Plan B 3.0: Mobilizing to Save Civilization (Substantially Revised) Lester R. Brown, 2008 Provides alternative solutions to such global problems as population control, emerging water shortages, eroding soil, and global warming, outlining a detailed survival strategy for the civilization of the future.

Education, Human Rights and Peace in Sustainable Development Maigul Nugmanova, Heimo Mikkola, Alexander Rozanov, Valentina Komleva, 2020-11-19 The aim of sustainable development is to balance our economic, environmental and social needs, allowing prosperity for current and future generations. Countries must be allowed to meet their basic needs of employment, food, energy, water and sanitation. There is a clear relationship between the three topics of the book: right to education has been recognized as a human right - education has a role in peace-building. Additionally, education, human rights and peace have a significant role in sustainable development. The United Nations have defined a broad range of internationally accepted rights, including civil, cultural, economic, political and social rights. However, this book demonstrates that there are still people and nations not respecting the Universal Declaration of Human Rights. Chapters from Brazil, Cameroon, Ethiopia, Kazakhstan, Israel, Peru, Russia and South-Africa cover topics like civil war, human abuses, the vulnerability of indigenous people, abortion, epilepsy, food security, lack of health equities in maternal and child health, and democracy or lack of it. We sincerely hope that this book will contribute to the joint pursuit of humanity to make the world better after we all get over the coronavirus pandemic.

Bulgaria International Monetary Fund, 1996-02-15 This paper reviews economic developments in Bulgaria during 1990-95. In 1993, GDP continued to contract, albeit more slowly than previously. Real GDP declined by 2.4 percent owing to a drought-induced collapse in agricultural output. As consumption-driven imports rose and exports fell, the lower real GDP in 1993 was accompanied by a large current account deficit. The adoption of restrictive fiscal and incomes policies in 1994 enabled Bulgaria to retain the gains in external competitiveness acquired from the nominal depreciation.

The World Food Economy Douglas D. Southgate, Jr., Douglas H. Graham, Luther G. Tweeten, 2006-11-03 The questions of population growth and food supply have long been of central concern to economists. The World Food Economy seeks to examine the lessons of the past for wealthy nations, where agricultural output has steadily risen for decades, as well as for developing nations where the advances of the "Green Revolution" in the 1960s have introduced new problems in addition to solutions. This text assesses the challenge of satisfying food demand during the twenty-first century as consumers and producers in every part of the world—rich and poor alike—feel the effects of expanded global commodity trade, food aid, and national legislation in response to globalization. Examines increases in agricultural output and productivity in both the developed and developing worlds Analyzes the centrality of agricultural development to general economic progress and explores cases where governments attempt to foster economic expansion while neglecting food production Assesses the challenge of satisfying food demand during the twenty-first century, given the effects of globalization on international trade and national legislation.

Understanding Growth and Poverty Raj Nallari, Breda Griffith, 2011 Provides an understanding of economic policies for poverty reduction in developing countries. The policy areas include the various roles of government in ensuring the effective operation of a market economy, conducting fiscal policy, and influencing the money supply, exchange rates, and the financial sector.

Religion, Faith and Crime Kim Sadique, Perry Stanislas, 2016-05-28 This unique collection brings together international contributors from a range of disciplines to explore crime and responses to crime through a religious/faith-based lens. At a time when religion is under the media spotlight in terms of religiously-motivated hate crime, terrorism and child abuse this book provides an important platform for academic debate. It examines these and other key issues including: faith as a coping strategy, religion as a motivating factor and the role of religion and morality in shaping criminal justice responses. This collection clearly places religion/faith at the heart of criminological enquiry and illustrates its relevance in addressing wider social issues and would be of benefit to students and academics researching or studying in these areas. It will also be of interest to community and criminal justice practitioners and those with an interest in community engagement and multi-faith work.

Not No Place Bettina Malcomess, Dorothee Kreutzfeldt, 2013 [The book] skilfully meshes together the written history of the city and its build environment with that which is less certain, less defined: the invisible and visible seams and ridges that hold the city together. ... We are presented with an array of books, documents, fictional accounts, personal memories, photographs (both original and archival), newspapers, pamphlets, obscure city council publications, surveys, plans, court proceedings and architectural objects. Using these materials, Kreutzfeldt and Malcomess ... take us on a visual and textual journey through the arrangements and specificities of Johannesburg over time and trace the contours of the places and no-places that constitute the city as both concrete and imaginary.--Back cover.
