Small Arms Survey 2015 Small Arms Survey,2015-07-30 The Small Arms Survey 2015 examines the role of weapons and armed violence in humanity's appropriation of the earth's wildlife and mineral riches - in Africa, where the poaching of elephants and rhinos is becoming increasingly militarised, and near resource extraction sites around the world. In addition to presenting updates on the UN small arms process and the top arms importers and exporters, the volume assesses how recent technological developments affect weapons marking, record-keeping, and tracing; reviews small arms flows to Egypt, Libya, and Syria; and evaluates a stockpile management initiative in south-east Europe. The 'armed actors' section sheds light on the arms and ammunition used by insurgents in northern Mali, the decline of the Forces Démocratiques de Libération du Rwanda, and the use of floating armouries by private security companies in the Indian Ocean. This edition also analyses conditions that are driving young people to adopt high-risk coping strategies in Burundi.

**Overlooked Cities** Hanna A. Ruszczyk,Erwin Nugraha,Isolde de Villiers,2020-12-28 Overlooked Cities reflects and impacts the changing landscape of urban studies and geography from the perspective of smaller and more regional cities in the urban South. It critically examines the ways in which cities are uniquely positioned within different urban and knowledge hierarchies. The book unpacks the dynamics of “overlooked-ness” in these cities, identifies emerging trends and processes that characterise such cities and provides alternative sites for comparative urban theory. It is organised into two themes: firstly, politics and power and secondly, production and negotiation of knowledge. The authors share a commitment to challenging the unevenness of urban knowledge production by approaching these cities on their own terms. Only then can we harness the insights emanating from

these overlooked cities, and contribute to a deeper and richer understanding of the urban itself. This collection of essays, focusing on 13 cities in nine countries and across three continents (Luzhou, China; Bharatpur, Nepal; Bloemfontein/Mangaung and Pretoria/Tshwane, South Africa; Zarqa, Jordan; Santa Fe, Argentina; Manizales, Colombia; Arequipa and Trujillo, Peru; Dili, Timor-Leste; Bandar Lampung, Semarang and Bontang, Indonesia) makes a timely contribution to urban scholarship. The volume will be of interest to scholars from the disciplines of urban studies, geography, development and anthropology, as well as postgraduate students researching the global South and third year undergraduate students studying cities and urban studies, development and critical thinking.

*Rapid On-Site Evaluation (ROSE) in Diagnostic Interventional Pulmonology* Jing Feng, Wen Ning, Dianhua Jiang, Jingyu Chen, Bo Wu, 2020-05-15 This book demonstrates the recent advances in rapid on-site evaluation (ROSE) for differential diagnosis of interstitial lung disease (ILD). Interstitial lung disease is a group of diffuse parenchymal lung disorders affecting the interstitium, a part of the lung's anatomic structure, causing inflammation, scarring, or excess fluid. ILDs include interstitial pneumonia, idiopathic pulmonary fibrosis, nonspecific interstitial pneumonitis, cryptogenic organizing pneumonia and sarcoidosis, which are associated with various degrees of morbidity and mortality rates. ROSE has proven its value in diagnosis with routine transbronchial lung biopsy (TBLB) procedures, especially in difficult clinical cases. The first part of the book discusses the principals of performing ROSE procedures, reviews the basic concepts and summarizes the distribution and morphology of tracheal/ bronchial/ pulmonary cells. The second part covers specific interstitial disorders, including a number of difficult and rare cases, and features iCT images and cytological illustrations. Providing readers with valuable insights, the book is an important resource for practitioners involved in the care and treatment of patients with ILD. This book is part of the 4-volume collection ROSE in Diagnostic Interventional Pulmonology.
