**The White Coat Investor** James M. Dahle, 2014-01 Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. *Engines of Change* Paul Ingrassia, 2012-05-01 A narrative like no other: a cultural history that explores how cars have both propelled and reflected the American experience— from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod, America's history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize-winning journalist Paul Ingrassia. Ingrassia offers a wondrous epic in fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales behind them: Robert McNamara's unlikely role in Lee Iacocca's Mustang, John Z. DeLorean's Pontiac GTO, Henry Ford's Model T, as well as Honda's Accord, the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the country, the birth of the hippie and the yuppie, the emancipation of women, and many more fateful episodes and eras, including the car's unintended consequences: trial lawyers, energy crises, and urban sprawl. Narrative history of the highest caliber, *Engines of Change* is an entirely edifying new way to look at the American story.

**The Smart and Easy Guide to Loans: the Complete Guide Book to Your Credit Score, Home Financing, Mortgages, Car Loans, Student Loans, Credit Repair, Credit Cards and Payday Loans** Darryl Johnson, 2013-10-22 Financial lending is what makes the world go 'round. We rely on loan providers to extend us lines of credit for a variety of reasons. From a mortgage, business loan, student loan for education or even a car loan, the bulk of our major purchases are bought on lines of credit. Today's world of finance is as confusing as ever before and getting a loan for the first time can see like a headache-inducing and daunting challenge. In The Smart & Easy Guide to Loans, we are provided with all the information we need to truly understand the lending process. From what we'll need before we even apply for a loan, the basics of the different types of common loans, as well as things to avoid, this guide provides accessible information that helps to simplify this complex process. The guide begins by laying out the information one will need to know before even applying for a loan. One will need an in-depth understanding of their financial situation - from debts to assets and income - so as to determine whether or not they will even be eligible for said loan. Outside of a detailed understanding of one's income and assets, financial standing is probably the most important element when applying for a loan. The guide discusses the importance of the credit report, which is used as a key determining factor in whether or not to extend someone a loan. When it comes to credit score, the guide recommends the following strategy: Obtain the credit report Check it for accuracy Determine the health of the credit score If the credit score needs improvement, create a plan of action towards paying off debts and raising credit score as fast as possible. Different Types of Loans and Eligibility Requirements Loans are extended for a huge number of reasons and one's eligibility depends on credit score, income and assets, as well as the type of line of credit being extended. The most common types of loans are mortgages, student loans, business loans, car loans and credit cards. Mortgages are home loans and, outside of business loans, are likely the largest line of credit one will apply for in their lifetime. This line of credit is one of the more difficult lines to obtain, as the size of the loans is so much greater than an auto loan or credit card. One must have a good credit score, strong financial standing and must be able to demonstrate the ability to effectively manage the terms of the loan. Student loans are often dependent on the financial history of the parent. However, some loans can be extended to students with little to no credit, as well as little to no income or assets. Car loans and credit cards are much more variable. The terms of lending often vary from car lot to car lot, or credit card company to credit card company. For the most part, consideration is given to credit score, income and assets, debt load and the price of the vehicle or the amount of credit extended. Loans and Financial Schemes to Avoid While credit does make these large purchases possible, they are not all good ideas. There are a number of financial schemes that are best avoided at all costs. Payday loans, or advances on one's paychecks, are a form of quick loan that often lead the borrower into a viscous cycle of excessive interest rates and a continued loan cycle. These are best to be avoided as the turnaround time on repayment is often incredibly short and the amount of interest charged on the loans is so dramatically inflated. Getting a loan is, for many, an incredibly confusing and even scary experience - but it does not have to be. With The Smart & Easy Guide to Loans, one is provided with all the information they need to understand the lending process, as well as how to determine their eligibility and what financial tools are best avoided. This guide arms readers with the knowledge to make informed decisions about their finances and secure loans for the big purchases in life, and to do so as affordably and simply as possible.

**Personal Finance** Vickie L. Bajtelsmit, 2024-04 With the highest inflation in decades, her graduation cohort faced much higher costs for rent and food, without the benefit of similarly higher salary offers. Many of her friends, particularly those who had high levels of student loan and credit card debts, decided to move back home with their families temporarily to help make ends meet. Recent evidence suggests that as many as 20 percent of young adults are now living with their parents—about twice as many as did so in past decades. In fact, as more kids come home to roost with their Baby Boom parents, it's increasingly common to hear them called the boomerang generation--
