As a man more obsessed with his lunch than is strictly necessary, the idea of a showpiece last supper is a tantalising prospect. But wouldn't knowledge of your imminent demise ruin your appetite? So, Jay decided to cheat death. The plan was simple: he would embark on a journey through his life in food in pursuit of the meal to end all meals. It's a quest that takes him from necking oysters on the Louisiana shoreline to forking away the finest French pastries in Tokyo, and from his earliest memories of snails in garlic butter, through multiple pig-based banquets, to the unforgettable final meal itself. My Last Supper is both a hugely entertaining account of a life built around mealtimes and a fascinating global exploration of our relationship with what we eat. It is the story of one hungry man, in eight courses.

**Hazelwood** Tom Doig, 2019 A gripping and immediate account of one of the worst disasters in Australian history. Early in the afternoon of 9 February 2014, during the worst drought and heatwave south-eastern Australia had experienced in over a century, two separate bushfires raged towards the massive Hazelwood open-pit brown-coal mine, near Morwell in the Latrobe Valley. The fires overwhelmed local fire-fighting efforts and sent a skyful of embers sailing onto millions of square metres of exposed, highly flammable brown coal. Twelve hours later, the mine was ablaze. The Hazelwood mine fire burned out of control for 45 days. As the air filled with toxic smoke and ash, residents of the Latrobe Valley became ill, afraid - and angry. Up against an unresponsive corporation and an indifferent government, the community banded together, turning tragedy into a political

fight. In Hazelwood, Tom Doig reveals the decades of decisions that led to the fire, and gives an intimate account of the first moments of the blaze and the dark months that followed. This is a gripping and immediate report of one of the worst environmental and public health disasters in Australian history.

Inside Al-Shabaab Dan Joseph, Harun Maruf, 2018-10-01 One of the most powerful Islamic militant groups in Africa, Al-Shabaab exerts Taliban-like rule over millions in Somalia and poses a growing threat to stability in the Horn of Africa. Somalis risk retaliation or death if they oppose or fail to comply with Al-Shabaab-imposed restrictions on aspects of everyday life such as clothing, media, sports, interpersonal relations, and prayer. *Inside Al-Shabaab: The Secret History of Al-Qaeda's Most Powerful Ally* recounts the rise, fall, and resurgence of this overlooked terrorist organization and provides an intimate understanding of its connections with Al-Qaeda. Drawing from interviews with former Al-Shabaab militants, including high-ranking officials, military commanders, police, and foot soldiers, authors Harun Maruf and Dan Joseph reveal the motivations of those who commit their lives to the group and its violent jihadist agenda. A wealth of sources including US diplomatic cables released by Wikileaks, letters taken from the Pakistani hideout of Osama bin Laden, case files from the prosecution of American Al-Shabaab members, emails from Hillary Clinton's tenure as secretary of state, and Al-Shabaab's own statements and recruiting videos inform Maruf and Joseph's investigation of the United States' campaign against Al-Shabaab and how the 2006 US-backed Ethiopian invasion of Somalia gave the group the popular support it needed to radicalize ordinary citizens and become a powerful movement. The audio book is narrated by Nicholas Smith. Produced by Speechki in 2021.

*Twitter and Tear Gas* Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Drowned Town Jayne Moore Waldrop, 2021-10-26 They had been told their sacrifice was for the public good. They were never told how much they would miss it, or for how long. *Drowned Town* explores the multigenerational impact caused by the loss of home and illuminates the joys and sorrows of a group of people bound together by western Kentucky's Land Between the Lakes and the lakes that lie on either side of it. The linked stories are rooted in a landscape forever altered by the mid-twentieth-century impoundment of the Tennessee and Cumberland Rivers and the seizing of property under the power of eminent domain to create a national recreation area on the narrow strip of land between the lakes. The massive federal land and water projects completed in quick succession were designed to serve the public interest by providing hydroelectric power, flood control, and economic progress for the region—at great sacrifice for those who gave up their homes, livelihoods, towns, and history. The narrative follows two women whose lives are shaped by their friendship and connection to the place, and their stories go back and forth in time to show how the creation of the lakes both healed and hurt the people connected to them. In the process, the stories emphasize the importance of sisterhood and family, both blood and created, and how we cannot separate ourselves from our places in the world.

**The End of Everything** Katie Mack, 2021-05-04 Mack looks at five ways the universe could end, and the lessons each scenario reveals about the most important concepts in cosmology. --From publisher description.

**A Promised Land** Barack Obama, 2020-11-17 THE #1 SUNDAY TIMES BESTSELLER A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy - and the perfect gift this Christmas! 'Gorgeously written, humorous, compelling, life affirming' Justin Webb, Mail on Sunday In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. A Promised Land is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of hope and change, and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day. 'What is unexpected in A Promised Land is the former president's candour' David Olusoga, Observer

**The Idiot** Elif Batuman, 2018-02-13 A New York Times Book Review Notable Book • Finalist for the Pulitzer Prize for Fiction • Longlisted for the Women's Prize for Fiction "Easily the funniest book I've read this year." —GQ "Masterly funny debut novel . . . Erudite but never pretentious, The Idiot will make you crave more books by Batuman." —Sloane Crosley, Vanity Fair A portrait of the artist as a young woman. A novel about not just discovering but inventing oneself. The year is 1995, and email is new. Selin, the daughter of Turkish immigrants, arrives for her freshman year at Harvard. She signs up for classes in subjects she has never heard of, befriends her charismatic and worldly Serbian classmate, Svetlana, and, almost by accident, begins corresponding with Ivan, an older mathematics student from Hungary. Selin may have barely spoken to Ivan, but with each email they exchange, the act of writing seems to take on new and increasingly mysterious meanings. At the end of the school year, Ivan goes to Budapest for the summer, and Selin heads to the Hungarian countryside, to teach English in a program run by one of Ivan's friends. On the way, she spends two weeks visiting Paris with Svetlana. Selin's summer in Europe does not resonate with anything she has previously heard about the typical experiences of American college students, or indeed of any other kinds of people. For Selin, this is a journey further inside herself: a coming to grips with the ineffable and exhilarating confusion of first love, and with the growing consciousness that she is doomed to become a writer. With

superlative emotional and intellectual sensitivity, mordant wit, and pitch-perfect style, Batuman dramatizes the uncertainty of life on the cusp of adulthood. Her prose is a rare and inimitable combination of tenderness and wisdom; its logic as natural and inscrutable as that of memory itself. The Idiot is a heroic yet self-effacing reckoning with the terror and joy of becoming a person in a world that is as intoxicating as it is disquieting. Batuman's fiction is unguarded against both life's affronts and its beauty--and has at its command the complete range of thinking and feeling which they entail. Named one the best books of the year by Refinery29 • Mashable One • Elle Magazine • The New York Times • Bookpage • Vogue • NPR • Buzzfeed • The Millions

**Harley Quinn (2021-) #12** Stephanie Nicole Phillips, 2022-02-22 If Superman had to deal with a bomb on a runaway train barreling toward Gotham, he'd just throw the whole thing into outer space like a football. Zatanna would do some cool magic thing. Aquaman would, like, summon an army of bomb-defusing dolphins or something. But I'm Harley Quinn...and I can't do any of those things. So how am I gonna defuse the bomb, save Kevin, and stop Keepsake from destroying Gotham? Well...I'm workin' on it, okay? Don't rush me! But I've definitely, certainly, without a doubt got it handled. Probably.

*Making Things Work* Nancy Hiller, 2019-10

*Media/Democracy* Alec Charles, 2013-07-16 It is a view commonly acknowledged that the mass media have a crucial role to play in the development and maintenance of democracy. It is a matter of greater controversy as to whether the media’s influence upon democracy is as constructive as it might be. This collection explores the various impacts upon democratic structures and processes of different media forms in different parts of the world. It examines the very different influences of the press in democratic Nigeria and post-Leveson Britain; it looks at how social media are used by politicians, voters and revolutionaries in the UK, Poland and the Arab Region; it investigates the political impact of media ownership in Britain, Italy and Argentina; and it asks whether we can ever hope to develop from being passive consumers of the mass media to active participants in modes of democratic citizenship underpinned by those media.

*BUILDING KITCHEN CABINETS* UDO SCHMIDT,

**The Decentring of the Traditional University** Russell Francis, 2012-08-21 The Decentring of the Traditional University provides a unique perspective on the implications of media change for learning and literacy that allows us to peer into the future of (self) education. Each chapter draws on socio-cultural and activity theory to investigate how resourceful students are breaking away from traditional modes of instruction and educating themselves through engagement with a globally interconnected web-based participatory culture. The argument is developed with reference to the findings of an ethnographic study that focused on university students’ informal uses of social and participatory media. Each chapter draws attention to the shifting locus of agency for regulating and managing learning and describes an emergent genre of learning activity. For example, Francis explores how students are cultivating and nurturing globally distributed funds of living knowledge that transcend institutional boundaries and describes students learning through serious play in virtually figured worlds that support radically personalised lifelong learning agendas. These stories also highlight the challenges and choices learners confront as they struggle to negotiate the faultlines of media convergence and master the new media literacies required to exploit the full potential of Web 2.0 as a learning resource. Overall, this compelling argument proposes that we are witnessing a period of historic systemic change in the culture of university learning as an emergent web-based participatory culture starts to disrupt and displace a top-down culture industry model of education that has evolved around the medium of the book. As a result, Francis argues that we need to re-conceive higher education as an identity-project in which students work on their projective identities (or imagined future selves) through engagement with both formal and informal learning activities.
