Responding to Call of Duty Nate Garrelts, Matthew Wilhelm Kapell, 2017-11-07 Call of Duty is one of the most culturally significant video game franchises of the 21st century. Since the first game was released for PC in 2003, the first-person shooter has sold over 250 million copies across a range of platforms, along with merchandise ranging from toys and comic books to a special edition Jeep Wrangler. Top players can compete for millions in prize money in tournaments sanctioned by the Call of Duty World League. While the gaming community has reported on and debated each development, Call of Duty has received little scholarly attention. Visit Sunny Chernobyl Andrew Blackwell, 2013-05-28 For most of us, traveling means visiting the most beautiful places on Earth—Paris, the Taj Mahal, the Grand Canyon. It's rare to book a

plane ticket to visit the lifeless moonscape of Canada's oil sand strip mines, or to seek out the Chinese city of Linfen, legendary as the most polluted in the world. But in *Visit Sunny Chernobyl*, Andrew Blackwell embraces a different kind of travel, taking a jaunt through the most gruesomely polluted places on Earth. From the hidden bars and convenience stores of a radioactive wilderness to the sacred but reeking waters of India, *Visit Sunny Chernobyl* fuses immersive first-person reporting with satire and analysis, making the case that it's time to start appreciating our planet as it is—not as we wish it would be. Irreverent and reflective, the book is a love letter to our biosphere's most tainted, most degraded ecosystems, and a measured consideration of what they mean for us. Equal parts travelogue, expose, environmental memoir, and faux guidebook, Blackwell careens through a rogue's gallery of environmental disaster areas in search of the worst the world has to offer—and approaches a deeper understanding of what's really happening to our planet in the process.

Open World Empire Christopher B. Patterson, 2020-04-14
Finalist, 2021 John Hope Franklin Prize, given by the American Studies Association Seeking ways to understand video games beyond their imperial logics, Patterson turns to erotics to re-invigorate the potential passions and pleasures of play Video games vastly outpace all other mediums of entertainment in revenue and in global reach. On the surface, games do not appear ideological, nor are they categorized as national products. Instead, they seem to reflect the open and uncontaminated reputation of information technology. Video games are undeniably imperial products. Their very existence has been conditioned upon the spread of militarized technology, the exploitation of already-existing labor and racial hierarchies in their manufacture, and the utopian promises of digital technology. Like literature and film before it, video games have become the main artistic expression of empire today: the open world empire, formed through the routes of information technology and the violences of drone

combat, unending war, and overseas massacres that occur with little scandal or protest. Though often presented as purely technological feats, video games are also artistic projects, and as such, they allow us an understanding of how war and imperial violence proceed under signs of openness, transparency, and digital utopia. But the video game, as Christopher B. Patterson argues, is also an inherently Asian commodity: its hardware is assembled in Asia; its most talented e-sports players are of Asian origin; Nintendo, Sony, and Sega have defined and dominated the genre. Games draw on established discourses of Asia to provide an “Asiatic” space, a playful sphere of racial otherness that straddles notions of the queer, the exotic, the bizarre, and the erotic. Thinking through games like *Overwatch*, *Call of Duty 4: Modern Warfare*, *Shenmue II*, and *Alien: Isolation*, Patterson reads against empire by playing games erotically, as players do—seeing games as Asiatic playthings that afford new passions, pleasures, desires, and attachments.

Duty Calls: Dunkirk James Holland, 2011-06-02 'YOU WANTED TO SEE SOME ACTION - WELL YOU'RE GOING TO GET IT NOW. YOU'RE GOING TO GET IT NOW ALL RIGHT.' Friday 24th May, 1940 Private Johnny Hawke, aged sixteen, awakens to artillery fire. Hours later, Stukas scream down from the sky. Messerschmitt fighters roar towards his regiment. Trucks burst into flames. Now men and mules lay dead and dying, severed limbs twisted grotesquely as blood soaks the cobbled streets. Young Private Hawke just wants to do his duty and serve his country. But as he - and his fellow soldiers - prepare to stop the German advance, there's only one question on everyone's lips. HOW WILL THEY SURVIVE?
