*Adaptive Technology for the Internet* Barbara T. Mates,Doug Wakefield,Judith M. Dixon,2000 This work demonstrates how to make electronic information resources available to people with disabilities. The authors offer advice on technologies including screen readers, Braille screens, voice recognition systems, hearing assistance devices and HTML coding for accessibility. In addition to product descriptions, they cover the infrastructure issues like funding and staff training. A listing of adaptive technology programmes in libraries around America is provided.

*Agent Orange Review* ,1997

Veterans and Agent Orange Institute of Medicine,Board on Population Health and Public Health Practice,Committee to Review the Health Effects in Vietnam Veterans of Exposure to Herbicides (Seventh Biennial Update),2009-11-20 From 1962 to 1971, the U.S. military sprayed herbicides over Vietnam to strip the thick jungle canopy that could conceal opposition forces, to destroy crops that those forces might depend on, and to clear tall grasses and bushes from the perimeters of U.S. base camps and outlying fire-support bases. In response to concerns and continuing uncertainty about the long-term health effects of the sprayed herbicides on Vietnam veterans, Veterans and Agent Orange provides a comprehensive evaluation of scientific and medical information regarding the health effects of exposure to Agent Orange and other herbicides used in Vietnam. The 2008 report is the eighth volume in this series of biennial updates. It will be of interest to policy makers and physicians in the federal government, veterans and their families, veterans' organizations, researchers, and health professionals.

**Museum Hack's Guide to History's Fiercest Females** Hayley Milliman,Alex Johnson,2018-10-02 Remember when feminism happened, and tons of scholars banded together and rewrote the history books to include the accomplishments thousands of women whose badassery had been ignored for thousands of years? JK, JK. The representation of women is still super bad! With their trademark irreverence and penchant for storytelling, the team from Museum Hack has united to present: Museum Hack's Guide to History's Fiercest Females. Because the future is female and guess what? The past was hella female, too! Enclosed in this one-of-a-kind book are 26 stories of amazing women from all corners of the earth who probably weren't included in your high school history book... but definitely should have been! Get ready to join the revolution! (Or, keep revolution-ing! We support your journey wherever you are).

**Post-Vietnam Dioxin Exposure in Agent Orange-Contaminated C-123 Aircraft** Institute of Medicine,Board on the Health of Select Populations,Committee to Evaluate the Potential Exposure to Agent Orange/TCDD Residue and Level of Risk of Adverse Health Effects for Aircrew of Post-Vietnam C-123 Aircraft,2015-05-20 From 1972 to 1982, approximately 1,500-2,100 US Air Force Reserve personnel trained and worked on C-123 aircraft that had formerly been used to spray herbicides in Vietnam as part of Operation Ranch Hand. After becoming aware that some of the aircraft on which they had worked had previously served this purpose, some of these AF Reservists applied to the US Department of Veterans Affairs (VA) for compensatory coverage under the Agent Orange Act of 1991. The Act provides health care and disability coverage for health conditions that have been deemed presumptively service-related for herbicide exposure during the Vietnam War. The VA denied the applications on the basis that these veterans were ineligible because as non-Vietnam-era veterans or as Vietnam-era veterans without boots on the ground service in Vietnam, they were not covered. However, with the knowledge that some air and wipe samples taken between 1979 and 2009 from some of the C-123s used in Operation Ranch Hand showed the presence of agent orange residues, representatives of the C-123 Veterans Association began a concerted effort to reverse VA's position and obtain coverage. At the request of the VA, Post-Vietnam Dioxin Exposure in Agent Orange-Contaminated C-123 Aircraft evaluates whether or not service in these C-123s could have plausibly resulted in exposures detrimental to the health of these Air Force Reservists. The Institute of Medicine assembled an expert committee to address this question qualitatively, but in a scientific and evidence-based fashion. This report evaluates the reliability of the available information for establishing exposure and addresses and places in context whether any documented residues represent potentially harmful exposure by characterizing the amounts available and the degree to which absorption might be expected. Post-Vietnam Dioxin Exposure rejects the idea that the dioxin residues detected on interior surfaces of the C-123s were immobile and effectively inaccessible to the Reservists as a source of exposure. Accordingly, this report states with confidence that the Air Force Reservists were exposed when working in the Operation Ranch Hand C-123s and so experienced some increase in their risk of a variety of adverse responses.

**I'm Sad** Michael Ian Black,2018-06-05 A girl, a potato, and a very sad flamingo star in this charming sequel to I'm Bored by New York Times bestselling author and comedian Michael Ian Black and celebrated illustrator Debbie Ridpath Ohi. Everyone feels sad sometimes—even flamingos. Sigh. When Flamingo announces he's feeling down, the little girl and Potato try to cheer him up, but nothing seems to work. Not even dirt! (Which usually works for Potato.) Flamingo learns that he will not always feel this way. And his friends learn that sometimes being a friend means you don't have to cheer someone up. You just have to stick by your pal no matter how they feel. Even if they're a potato.

*Secondhand World* Katherine Min,2008-02-12 Isadora Myung Hee Sohn—Isa—has just spent ninety-five days in a pediatric burn unit in Albany, New York, recovering from the fire that burned her house and killed her parents. Moving back in time, Secondhand World casts a devastating spell, revealing the circumstances that led to the fire. Growing up the daughter of Korean-born parents, Isa is bullied by American classmates and barely noticed at home. Seeking the company of another outsider, Isa falls in love with Hero, an albino boy. But what starts out as a small teenage rebellion sets in motion a series of events and revelations Isa never could have foreseen.

*Federal Benefits for Veterans, Dependents, and Survivors* The US Department of Veterans Affairs,2020-11-24 An official, up-to-date government manual that covers everything from VA life insurance to survivor benefits. **The Robots Are Coming!** Andres Oppenheimer,2019-04-30 Staying true to his trademark journalistic approach, Andrés Oppenheimer takes his readers on yet another journey, this time across the globe, in a thought-provoking search to understand what the future holds for today's jobs in the foreseeable age of automation. The Robots Are Coming! centers around the issue of jobs and their future in the context of rapid automation and the growth of online products and services. As two of Oppenheimer's interviewees -- both experts in technology and economics from Oxford University -- indicate, forty-seven percent of existing jobs are at risk of becoming automated or rendered obsolete by other technological changes in the next twenty years. Oppenheimer examines current changes in several fields, including the food business, legal work, banking, and medicine, speaking with experts in the field, and citing articles and literature on automation in various areas of the workforce. He contrasts the perspectives of techno-optimists with those of techno-negativists and generally attempts to find a middle ground between an alarmist vision of the future, and one that is too uncritical. A self-described cautious optimist, Oppenheimer believes that technology will not create massive unemployment, but rather will drastically change what work looks like.

**Nonattainment New Source Review, Us Environmental Protection Agency Regulation, 2018** Law Library,2018-08-24 Nonattainment New Source Review (NSR) (US Environmental Protection Agency Regulation) (EPA) (2018 Edition) The Law Library presents the complete text of the Nonattainment New Source Review (NSR) (US Environmental Protection Agency Regulation) (EPA) (2018 Edition). Updated as of May 29, 2018 The EPA is finalizing revisions to the regulations governing the nonattainment new source review (NSR) program mandated by section 110(a)(2)(C) of the Clean Air Act (CAA or Act). These revisions implement changes to the preconstruction review requirements for major stationary sources in nonattainment areas in interim periods between designation of new nonattainment areas and adoption of a revised State Implementation Plan (SIP). The revisions conform the nonattainment permitting rules that apply during the SIP development period following nonattainment designations before SIP approval to the Federal permitting rules applicable to SIP-approved programs. The changes are intended to provide a consistent national program for permitting major stationary sources in nonattainment areas under section 110(a)(2)(C) and part D of title I of the Act. In particular, these changes conform the regulations to the NSR reform provisions that EPA promulgated by notice dated December 31, 2002, except that these changes do not include the NSR reform provisions for clean units or pollution control projects, which the U.S. Court of Appeals for the D.C. Circuit vacated in *New York v. EPA*, 413 F.3d 3 (DC Cir. 2005). In addition, these changes include an interim interpretation of the NSR reform provision for a reasonable possibility standard for recordkeeping and reporting requirements, in accordance with that court decision. This interim interpretation to the reasonable possibility standard applies for appendix S purposes, pending the completion of rulemaking to develop a more complete interpretation. *The Protection and Conservation of Water Resources* Hadrian F. Cook,2017-06-26 This book is about water - in Britain, and in the world. It is about water resources, their conservation, protection of water quality for human consumption and aquatic ecosystems. Since the publication of the first edition in 1998, major political and regulatory changes have taken place; this book provides a clear and comprehensive update of conservation and water resource management issues in the UK over the past two decades, and - in an expansion of its original UK perspective - now includes examples of global best practice. The UK's 2003 adoption of the EU Water Framework Directive has had enormous implications for the conservation and management of our water resources. In 2016, with the UK's decision to leave the EU, the governance scene is entering upon an unpredictable future regarding its major water resource policies. The Protection and Conservation of Water Resources, Second edition provides a clear and comprehensive update of conservation and water resource management issues. Chapter 1 deals with sustainability and water policy, outlines the issues and challenges, and asks: what is integrated water management? Chapter 2 reviews water availability and sufficiency in Britain, while Chapter 3 explores the dynamic between institutions and legislative framework. Chapter 4 introduces the catchment approach, and chapters 5 and 6 explore the issues of sustaining bulk supply and the imperatives of climate change. Chapter 7 looks at the contemporary background to water quality issues, and Chapter 8 provides case studies of catchment problems, both urban and rural. Chapter 9 describes solutions in land use change, including technical fixes and their sustainability. Chapter 10 is concerned with emerging governance arrangements, and Chapter 11 takes a global view, looking at successful examples around the world to find positive lessons from Europe, north America and Australia.

**Automatic Dependent Surveillance-Broadcast (Ads-B) Out Performance Requirements to Support Air Traffic Control (Atc) Service (Us Federal Aviation Administration Regulation) (Faa) (2018 Edition)** The Law Library,2018-09-11 Automatic Dependent Surveillance-Broadcast (ADS-B) Out Performance Requirements to Support Air Traffic Control (ATC) Service (US Federal Aviation Administration Regulation) (FAA) (2018 Edition) The Law Library presents the complete text of the Automatic Dependent Surveillance-Broadcast (ADS-B) Out Performance Requirements to Support Air Traffic Control (ATC) Service (US Federal Aviation Administration Regulation) (FAA) (2018 Edition). Updated as of May 29, 2018 This final rule amends FAA regulations by adding equipage requirements and performance standards for Automatic Dependent Surveillance-Broadcast (ADS-B) Out avionics on aircraft operating in Classes A, B, and C airspace, as well as certain other specified classes of airspace within the U.S. National Airspace System (NAS). ADS-B Out broadcasts information about an aircraft through an onboard transmitter to a ground receiver. Use of ADS-B Out will move air traffic control from a radar-based system to a satellite-derived aircraft location system. This action facilitates the use of ADS-B for aircraft surveillance by FAA and Department of Defense (DOD) air traffic controllers to safely and efficiently accommodate aircraft operations and the expected increase in demand for air transportation. This rule also provides aircraft operators with a platform for additional flight applications and services.
