**Profit First** Mike Michalowicz,2017-02-21 Author of cult classics The Pumpkin Plan and The Toilet Paper Entrepreneur offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: · Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. · A small, profitable business can be worth much more than a large business surviving on its top line. · Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

*How to Validate Your Startup Business Idea* Ravi Kikan,2018-10-22 Many startups and entrepreneurs fail because they do not validate their startup business idea. I run some of the largest startup communities on LinkedIn. One of the largest communities that I moderate and engage on LinkedIn has around 300,000 global members including startups, venture capitalists, entrepreneurs, mentors and global experts. With my own experience of working with many startups, entrepreneurs, corporates and my regular interactions with successful business ventures I have understood the importance of validating your startup business idea before launching your product or services in the market.In this book not only have I collected my thoughts and experiences for validating a business idea but I have reached out to many experts globally to understand how to validate a business idea before going all out and launching your own business. Who Is This Book For ? It is extremely important that you validate your startup business idea in the market if you are a wannabe entrepreneur, a student, homemaker, professional, expert or anyone who is trying to launch a startup business This is extremely important for you to understand this right from the ideation stage itself. Sometimes in the enlightenment of the business idea or in the haste

of getting things done faster with shortcuts (Howsoever the idea might be great), we end up doing the following: 1. We forget the simple basics 2. We tend to overlook similar experiences 3. We do not take stable advises 4. We rush into getting things done faster 5. We often get misguided 6. We overlook readily available data 7. We sometimes ONLY look at money and not the business process 8. We don't validate things before going all out Why This Book? Time and again I have seen my friends, colleagues, students, awesome entrepreneurs, startups (including myself) getting into a new business without validating their startup business idea. This often has led to extremely disastrous and sometimes fatal outcomes. Lot of things get on stake when you risk getting into a new business e.g. you risk your time, money, resources, relationships, career etc Never hurry into things. Always validate things from a rational and practical perspective. This will give you depth, more understanding and a far clear picture of how, when, where and what to do while going ahead into a new venture This book is a step to overcome all those hassles and validate your awesome business idea. A huge thanks to all these awesome global experts, entrepreneurs who have also contributed their ideas with me on the topic: Tina Zurbi, Sandeep Balaji, Neeraj Saini, Praval Kant, Dr Aniruddha Malpani, Joseph Roos, Avigail Berg, Diana Palchik, Dr Rajeev Tewari, Patrick Osman, Tishana Simon, Dr Pranab Sen, Nitin Jain, Ed Zimmer, Andrea Sica, Zile Soilihi, Jeffrey Hilton, Guy Cleveland, Richard Coleness, Tabitha Jean Taylor, Andrew MacWhirter, Matt Kurleto, Daniel Leping I would also love to hear from you once you have read this book on your experiences and how you have dealt with validating your own startup business idea. Many people waste time by coming up idea after idea without taking action,(they are called wanterpreneurs) which is of no use .. After idea test for its validity and money making potential and pursue it execution is name of the game!! . Test test test and improvise on your initial idea or hypothesis!!
