Price-Forecasting Models for Central Japan Railway 9022 Stock Ton Viet Ta,2020-06-16 Do you want to earn up to a 968% annual return on your money by two trades per day on Central Japan Railway 9022 Stock? Reading this book is the only way to have a specific strategy. This book offers you a chance to trade 9022 Stock at predicted prices. Eight methods for buying and selling 9022 Stock at predicted low/high prices are introduced. These predicted prices are very close to the lowest and highest prices of the stock in a day. All methods are explained in a very easy-to-understand way by using many examples, formulas, figures, and tables. The BIG DATA of the 4862 consecutive trading days (from January 4, 2001 to June 16, 2020) are utilized. The methods do not require any background on mathematics from readers. Furthermore, they are easy to use. Each takes you no more than 30 seconds for calculation to obtain a predicted price. The methods are not transient. They cannot be beaten by Mr. Market in several years, even until the stock doubles its current age. They are traits of Mr. Market. The reason is that the author uses the law of large numbers in the probability theory to construct them. In other words, you can use the methods in a long time without worrying about their change. The efficiency of the methods can be checked easily. Just compare the predicted prices with the actual price of the stock while referring to the probabilities of success which are shown clearly in the book (click the LOOK INSIDE button to read more information before buying this book). Depending on the number of investors who are interested in this book, the performance of the methods from the publication date will be added to the book after one year, and will be stated here in the description of the book too. You will then see that the methods in this book are outstanding or not. The book is very useful for Investors who have decided to buy the stock and keep it for a long time (as the strategy of Warren Buffett), or to sell the stock and pay attention to other stocks. The methods will help them to maximize profits for their decision. Day traders who buy and sell the stock many times in a day. Although each method is valid one time per day, the information from the methods will help the traders buy/sell the stock in the second time, third time or more in a day. Beginners to 9022 Stock. The book gives an insight about the behavior of the stock. They will surely gain their knowledge of 9022 Stock after reading the book. Everyone who wants to know about the Japan stock market.
