Yann Tiersen - Kerber Yann Tiersen, 2021-07-01 (Piano Solo Songbook). I think there is a similarity between the infinite big and the infinite smallness of everything, says Yann Tiersen. It's the same experiment looking through a microscope as it is a telescope. Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.

Stalking the Herd Christopher O'Brien, 2014-02-01 Who or What is Behind the Cattle

Mutilations? The cattle mutilation phenomenon is an ongoing mystery that has endured for almost 50 years. What have we learned, if anything, from the countless reports filed? Who or what is behind the death and disfigurement of livestock reported as mutilated around the globe? Are these deaths simply attributable to natural predators and scavengers? Or is the military/government somehow involved; perhaps monitoring "mad cow disease"? Are the deaths the action of ritual "cultists" as police say the evidence would suggest? Is it possible that alien predators are involved, as some researchers and the media have suggested? Are black helicopters or UFOs related to the cattle mutilation phenomenon as many witnesses have claimed? Regardless of who or what is responsible, what are the motivations behind perpetrating what may be the greatest unsolved serial crime spree of all time? *Stalking the Herd* addresses these questions in depth and also offers an objective look at the history of our venerated relationship with cattle, the first domesticated livestock. Is there a connection between these ritualistic cattle deaths and humankind's ancient practice of animal sacrifice? Why are there no Brahman cattle mutilations in India where cattle are revered to this day? Are aliens gathering genetic material for unknown purposes? What about the thousands of pounds of scientific forensic evidence? Are some hidden sections of the military conducting secret projects that—for some reason known only to them—involve the mutilation of hundreds of cattle in an area that includes Colorado Springs, the NORAD command base inside Cheyenne Mountain and the strange little town called Dulce on a small Apache Reservation?

Yvain Chretien de Troyes, Chrétien (de Troyes), 1987-09-10 A twelfth-century poem by the creator of the Arthurian romance describes the courageous exploits and triumphs of a brave lord who tries to win back his deserted wife's love

Brain Trust Colm A. Kelleher, 2004-10-19 When the cattle-borne sickness known as Mad Cow

Disease first appeared in America in 2003, authorities were quick to assure the nation that the outbreak was isolated, quarantined, and posed absolutely no danger to the general public. What we were not told was that the origins of the sickness may already have been here and suspected for a quarter of a century. This illuminating exposé of the threat to our nation's health reveals for the first time how Mad Cow Disease (a.k.a. Bovine Spongiform Encephalopathy) has jumped species, infecting humans in the form of Creutzfeldt-Jakob Disease (CJD), and may be hidden in the enormous increase in the number of Alzheimer's cases since 1979. Detailing the history and biology of Mad Cow Disease, Brain Trust discloses how an investigation into the mysterious deaths in a group of cannibals in a remote part of the world evolved into a research program in the United States that may have had unforeseen and frightening consequences. The shocking questions examined include:

- Have millions of Americans already been exposed to the prions known to cause Mad Cow Disease through years of eating tainted beef?
- Does the epidemic of prion disease spreading like wildfire through the nation's deer and elk pose a threat to hunters and venison eaters?
- Are the cattle mutilations discovered in the last 30 years part of a covert, illegal sampling program designed to learn how far the deadly prions have spread throughout the nation's livestock and beef products?

Exposing the devastating truth about Mad Cow Disease and a new theory of the possible consequences of a little-known government research program and the potential national health catastrophe that may be the result, Brain Trust inoculates Americans with an effective cure: the truth.

Spy in the House of Anaïs Nin Kim Krizan, 2019-08 Nin's importance as a feminist and visionary is finally revealed. Based on a new examination of long-buried letters, papers, and original manuscripts held at UCLA and found in Nin's Los Angeles home, *Spy in the House of Anaïs Nin* takes a penetrating look at Nin's incredible life and famous diary. Firmly placing Nin in her historical context as a feminist and visionary, this collection of essays lifts the lid on the origins of Nin's secrets and lies, gives voice to her husband via an unpublished letter, reveals Nin's real politics, and discloses the truth of Gore Vidal's feelings for Nin via an unearthed love letter from Vidal to Nin. With this book, author Kim Krizan serves as the ultimate spy, conducting deep background on Anaïs Nin -- the notorious, rule-shattering diarist who was the self-proclaimed spy in the house of love.

Secrets of the Mysterious Valley Christopher O'Brien, 2011-03-22 No other region in North America features the variety and intensity of unusual phenomena found in the world's largest alpine valley, the San Luis Valley of Colorado and New Mexico. Since 1989, Christopher O'Brien has documented thousands of high-strange accounts that report UFOs, ghosts, crypto-creatures, cattle mutilations, skinwalkers and sorcerers, along with portal areas, secret underground bases and covert military activity. This mysterious region at the top of North America has a higher incidence of UFO reports than any other area of the continent and is the publicized birthplace of the "cattle mutilation" mystery. Hundreds of animals have been found strangely slain during waves of anomalous aerial craft sightings. Is the government directly involved? Are there underground bases here? Does the military fly exotic aerial craft in this valley that are radar-invisible below 18,000 feet? These and many other questions are addressed in this all-new work by one of America's top paranormal investigators. Take a fantastic journey through one of the world's most enigmatic locales!
