*Build a Drone* Barry Davies, 2016-11-22 Within the last couple of years, the usage of drones in both the public and private (military) sector has exploded. People are talking about drones, building drones, and something most people didn't know of a few years ago is now a household name. Build a Drone will not only teach you how to build your very own drone, but will explain their history in the military and the impact they will have—and are starting to have—on our everyday lives. Author Barry Davies has built drones for DARPA (Defense Advanced Research Projects Agency) and AAI (one of America's largest drone manufacturers), as well as six experimental ones for MIT. He not only understands their use in the world, but knows the ins-and-outs of how they can be created and handled. Explained in simple terms with full-color step-by-step directions, Davies will explain how to build your very own drone from ones created specifically for this book. Whether you plan on using drones for recreation or a more serious purpose (from search and rescue through farming to scanning construction work on a high-rise apartment buildings), Build a Drone will make sure that you not only understand how to construct a drone, but the proper and safe ways to maintain and handle them.

*Why Are You Always On The Phone? Smart Skills With The Smartphone Generation* Michelle Mei Ling Yeo, 2016-11-24 Why Are You Always on the Phone? SMART Skills with the Smartphone Generation is a revelation and an actual depiction of what goes on in the everyday lives of youth who are connected and are online most of the time either via their smartphone or their iPad. Many a time, parents of tweens and teenagers from the age of 10 onwards to 18, are curious and are even 'tearing their hair out'; frustrated with their child/children's obsession with texting and chatting online 24/7. The challenge then is how we can seek to understand the complexities and nuances of our youth and their connection in the 21st-century technologically driven globalized society. Unraveling this challenge, this book provides powerful insights into the lives of individuals as they grapple with the rise of being connected at any time at any place via their smartphone. Voices from parents, tweens and teens sharing their online experiences and opinions have been weaved and compiled into the text for an honest and interesting read for all. With stories and anecdotes, Why Are You Always on the Phone? serves to answer the questions 'Why are you always online?', 'What are you doing online?' and a list of queries that most parents, educators and even tweens and teenagers themselves seek to know and are curious about. It is hoped that by answering these, it will prompt deeper, more empathetic, and layered connections between parents, tweens, teenagers and educators for more fulfilling parent-child and teacher-student relationships and thus highlight the importance of practising effective and safe uses of the smartphone and other devices.
