*Economics of Electricity* Anna Creti,Fulvio Fontini,2019-05-30 Explains the economics of electricity at each step of the supply chain: production, transportation and distribution, and retail.

A Practical Guide to Trade Policy Analysis Marc Bacchetta,2012 Trade flows and trade policies need to be properly quantified to describe, compare, or follow the evolution of policies between sectors or countries or over time. This is essential to ensure that policy choices are made with an appropriate knowledge of the real conditions. This practical guide introduces the main techniques of trade and trade policy data analysis. It shows how to develop the main indexes used to analyze trade flows, tariff structures, and non-tariff measures. It presents the databases needed to construct these indexes as well as the challenges faced in collecting and processing these data, such as measurement errors or aggregation bias. Written by experts with practical experience in the field, A Practical Guide to Trade Policy Analysis has been developed to contribute to enhance developing countries' capacity to analyze and implement trade policy. It offers a hands-on introduction on how to estimate the distributional effects of trade policies on welfare, in particular on inequality and poverty. The guide is aimed at government experts engaged in trade negotiations, as well as students and researchers involved in trade-related study or research. An accompanying DVD contains data sets and program command files required for the exercises. Copublished by the WTO and the United Nations Conference on Trade and Development

*Supports in Roman Marble Sculpture* Anna Anguissola,2018-02-15 Figural and non-figural supports are a ubiquitous feature of Roman marble sculpture; they appear in sculptures ranging in size from miniature to colossal and of all levels of quality. At odds with modern ideas about beauty, completeness, and visual congruence, these elements, especially non-figural struts, have been dismissed by scholars as mere safeguards for production and transport. However, close examination of these features reveals the tastes and expectations of those who commissioned, bought, and displayed marble sculptures throughout the Mediterranean in the Hellenistic and Roman periods. Drawing on a large body of examples, Greek and Latin literary sources, and modern theories of visual culture, this study constitutes the first comprehensive investigation of non-figural supports in Roman sculpture. The book overturns previous conceptions of Roman visual values and traditions and challenges our understanding of the Roman reception of Greek art.

*Repeated Games* Jean-François Mertens,Sylvain Sorin,Shmuel Zamir,2015-02-09 This landmark work significantly advances the literature on game theory with a masterful conceptual presentation of the CORE working papers published in 1994.

Coconut Colonialism Holger Droessler,2022-01-11 A new history of globalization and empire at the crossroads of the Pacific. Located halfway between Hawai'i and Australia, the islands of Samoa have long been a center of Oceanian cultural and economic exchange. Accustomed to exercising agency in trade and diplomacy, Samoans found themselves enmeshed in a new form of globalization after missionaries and traders arrived in the middle of the nineteenth century. As the great powers of Europe and America competed to bring Samoa into their orbits, Germany and the United States eventually agreed to divide the islands for their burgeoning colonial holdings. In Coconut Colonialism, Holger Droessler examines the Samoan response through the lives of its workers. Ordinary Samoans—some on large plantations, others on their own small holdings—picked and processed coconuts and cocoa, tapped rubber trees, and built roads and ports that brought cash crops to Europe and North America. At the same time, Samoans redefined their own way of being in the world—what Droessler terms "Oceanian globality"—to challenge German and American visions of a global economy that in fact served only the needs of Western capitalism. Through cooperative farming, Samoans contested the exploitative wage-labor system introduced by colonial powers. The islanders also participated in ethnographic shows around the world, turning them into diplomatic missions and making friends with fellow colonized peoples. Samoans thereby found ways to press their own agendas and regain a degree of independence. Based on research in multiple languages and countries, Coconut Colonialism offers new insights into the global history of labor and empire at the dawn of the twentieth century.

*The State of the World's Children 2006* UNICEF.,2005 The 2006 edition of UNICEF's annual report focuses on the millions of children who are most in need of access to essential education, health and protection services, but who are also the hardest to reach and often overlooked by current development programmes. These include children living in the poorest countries and most deprived communities within countries, children who face discrimination on the basis of gender, ethnicity or disability, children caught up in armed conflicts or affected by HIV/AIDS, children who lack a formal identity and who suffer from abuse and exploitation. The report examines the factors which result in their exclusion from current child development programmes and services, and highlights the policy options and actions required to address these challenges, in order to ensure all children benefit from the progress being made to achieve the Millennium Development Goals. Topics discussed include: income disparities and child survival, the marginalisation of Roma communities and their children, disability issues, children and HIV/AIDS, children living on the streets, early marriages, child labour, child protection and child rights.

*Saturn in the 21st Century* Kevin H. Baines,F. Michael Flasar,Norbert Krupp,Tom Stallard,2018-12-06 A detailed overview of Saturn's formation, evolution and structure written by eminent planetary scientists involved in the Cassini Orbiter mission.

The Rice Crisis David Dawe,2012-07-26 The recent escalation of world food prices – particularly for cereals - prompted mass public indignation and demonstrations in many countries, from the price of tortilla flour in Mexico to that of rice in the Philippines and pasta in Italy. The crisis has important implications for future government trade and food security policies, as countries re-evaluate their reliance on potentially more volatile world markets to augment domestic supplies of staple foods. This book examines how government policies caused and responded to soaring world prices in the particular case of rice, which is the world's most important source of calories for the poor. Comparable case studies of policy reactions in different countries, principally across Asia, but also including the USA, provide the understanding necessary to evaluate the impact of trade policy on the food security of poor farmers and consumers. They also provide important insights into the concerns of developing countries that are relevant for future international trade negotiations in key agricultural commodities. As a result, more appropriate policies can be put in place to ensure more stable food supplies in the future. Published with the Food and Agriculture (FAO) Organization of the United Nations

**Guillaume Du Fay** Alejandro Planchart,2018-07-31 This volume explores the work of one of medieval music's most important figures, and in so doing presents an extended panorama of musical life in Europe at the end of the middle ages. Guillaume Du Fay rose from obscure beginnings to become the most significant composer of the fifteenth century, a man courted by kings and popes, and this study of his life and career provides a detailed examination of his entire output, including a number of newly discovered works. As well as offering musical analysis, this volume investigates his close association with the Cathedral of Cambrai, and explores how, at a time when music was becoming increasingly professionalised, Du Fay forged his own identity as 'a composer'. This detailed biography will be highly valuable for those interested in the history of medieval and church music, as well as for scholars of Du Fay's musical legacy.

**The Andromeda Evolution** Michael Crichton,Daniel H. Wilson,2019-11-12 NEW YORK TIMES BESTSELLER Fifty years after *The Andromeda Strain* made Michael Crichton a household name—and spawned a new genre, the technothriller—the threat returns, in a gripping sequel that is terrifyingly realistic and resonant. *The Evolution is Coming*. In 1967, an extraterrestrial microbe came crashing down to Earth and nearly ended the human race. Accidental exposure to the particle—designated *The Andromeda Strain*—killed every resident of the town of Piedmont, Arizona, save for an elderly man and an infant boy. Over the next five days, a team of top scientists assigned to Project Wildfire worked valiantly to save the world from an epidemic of unimaginable proportions. In the moments before a catastrophic nuclear detonation, they succeeded. In the ensuing decades, research on the microparticle continued. And the world thought it was safe... Deep inside Fairchild Air Force Base, Project Eternal Vigilance has continued to watch and wait for the *Andromeda Strain* to reappear. On the verge of being shut down, the project has registered no activity—until now. A Brazilian terrain-mapping drone has detected a bizarre anomaly of otherworldly matter in the middle of the jungle, and, worse yet, the tell-tale chemical signature of the deadly microparticle. With this shocking discovery, the next-generation Project Wildfire is activated, and a diverse team of experts hailing from all over the world is dispatched to investigate the potentially apocalyptic threat. But the microbe is growing—evolving. And if the Wildfire team can't reach the quarantine zone, enter the anomaly, and figure out how to stop it, this new *Andromeda Evolution* will annihilate all life as we know it.

**Commodity Risk Management** Geoffrey Poitras,2013 This book aims to cover the following general topics: development and assessment of theories for evaluating commodity risk; the role of derivative securities in managing commodity risk; and, an assessment of the actual management of commodity risk in specific situations. The primary contribution of the book is the explicit development of the often overlooked connection between risk management and speculation. The central theme is to demonstrate that commodity risk management decisions require an in depth understanding of speculative strategies. To this end, this book aims to provide a unified treatment of important concepts and techniques that are useful in applying derivative securities in the management of risk arising in commodity markets.

Natural Gas Seepage Giuseppe Etiope,2015-01-30 The book offers a modern, comprehensive, and holistic view of natural gas seepage, defined as the visible or invisible flow of gaseous hydrocarbons from subsurface sources to Earth's surface. Beginning with definitions, classifications for onshore and offshore seepage, and fundamentals on gas migration mechanisms, the book reports the latest findings for the global distribution of gas seepage and describes detection methods. Seepage implications are discussed in relation to petroleum exploration, environmental impacts (hazards, pollution, atmospheric emissions, and past climate change), emerging

scientific issues (abiotic gas and methane on Mars), and the role of seeps in ancient cultures. With an updated bibliography and an integrated analysis of available data, the book offers a new fundamental awareness - gas seepage is more widespread than previously thought and influences all of Earth's external "spheres", including the hydrosphere, atmosphere, biosphere, and anthroposphere.

FAO Yearbook of Forest Products | Annuaire FAO des produits forestiers | Anuario FAO de productos forestales 2018 Food and Agriculture Organization of the United Nations ,2020-08-01 The FAO Yearbook of Forest Products is a compilation of statistical data on basic forest products for all countries and territories of the world. It contains a series of annual data on the volume of production and the volume and value of trade in forest products. It includes tables showing the direction of trade and average unit values of trade for certain products. Statistical information in the yearbook is based primarily on data provided to the FAO Forestry Department by the countries through questionnaires or official publications. In the absence of official data, FAO makes an estimate based on the best information available.

**French Short Stories for Beginners** Lingo Mastery,2019-05 Finding material for your French immersion can be a nightmare, but not anymore! French students regularly have to go through the toughest experiences to find proper reading material that isn't too tough for them - as teachers; we know this. This is why we've created French Short Stories for Beginners to ensure that young and old students at the Beginner level can have yet another chance to immerse themselves into fun and interactive stories designed for you, the student. Twenty easy-to-read, entertaining and interesting stories await inside, along with the best tools to help you practice once you're done reading each tale. Our book will ensure you not only can read something that will expand your knowledge on French but that you will understand and be able to pick it apart piece by piece in your quest for learning. How French Short Stories for Beginners works: Each story is designed to keep you engaged and interested as well as using vocabulary that you will actually use. The summaries follow a synopsis in French and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. At the end of those summaries, you'll be provided with a list of the most relevant vocabulary involved in the lesson, as well as slang and sayings that you may not have understood at first glance! Finally, you'll be provided with a set of tricky questions in French, providing you with the chance to prove that you learned something in the story. Don't worry if you don't know the answer to any - we will provide them immediately after, but no cheating! Do you think you can handle it? If the answer is yes, then you're definitely on your way to becoming a French speaker, and we'll certainly make that dream come true! We recommend this book for French learners at A2 level and above as it is designed for students with a basic understanding of French. So look no further! Lines of Geography in Latin American Narrative Aarti Smith Madan,2017-08-17 This book looks to the writings of prolific statesmen like D.F. Sarmiento, Estanislao Zeballos, and Euclides da Cunha to unearth the literary and political roots of the discipline of geography in nineteenth-century Latin America. Tracing the simultaneous rise of text-writing, map-making, and institution-building, it offers new insight into how nations consolidated their territories. Beginning with the titanic figures of Strabo and Humboldt, it rereads foundational works like *Facundo* and *Os sertões* as examples of a recognizably geographical discourse. The book digs into lesser-studied bulletins, correspondence, and essays to tell the story of how three statesmen became literary stars while spearheading Latin America's first geographic institutes, which sought to delineate the newly independent states. Through a fresh pairing of literary analysis and institutional history, it reveals that words and maps—literature and geography—marched in lockstep to shape national territories, identities, and narratives.

*How to Fail as a Popstar* Vivek Shraya,2021-04-06 Described as “cultural rocket fuel” by Vanity Fair, Vivek Shraya is a multi-media artist whose art, music, novels, and poetry and children's books explore the beauty and the power of personal and cultural transformation. *How to Fail as a Popstar* is Vivek's debut theatrical work, a one-person show that chronicles her journey from singing in shopping malls to “not quite” pop music superstardom with beguiling humor and insight. A reflection on the power of pop culture, dreams, disappointments, and self-determination, this astonishing work is a raw, honest, and hopeful depiction of the search to find one's authentic voice. The book includes color photographs from the show's 2020 production in Toronto, and a foreword by its director Brendan Healy. This publication meets the EPUB Accessibility requirements and it also meets the Web Content Accessibility Guidelines (WCAG-AA). It is screen-reader friendly and is accessible to persons with disabilities. A Simple book with few images, which is defined with accessible structural markup. This book contains various accessibility features such as alternative text for images, table of contents, page-list, landmark, reading order and semantic structure.
