia Norton Naudé, 1985 All the information you could want on outdoor sculptural monuments.

Creating Memory John Warkentin, 2010 Toronto has over 600 public outdoor sculptures, works of art that provide a sense of the rich variety of life and work in the city, its peoples, cultures and aspirations. Interest in commissioning public sculpture began slowly in the nineteenth and early twentieth century, but increased rapidly after the 1950s. This is a book about the sculptures and how they disclose the city to itself. *Creating Memory's* two introductory sections examine the factors behind this expansion over time and the changes in style as one generation of sculptors succeeded another. It looks at the reasons behind the changes as sculptures were conceived, sculpted and erected. More than 10 categories of sculptures are defined and discussed, including Founding the City, Natural Environment, Immigration, Ethnic Groups, Economic Activities, Disaster and Calamity, War And Conflict, Leaders, Ordinary Citizens, Community Life, and Works of the Imagination.
