Honor Bound Stuart I. Rochester, Frederick T. Kiley, 1998 Honor Bound is the result of a fruitful collaboration between Stuart I. Rochester and Frederick Kiley. In examining the lives of the prisoners in captivity, it presents a vivid, sensitive, sometimes excruciating, account of how men sought to cope with the physical and psychological torment of imprisonment under wretched and shameful conditions. It includes insightful analyses of the circumstances and conditions of captivity and its varying effects on the prisoners, the strategies and tactics of captors and captives, the differences between captivity in North and South Vietnam and between Laos and Vietnam, and analysis of the quality of the source materials for this and other works on the subject.

**Thinking about Leadership** Nannerl O. Keohane, 2012-09-16 A practical and insightful look at what leaders do, how and why they do it, and the challenges they face Leadership is essential to collective human endeavor, from setting and accomplishing goals for a neighborhood block association, to running a Fortune 500 company, to mobilizing the energies of a nation. Political philosophers have focused largely on how to prevent leaders from abusing their power, yet little attention has been paid to what it actually feels like to hold power, how leaders go about their work, and how they relate to the people they lead. In Thinking about Leadership, Nannerl Keohane draws on her experience as the first woman president of Duke University and former president of Wellesley College, as well as her expertise as a leading political theorist, to deepen our understanding of what leaders do, how and why they do it, and the pitfalls and challenges they face. Keohane engages readers in a series of questions that shed light on every facet of leadership. She considers the traits that make a good leader, including sound judgment, decisiveness, integrity, social skill, and intelligence; the role that gender plays in one's ability to attain and wield power; ethics and morality; the complex relationship between leaders and their followers; and the unique challenges of democratic leadership. Rich with lessons and insights from leaders and political thinkers down through the ages, including Aristotle, Queen Elizabeth I, Franklin D. Roosevelt, and Nelson Mandela, Thinking about Leadership is a must-read for current and future leaders, and for anyone concerned about our prospects for good governance.

Disciplinary and Dissent in Cultural Studies Cary Nelson,Dilip Gaonkar,2013-10-28 First published in 1996. As recently as the early 1990s, people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have. What type of projects would cultural studies inspire people to undertake? Would established disciplines welcome its presence and adapt their practices accordingly? *Disciplinary and Dissent in Cultural Studies* answers such questions. It is now clear that, while striking and innovative work is underway in many different fields, most disciplinary organizations and structures have been very resistant to cultural studies. Meanwhile, cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere. Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social, political, and cultural commentary, by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding. This book tracks these debates and maps future strategies for cultural studies in academia and public life. The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices. In a series of polemic and exploratory essays written especially for this book, they track the struggle with cultural studies in disciplines like anthropology, literature and history; and between cultural studies and very different domains like Native American culture and the culture of science. Contributors include Arjun Appadurai, Michael Denning, Lawrence Grossberg, Cary Nelson, Constance Penley, Andrew Ross, and Lynn Spigel.

Barney Miller and the Files of the Ol' One-Two Otto W. Bruno, Delve into the files of the 12th Precinct and learn more than you ever imagined about Barney, Wojo, Nick, Harris, and the rest of the gang in that dingy little squad room in Greenwich Village. With producer Danny Arnold at the helm, this intelligently written workplace narrative provided audiences with one of the most realistic, sensitive, and hilarious sitcoms in a decade of revolutionary TV comedy. In these files are the stories of the actors who brought the 12th Precinct to life as well as the numerous oddball victims, criminals, and visitors that passed through over eight laugh-filled seasons. Also included are little known facts about the behind-the-scenes struggles as well as never-before-seen photos of the cast and crew in action. All in all, a plethora of evidence for fans to peruse and enjoy. "Thanks for the memories, and for a lot I didn't remember, and for a lot I never knew. You plugged into the "funny." As actors we plugged into the "real," and let the "funny" happen. What is amazing is that after forty plus years, it's still relevant and courageous!" Hal Linden "Wonderfully researched and written, Otto's straightforward sharing of what he has learned comes from a deep and genuine curiosity and appreciation for collaborative creativity whether it's on the baseball diamond, the music bandstand, or the film and television studio." Max Gail
