Grid Economics and Business Models Daniel J. Veit, 2007-08-15 This volume constitutes the refereed proceedings of the 4th International Workshop on Grid Economics and Business Models held in August 2007. The twelve full papers are organized into topical sections covering grid business modeling, market mechanisms for the grid, and economic grid service provisioning. The proceedings are rounded off by six project reports that give an overview of current and ongoing research in grid economics.

**Higher Education and Disaster Capitalism in the Age of COVID-19** Marina Vujnovic, Johanna E. Foster, 2022-11-09 This book reveals the layered effects of the corporatization of higher education, situated within the phenomenon of disaster capitalism. The authors argue that higher education administrators have seized on the Covid-19 pandemic as an opportunity to advance a corporate higher education agenda consistent with the principles of disaster capitalism. This crisis deeply impacts what and how students in the United States learn, who gets to learn, and the very mission of the academy. Chapters also address neoliberalism as a policy statement that has reshaped and continues to shape higher education in the United States and in much of Western societies.

**BUSINESS MODEL SIMPLIFIED** Firend Alan Rasch, 2018-11-01 What is Business Model? Different people define the concept of business model differently. For the average person, business model merely describes the way in which a firm makes money. Some see it as the company plan for generating revenues, some see it as the structure of operations and how to organize various activities to provide services, others define it as the architecture of the organization and division of resources to generate profits. Companies and society has always been the rubrics that holds the very make up of business activities. Combined, these two forces form the essence of contribution to what makes economy, shaping our daily activities, and the formation of business cycles. Given the ever-increasing complexity of the global marketplace, business (exchange of good and services, manufacturing, farming, production, distribution, sales and consumption) is rooted in the way we live and how our societies and ultimately nations, progress. A viable, efficient and effective business model is vital to organizational success or failure.

**Business Model Innovation** Allan Afuah, 2014-03-26 Rooted in strategic management research, Business Model Innovation explores the concepts, tools, and techniques that enable organizations to gain and/or maintain a competitive advantage in the face of technological innovation, globalization, and an increasingly knowledge-intensive economy. The book investigates how organizations can use innovations in business models to take advantage of entrepreneurial opportunities from: • Crowdsourcing and open innovation • Long Tails • Social media • Disruptive technologies • Less-is-more innovations • Network effects • Scarcity of complementary capabilities The book also looks at the ways firms can use innovations in business models to exploit or defend against threats. With twelve supplementary cases to help readers apply the concepts and techniques, this book is a must-have for anyone looking to understand the fundamentals of business model innovation.

**Fintech Business Models** Matthias Fischer, 2021-02-08 This book on fintechs shows an international comparison on a global level. It is the first book where 10 years of financing rounds for fintechs have been analyzed for 10 different fintech segments. It is the first book to show the Canvas business model for fintechs. Professionals and students get a global understanding of fintechs. The case examples in the book cover Europe, the U.S. and China. About the author: Matthias Fischer is professor of finance and banking at the Institute of Technology Nuremberg Georg-Simon-Ohm in Germany. His research has focused on strategy and M&A in the banking sector, value-based management, robo-advisory and fintechs. Dr. Fischer also serves as a member of the Groupe de Recherche en Management at the IAE Nice Graduate School of Management, Université Côte d'Azur in France. He is internationally active as a strategy and financial advisor. Reviews of the book: FinTech is not the next 'big thing.' It is the big thing now! FinTech is the new business model for the global financial sector, offering clear and enormous potential for vast economies of scale and scope, massive cost savings and efficiency gains, significant risk reduction, and opening the door to banking for literally billions of currently unbanked people. Professor Fischer has done a masterful job of expertly and informatively taking us through all aspects of the revolutionary new FinTech business models. Using state-of-the-art research techniques, he insightfully shows us how FinTech firms are financed and how they aspire to create value. His in-depth case studies unlock the keys to success in the FinTech sector. His fascinating book is a 'must read' for all financial professionals. Dr. Stephen Morrell, Professor of Economics and Finance, Andreas School of Business, Barry University, Miami, USA Matthias Fischer's latest book offers a comprehensive overview of Fintech business models around the world. With a very pedagogical approach, and in a particularly fluid style, the author takes us into the strategic logics of these new entrants to finance, who are carriers of innovation and sometimes of disruption, and whose strategies are focused on the need to always meet the emerging expectations of their customers. This precise and well-documented analysis should enable banks to reposition themselves in their ecosystem by studying these new business models, which will enable them to boost their growth. Professor Dr. Nadine Tournois, Dean of IAE Nice Graduate School of Management, Université Côte d'Azur, France, Chevalier de la Légion d'honneur Fintech Business Models is a must-have book to understand the rapid and intense changes occurring in the financial sector. New technologies have allowed the birth of new financial species, such as Fintech, more adapted to the new digital economy. The content dedicated to the application of blockchain technology helps to understand its opportunities in the financial sector, not only in the means of payment and cryptoactives, but also in how blockchain can make multiple internal processes improve, allowing to optimize the management, efficiency and even security of operations. Without any doubt, this book offers an extraordinary vision of how the fintech sector has become a catalyst for change in banking in the context of the current Digital Society. Phd. Ricardo Palomo, Full Professor of Finance, Deputy Chancellor for Digital Transformation at Universidad CEU San Pablo, Madrid, Spain and member of the Board of Alastria Blockchain

**Ecosystem** This book provides a detailed and original overview of the most important fintech business models in the major global markets. Through a savvy use of the well-known Business Model Canvas methodology, the author explores the unique ecosystem, business model's components, and sources of competitive advantage of successful fintech firms. The book, in particular, offers an insightful and comprehensive analysis of the winning and losing strategies and performances of fintech firms by segment of activity such as, instant digital payments, crowd-funding, robo-advisory, alternative finance, credit & factoring, social trading, personal finance management, blockchain and cryptocurrencies. It is indeed a very unique and valuable study on the fintech industry, its trends, and its emerging business models. Prof. Ivo Pezzuto, The International School of Management, Paris, France and Adjunct Professor of International Business and Strategic Management Università Cattolica del Sacro Cuore, Department of Business Management, Milan, Italy The emergence of fintechs is one of the most relevant drivers of change in the financial services industry. The book presented here delivers an impressive overview of fintechs' activity areas, business models and funding patterns. The book reflects the state of the art of the current fintech world. Prof. Dr. Jürgen Moormann, Professor of Bank and Process Management at Frankfurt School of Finance & Management, Germany

**Evolving Business Models** Christoph Franz, Thomas Bieger, Andreas Herrmann, 2017-05-09 This book addresses the core challenges currently faced by traditional companies. In the age of digitization many industries are now challenged by disruptions of the traditional value chain: new competitors are coming into play, traditional products don't sell any more, and profits are at risk. As such, CEOs need to adopt new business models for these established industries, while many companies have to reinvent themselves by developing new products for new markets. In this book, leading CEOs share their experiences in transforming established companies. They provide insights on transforming industries and demonstrate what it takes to redefine companies from the ground up. Issues such as organizational transformation, new product development, implementing a new organizational spirit, and many more are discussed.

**Impact of Globalization and Advanced Technologies on Online Business Models** Ho, Ree C., Hou Hong Ng, Alex, Nourallah, Mustafa, 2021-02-05 Online business has been growing progressively and has become the major business platform within the past two decades. The internet bulldozed the development of new business models and innovations that substantially changed the way businesses run today. This led to a growth of advanced technologies used in online business such as data analytics, machine learning, and artificial intelligence. With higher internet connectivity and the exponential growth of mobile devices, shopping processes and behaviors were significantly affected as people are consistently connected online. Consumers can easily gain helpful product information and retail competitor information in myriad online channels. This led to a profound effect on businesses where they began to invest in new technologies and business practices that aim to align with the effects of globalization. Given the rapid technology advancements, both businesses and customers are presently

experiencing an exponential upsurge in the implementation of new business processes and models. Impact of Globalization and Advanced Technologies on Online Business Models explores the ever-changing field of running an online business and presents the current issues and challenges in online business triggered by global shifts in the online environment and technological changes. The chapters draw from a wide range of technologies used in today's digital marketplace as well as recent development and empirical researches on online consumer behavior. As such, this book aims to contribute new dimensions in managing advancements in online business triggered by global and technology transformation. This book is ideal for executives, managers, IT consultants, practitioners, researchers, academicians, and students interested in globalization and the new technologies affecting online business models.

New Business Models in the Digital Age Javier Celaya, María Jesús Rojas, Elisa Yuste, José Antonio Vázquez, 2015-07-24 Over the last several years, the Internet has transformed business models and the way companies in various sectors, like the media, airlines, tourism, financial intermediaries, etc., are organized. Every company that packages content and markets it through intermediaries will go through a change in its business model, and companies in the cultural sector will be no exception to this structural transformation process. A new era is fast approaching in which the way a business handles its relationship with consumers (B2C) will outweigh the current business-to-business (B2B) intermediation model. The objective of this study is to provide professionals in the book world, whether they are publishers, agents, authors, booksellers, or librarians, with a broad analysis of the business models currently available on the Internet so that they may determine where their business opportunities lie and what the benefits of each of these models are for their companies.
