Teaching Conversation to Children with Autism Lynn E. McClannahan, Patricia J. Krantz, 2005 Scripting is a teaching method designed to help children and adults with autism spectrum disorders (ASDs), who are nonverbal or who are verbal but don't initiate conversation, to initiate conversation. The authors draw on years of experience using scripts in their own clinic, and include many case studies that show how scripts have worked. The book defines scripts as an audiotape or written word, phrase, or sentence that enables young people with autism to use speech to start and continue conversations. At first a child is taught to play the recording of a word for an adult, and then get a reaction from the adult. (e.g., if he plays the script juice, the adult will give him a sip of juice or if he plays the script ball, the adult will play ball with him). Later on, the child is taught to play the script and then say the word himself (and get the reward from the adult). As the child becomes better at talking, scripts are lengthened to become phrases --want juice or play ball --- and then sentences. And once the child can read, scripts are written instead of recorded. As the child masters sets of scripts, the adult begins to diminish (fade) the prompts. If the script was recorded, words are gradually deleted from the recording. (e.g., if the script started out saying, Where is mom? they will re-record it so it just says Where is and then Where ---? At this point, the child should fill in the blanks.

The Story of the Selma Voting Rights Marches in Photographs David Aretha, 2014-01-01 The Civil Rights Act of 1964 was a momentous victory for civil rights activists, but one major obstacle remained in the path toward equal rights for African Americans: the right to vote. In the South, segregationists

prevented African Americans from voting. Civil rights leaders believed it was time for strong action and chose Selma, Alabama, as the rallying point. There, the marches and protests captured the nation's attention. Through gripping primary source photographs, author David Aretha explores this important time in American history.

The Things of the World James A. Aho, 1998-10-30 What does it mean to be a social being in the ordinary life-world? This clear and compelling introduction to social phenomenology examines the experiential features of the basic things comprising our life-world, namely me, you, abstract others (enemies, communities, and associations), and attributes of the lived-body (emotions, pain, and pleasure). Each of these entities is phenomenologically described, with the aim of reducing reports of personal experiences and other primary documents to the presumed prototypical experience of the thing in question—its ideal essence. Another aim of this study is to sociologically account for how the various entities of the life-world have been accomplished, that is, how the prototypical experiences of the things in question have come to be. By showing the life-world to be our joint project rather than a fixed, unalterable coherency, this volume destabilizes our naive attitude towards the things of the world. Examples are drawn from the author's own research on issues such as violence, religion, health, and race; from classic and contemporary anthropological research; and from the works of some of the most innovative philosophers of the twentieth century. This study actually does phenomenology instead of merely arguing for its necessity and will appeal to both social scientists and philosophers.

Lincoln's Journalist Michael Burlingame,2006-08-09 Michael Burlingame presents anonymous and pseudonymous newspaper articles written by Lincoln's assistant personal secretary, John Hay,

between 1860 and 1864. In the White House, Hay became the ultimate insider, the man who had the president's ear. Only an extremely small number of persons ever saw Abraham Lincoln both day and night in public as well as private settings from 1860 to 1864, notes Wayne C. Temple, chief deputy director, Illinois State Archives. And only one of them had the literary flair of John Milton Hay. Burlingame takes great pains to establish authorship of the items reproduced here. He convincingly demonstrates that the essays and letters written for the Providence Journal, the Springfield Illinois State Journal, and the St. Louis Missouri Democrat under the pseudonym Ecarte are the work of Hay. And he finds much circumstantial and stylistic evidence that Hay wrote as our special correspondent for the Washington World and for the St. Louis Missouri Republican. Easily identifiable, Hay's style was marked by long sentences, baroque syntactical architecture, immense vocabulary, verbal pyrotechnics, cocksure tone (combining acid contempt and extravagant praise), offbeat adverbs, and scornful adjectives.
