*Big Business and Economic Development* Barbara Hogenboom,Alex E. Fernández Jilberto,2006-12-21 Bringing together an international and multidisciplinary group of experts, this is the first comprehensive volume to analyze conglomerates and economic groups in developing countries and transition economies. Using sixteen in-depth case studies it provides a comparative framework for the study of contemporary process of privatization, economic and financial liberalization and neoliberal globalization. Exploring the various causes and economic, social and political effects of the rise of 'big business' in Asia, Latin America, Africa and Eastern Europe, the main issues that are examined include: the nature of contemporary economic concentration the relations between 'local' and 'external' investors the impact on development, and on economic and political control over its direction the new role of the state towards conglomerates and economics groups the effects of economic and political changes on the legitimacy of the state and large companies. This volume is perfect as either a textbook or supplementary reading for students at all levels, as well as researchers and governmental and non-governmental professionals working and studying in the fields of international business and economic development.

*China's Outbound Tourism* Wolfgang Arlt,2006-09-27 The People's Republic of China has changed from a country which actively discouraged tourism into one of the major source markets for the international industry; the 35 million Chinese travelling across the border in 2005 are merely the tip of the iceberg. China's Outbound Tourism is the first book on this major development and has been written using a multitude of sources from China and around the world. The topic is approached from many angles, using methods from the fields of economics, political sciences, sociology and cross-cultural studies. The book explains the economic and social background of the surge in tourism and the changes in policy in the country since 1949, when it moved from prevention through controlled development to encouragement of outbound travels. Throughout the book, facts and figures are given for the global development as well as in-depth information about China's key destinations. The growing importance of tourists from China is however not just a question of quantity; the text explains the features which distinguish their travel motivations and behaviours from 'western' and Japanese tourists, and the consequences for product adaptation and marketing methods for destinations interested in attracting and satisfying Chinese tourists. Arlt's groundbreaking book cannot be ignored by professionals, academics and students of tourism and leisure; it offers fresh insight into the topic and indicates some of the future lines of development in this area.

**The Third Door** Alex Banayan,2018-06-05 **FORBES #1 CAREER BOOK TO READ IN 2018** The larger-than-life journey of an 18-year-old college freshman who set out from his dorm room to track down Bill Gates, Lady Gaga, and dozens more of the world's most successful people to uncover how they broke through and launched their careers. The Third Door takes readers on an unprecedented adventure—from hacking Warren Buffett's shareholders meeting to chasing Larry King through a grocery store to celebrating in a nightclub with Lady Gaga—as Alex Banayan travels from icon to icon, decoding their success. After remarkable one-on-one interviews with Bill Gates, Maya Angelou, Steve Wozniak, Jane Goodall, Larry King, Jessica Alba, Pitbull, Tim Ferriss, Quincy Jones, and many more, Alex discovered the one key they have in common: they all took the Third Door. Life, business, success... it's just like a nightclub. There are always three ways in. There's the First Door: the main entrance, where ninety-nine percent of people wait in line, hoping to get in. The Second Door: the VIP entrance, where the billionaires and celebrities slip through. But what no one tells you is that there is always, always... the Third Door. It's the entrance where you have to jump out of line, run down the alley, bang on the door a hundred times, climb over the dumpster, crack open the window, sneak through the kitchen—there's always a way in. Whether it's how Bill Gates sold his first piece of software or how Steven Spielberg became the youngest studio director in Hollywood history, they all took the Third Door.

**E-Business Fundamentals** Peter Eckersley,Lisa Harris,Paul Jackson,2003-05-29 This comprehensive textbook considers all of the key business, management and technical issues of e-Business, examining and explaining how technologies can help organizations in both the public and private sectors conduct business in new ways. After addressing the changing nature of the e-Economy and the impact of the dot.com 'bubble' of the late 1990s, Eckersley, Harris and Jackson go on to analyse key software developments and the impact these have had on organizational practices. They then outline the legal and ethical frameworks of e-Business, and consider how companies use various e-commerce tools to enter new markets. Finally, they trace the progress public sector organizations have made in adopting e-Business practice. This is an accessible, jargon-free and focused textbook that offers readers both a technical and managerial overview of the issues surrounding e-Business. It uses illustrative cases and discussion questions to help students and managers in organizations not only to familiarize themselves with e-Business but also to equip themselves with the skills to challenge and analyze the changing business environment.

**Bull by the Horns** Sheila Bair,2013-09-10 A former FDIC chairwoman, who was among the first individuals to acknowledge the full risk of subprime loans, shares expert and insider perspectives on the economic crisis to assess contributing causes and ultimate ramifications.

*Studying Christian Spirituality* David B. Perrin,2007-08-07 This book provides a new introduction to the study of Christian spirituality, exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology, history, sociology and anthropology. Systematic and progressive, it introduces the key approaches and shows how they relate to the understanding, study and practice of spirituality. Covering a vast amount of ground - from traditional themes such as images of God, spiritual direction and pilgrimage to more contemporary issues, such as place and space, cyberspace and postcolonialism - the author takes an ecumenical, inclusive stance, allowing the book to be used in a wide variety of courses and across denominations.

*Performance and Evolution in the Age of Darwin* Jane Goodall,2002-09-26 Goodall reveals the ways in which the major themes of evolution were taken up in the performing arts during Darwin's adult lifetime and in the generation after his death.

*Inside City Tourism* John Heeley,2011-02-21 Cities are the dominant geographical focus of business and leisure tourism travel, and cities everywhere are regenerating and reinventing themselves so as to attract visitors, students and investment. Inside City Tourism explores the organisational challenges to which this gives rise, and in particular examines the history, structure and functioning of the urban delivery mechanisms set up to raise profile and maximise tourism. The book is written by the Chief Executive Officer of European Cities Marketing who - as a former tourism academic and city marketing professional - is uniquely placed to synthesise academic and practical insights and to provide a distinctively European overview. While cities increasingly seek to differentiate themselves through brands, events and iconic structures, the approaches, techniques and language used by cities to promote themselves is remarkably similar across the length and breadth of Europe. Never before published case material exemplifies best practice in city marketing, with the greater part of leading edge practice to be found in Scandinavia, Holland, Germany, Austria and Spain. Inside City Tourism 'tells it like it is', uncovering the pitfalls and failures as well as the opportunities and successes, and the attendant leadership challenges. It is essential reading for practitioners and policymakers as well as students and academics.

**Sport, Culture and Society** Grant Jarvie,2006-04-18 This exciting, accessible introduction to the field of Sports Studies is the most comprehensive guide yet to the relationships between sport, culture and society. Taking an international perspective, Sport, Culture and Society provides students with the insight they need to think critically about the nature of sport, and includes: a clear and comprehensive structure unrivalled coverage of the history, culture, media, sociology, politics and anthropology of sport coverage of core topics and emerging areas extensive original research and new case study material. The book offers a full range of features to help guide students and lecturers, including essay topics, seminar questions, key definitions, extracts from primary sources, extensive case studies, and guides to further reading. Sport, Culture and Society represents both an important course resource for students of sport and also sets a new agenda for the social scientific study of sport.

*Consuming Books* Stephen Brown,2006-04-18 The buying, selling, and writing of books is a colossal industry in which marketing looms large, yet there are very few books which deal with book marketing (how-to texts excepted) and fewer still on book consumption. This innovative text not only rectifies this, but also argues that far from being detached, the book business in fact epitomises today's Entertainment Economy (fast moving, hit driven, intense competition, rapid technological change, etc.). Written by an impressive roster of renowned marketing authorities, many with experience of the book trade and all gifted writers in their own right, Consuming Books steps back from the practicalities of book marketing and takes a look at the industry from a broader consumer research perspective. Consisting of sixteen chapters, divided into four loose sections, this key text covers: \* a historical overview \* the often acrimonious marketing/literature interface \* the consumers of books (from book groups to bookcrossing) \* a consideration of the tensions that both literary types and marketers feel. With something for everyone, Consuming Books not only complements the 'how-to' genre but provides the depth that previous studies of book consumption conspicuously lack.

**Corporate Social Responsibility Agenda, The: The Case For Sustainable And Responsible Business** Olivier Delbard,2020-01-14 Corporate Social Responsibility (CSR) has become a buzzword in management today. And yet, skepticism often prevails, as CSR is often associated with traditional philanthropic practices enabling companies to greenwash their unethical social and environmental practices. This book offers a fresh view on today's CSR from both historical and geographical perspectives. Exploring its roots and theoretical developments in the US, the author then focuses on how CSR has spread across the world, first in Europe and later in the developing world. An updated overview of today's CSR agenda is provided with a focus on four key issues: stakeholder inclusion, employee engagement and social dialogue, human rights and environmental sustainability. With the support of multiple cases and examples taken from various continents and industries, the book adopts a sustainability-driven perspective, based on the belief that the future of CSR lies in the strategic embeddedness of key issues into the company's value chain. Finally, the book attempts to draw the contours of tomorrow's CSR by proposing a new terminology reflecting the current evolution of CSR.

*The SAGE Handbook of Persuasion* James Price Dillard,Lijiang Shen,2013 The Second Edition of The SAGE Handbook of Persuasion: Developments in Theory and Practice provides readers with logical, comprehensive summaries of research in a wide range of areas related to persuasion. From a topical standpoint, this handbook takes an interdisciplinary approach, covering issues that will be of interest to interpersonal and mass communication researchers as well as to psychologists and public health practitioners.

**European Business** Debra Johnson,Colin Turner,2015-10-06 The third edition of European Business is published at a time of turbulence in Europe. This uncertainty puts Europe's unique business environment at risk. Key features of the new edition include: assessments of how individual member states affect the integration process and bring diversity to European business; new material on the links between Europe and the World's other main regions, including emerging economies; new case studies on topics such as the rise of the BRICs, the energy crisis, enlargement and the Euro. The book retains popular pedagogical features to help students make sense of a confusing and complex environment. A unique and accessible text, the book is ideal reading for students of European and International Business and important additional reading for those interested in European politics and economics.
