Gsa Fleet United States Government Accountability Office,2017-09-13 To assist youth who live in high poverty rural areas obtain and retain jobs, YouthBuild USA, a national nonprofit organization, has proposed providing donated used cars to selected low-income youth in rural communities. YouthBuild USA's proposed program hinges on receiving donations of used cars from the federal government's General Services Administration (GSA). This report discusses (1) the effect of donating 1 to 5 percent of selected GSA used cars on GSA's fleet vehicle sales operations, (2) what studies have shown with respect to the benefits that car ownership or access may hold for low-income individuals, and (3) what studies of selected low income car ownership programs and experiences of these programs have shown with respect to the benefits of participant car ownership. In conducting this study, GAO examined auction data from GSA, reviewed academic studies on the benefits of car access in gaining employment, and interviewed officials of six existing low income car ownership programs.

UK Taxation Mark Hunt,2023-08-11 UK Taxation for Students is fully updated for Finance Act 2023. This book can be used either on its own or in conjunction with other texts. It is, however, completely self-contained. This book is written in a user-friendly manner. It includes over 180 worked examples plus true and false quizzes and a further 101 questions for readers. Complex jargon is avoided. Simple English is used. This book also assumes absolutely no prior knowledge about UK taxation. This book covers the five main UK taxes: income tax (paid by individuals), capital gains tax (paid by individuals), corporation tax (paid by companies), value added tax (levied on consumers by businesses), and inheritance tax (normally payable on the death of an individual), and National Insurance Contributions. We have seen some significant tax policy changes since the last edition, and then many of these have already been reversed! Making Tax Digital for Self-Assessment has been deferred again but we have substantial changes introduced, including to the taxation of self-employed individuals and the first increase in the rate of corporation tax since 2007. For students at undergraduate level. Also suitable for ACCA, ICAEW and AAT. Photosystem II T. Wydrzynski,Kimiyuki Satoh,2006-01-27 The most mysterious part of photosynthesis yet the most important for all aerobic life on Earth (including ourselves) is how green plants, algae and cyanobacteria make atmospheric oxygen from water. This thermodynamically difficult process is only achieved in Nature by the unique pigment/protein complex known as Photosystem II, using sunlight to power the reaction. The present volume contains 34 comprehensive chapters authored by 75 scientific experts from around the world. It gives an up-to-date account on all what is currently known about the molecular biology, biochemistry, biophysics and physiology of Photosystem II. The book is divided into several parts detailing the protein constituents, functional sites, tertiary structure, molecular dynamics, and mechanisms of homeostasis. The book ends with a comparison of Photosystem II with other related enzymes and bio-mimetic systems. Since the unique water-splitting chemistry catalyzed by Photosystem II leads to the production of pure oxygen gas and has the potential for making hydrogen gas, a primary goal of this book is to provide a molecular guide to future protein engineers and bio-mimetic chemists in the development of biocatalysts for the generation of clean, renewable energy from sunlight and water.

The Best Life Sue Westrum,2018-06-04 The good life - a commonly used phrase - touts the satisfaction found in certain kinds of shoes, vinyl siding for your house, soft drinks, and even cigars. Sue not only challenges the reader with a realistic understanding of the good life but through interesting and convicting stories of how God worked in the life of a city girl - changing and molding her to begin to reflect His image and in the lives of the Berik people of Indonesian New Guinea, calling those He chose in eternity past to glorify and worship Him. Sue enables the reader to understand The Best Life, a life of healing and forgiveness, experiencing God's peace and knowing His joy. God gave Sue and her husband the distinct privilege of watching Him and having Him work through them to change a jungle society. She relates how God loved and prepared her to fulfill His plans for her, even using shattering childhood events and a man of the jungle to teach her. God implanted in her attributes that enabled her to thrive in situations for which she felt inadequate, situations that are 180 degrees different from her life before Peter. Through exciting and powerful eyewitness accounts, she leads the reader, showing how God used four academic disciplines anthropology, linguistics, literacy, and translation - to impact a formerly unreachable people group and to give them the New Testament in their own language. Sue raises these questions: Was it worth it to leave my own culture to struggle in another culture, to risk the lives of our children with tropical disease, to suffer through the agony of exotic illnesses like malaria and dengue fever, to live with all of God's creatures in our house, to be separated from family and lifelong friends - not even being there when Peter's dad passed away? Is it really worth it to trust in Jesus, to surrender to Him, to commit to following Him, to obey Him, to thank Him - no matter what? Answering these questions is what this book is all about, challenging you whether you are young or old, male or female, are seeking to know Jesus or are searching for His will and plan for you to find and accept The Best Life.
