Windows 10: The Missing Manual David Pogue, 2015-09-17 With Windows 8, Microsoft completely reimagined the graphical user interface for its operating system, which now runs on both desktop PCs and tablets, but the overhaul was not without hitches and its dueling UIs (one designed for touch, the other for keyboards and mice) created significant confusion for users. Windows 10 (a free update to users of Windows 8 or Windows 7) fixes a number of the problems introduced by the revolution in Windows 8 and offers plenty of new features along, such as the new Spartan web browser, Cortana voice-activated “personal assistant,” new universal apps (that run on tablet, phone, and computer), and more. But to really get the most out of the new operating system, you’re going to need a guide. Thankfully, Windows 10: The Missing Manual will be there to help. Like its predecessors, this book from the founder of Yahoo Tech, previous New York Times columnist, bestselling author, and Missing Manuals creator David Pogue illuminates its subject with technical insight, plenty of wit, and hardnosed objectivity for beginners, veteran standalone PC users, new tablet owners, and those who know their way around a network.

Burning Ginger Lazarus, 2022-01-18 Synopsis: It’s 2008, at the height of the second Gulf War, and Don’t Ask Don’t Tell still bans LGBTQ service members from revealing their truth. Cy Burns, discharged from the Army for coming

out, now takes on the world with her words, blogging from her rural country store where she and her employee, Sammy, elicit a mix of admiration and homophobia. When local infantryman Cole begs for Cy's help in wooing east coast transplant Rose, she volunteers to ghost write his courtship and keep her own admiration for Rose silent. Meanwhile, the return of her former commander revives old grudges and forces Cy to confront the darkest days of her military past. When Cole is deployed, Cy not only keeps the love letters coming but charts a dangerous course to expose Dulac's complicity in unspeakable crimes. In love and war, words unspoken are the words that burn.

The Burning Land George Alagiah, 2019-08-29 'Gripping' Guardian 'Pacy and stylish' Jeremy Vine 'It was never meant to be like this. Sabotage, yes. Propaganda, yes. All of that and more - but not this. Not murder.' South Africa has become a powder keg. Its precious land is being sold off to the highest bidders while the country's corrupt elite pocket the profits. As the dreams and hopes of its people are threatened, frustration turns to violence. With the shocking murder of one of the country's bright young hopes, the fuse is well and truly lit. Conflict mediator Lindi and her childhood friend Kagiso find themselves in the heart of the chaos, fighting to save themselves and their country as events are set in motion that no one - least of all they - can control.

Burn Rate Michael Wolff, 2013-03-12 From the author of the #1 New York Times bestseller *Fire and Fury* and *Siege: Trump Under Fire*—Michael Wolff's wickedly funny chronicle of his rags-to-riches-to-rags adventure as a fledgling Internet entrepreneur exposes an industry powered by hype, celebrity, and billions of investment dollars, and notably devoid of profit-making enterprises. As he describes his efforts to control his company's burn rate—the amount of money the company consumes in excess of its income—Wolff offers a no-holds-barred portrait of unaccountable successes and major disasters, including the story behind *Wired* magazine and its fanatical founder, Louis Rossetto; the rise of America Online, perhaps the most dysfunctional successful company in history, and the humiliating inability of people such as Bill Gates to untangle the intricacies of the Web.

While the Black Stars Burn Lucy A. Snyder,2019-11-29 Lucy Snyder's stories are the sort that carry you away to unusual places, usually dark ones, and this collection is a perfect example. As the follow-up to the Bram Stoker Award winning collection *Soft Apocalypses*, it contains plenty of darkly imaginative tales. Many of these stories, including the title piece, are heavily influenced by the work of H.P. Lovecraft and *The King in Yellow* mythos. They whisper madly among each other creating weird echoes. Like the black stars of theoretical astronomy they are dense entities born from polarization so strong that instead of collapsing into nothingness, a black hole, they instead form dark constellations burning dimly with spectral light.
