**Creative Business Cards** Carmen Fong,Shantell Chen,2014 Business cards are a statement of identity. Capable of conveying much more than contact information, they represent the creativity or style of a company in a very portable format. As an historical artifact in the digital age, they are constantly in danger of obsolescence and only those that truly stand out are memorable. One way to achieve the note

**The Best of Business Card Design 9** Rule29,2012-03 New in paperback, this innovative collection features the most current and best work by top designers worldwide. [The Design Box Brochue Design Cards: 50 Graphic Design Layout Ideas](#),2007 These at a glance cards provide ideas for designing marketing pieces for different business types. Each card has a professionally designed brochure layout on the front and a title on the back.

**Classic Cards** Marrian Piers,2007 These are 60 of the most beautiful cards a crafter will ever see, with unique techniques that no other card-making guide uses. Every project showcases excellent craftsmanship, and features great color how-to photographs, diagrams, and patterns. Choose from the classic Dutch and other European styles of folding and stitching to create something special for any occasion. Embroider a geometric star in metallic threads, and then add seed beads for an elegant, crisp design. Layer bright squares, construct a Chinese Pagoda design out of many small bits and scraps, use bold, thick threads to make a wonderfully realistic three-dimensional butterfly, or quilt a small heart-shaped card for Valentine's Day. Each card is so exquisite that it's a gift in itself.

*Big Book of Business Cards* David E. Carter,2008-10-14 The Big Book of Business Cards showcases 2,500 business card designs, providing plenty of inspiration for every taste and type of business. With its robust visual gallery and detailed information, this book provides a thorough look at what goes into an effective business card design. For anyone looking to brand a company or product, The Big Book of Business Cards is an ideal, time-saving tool.

*Business Cards* Mike Dorrian,Liz Farrelly,2004-11-23 Business Cards: The Art of Saying Hello is the ultimate business card book, bringing together the best examples of cards created by designers around the world. Business cards are a major design challenge; creating successful cards is all about the clever use of space; but just a little space. And that's not all. A design needs to make a splash, stand out from the crowd or announce you as part of a team; and how do you solve the problem of creating a universally understood message while catering to cultural differences and multiple languages? Materials are also important; not all cards are machine printed, and this book features cards on punched metal, stitched fabric, cards with heat-sealed cut-outs, or made from recycled subway tickets, plus clever examples of best-practice using "make-your-own" business-card machines. Over 300 cards are grouped into sections reflecting different design approaches: Typography, Photography, Materials, Illustration and Found Objects. Proving just how inventive you can be with a limited space, this book is a rich source of ideas and inspiration both for designers and anyone wishing to make a statement with their business card.

**Oracles** Barbara Fédier,Pierre Leguillon,2017 This book presents 123 calling cards of artists (painters, sculptors, photographers, architects, graphic designers, illustrators etc.) from the 18th century to the present day. The facsimiled cards are slipped like bookmarks into a book by several authors on the history of the use of calling cards, the social context in which they were produced, and related historical and fictional narratives. The often unexpected graphic qualities of these personalized objects, each designed to capture an individual identity within the narrow confines of a tiny rectangle card, implicitly recount a history of taste and typographic codes in the West. But this calling card collection also lays the foundations for a microhistory of art, inspired by the Italian microstoria, or a looser narrative that breaks free from geographic contexts and historical periods. We can imagine how social networks were formed before the advent of Facebook, and how artists defined themselves in the social sphere, whether they were students or teachers, dean of the art school or museum curator, founder of a journal, firm, restaurant or political party, and so on. Superimposed on this imaginary or idealized network formed by chance encounters is a living network of students of art or history, historians or anthropologists, librarians, archivists, gallerists, museum curators and artists themselves, the network upon which this pocket museum is constructed. The sheer variety of perspectives and stories brought together here makes this book a prodigious forum for discussion. (source : éditeur).

Special extra envelope templates and ideas.

With 52 sewn designs made from easy-to-follow, straightforward instructions, you can show just how much you care with a beautiful, handmade creation: no sewing experience necessary! This DIY guide contains eight sheets of cardstock and basic stitch patterns that can be completed with nothing more than a needle and thread, either by hand or machine, transforming a blank card into a whimsical, inspired, one-of-a-kind design. The perfect expression for birthdays, graduations, or a simple thinking- of-you note, each design incorporates inexpensive and easy to find household items such as strips of fabric, brightly colored plastics, handmade stamps, and more. Even recycled items such as mesh produce bags and seed packets are put to new use to create truly one-of-a-kind cards!

**Artful Mini Cards** Janice E McKee,2011-11-01 Bringing professional-looking cards into the realm of do-it-yourself home crafting, this reference teaches the processes for embellishing fabric, pressing flowers, handstitching easy designs, and using paper napkins to create stunning card art. Encapsulating the unique joy of mini cards, this book—buttressed by dozens of color photographs—weaves a number of crafting techniques that will appeal to card makers, art enthusiasts, and general crafters alike. Making Mechanical Cards Sheila Sturrock,2009 The tradition of sending loved ones greeting cards goes back about 200 years and is more

popular today than ever before. With a greeting card being the gift of choice for so many occasions, people are forever on the lookout for one that the recipient hasn't seen before. Because this is no easy task, the creatively minded among us are choosing to make our own cards. There are many books demonstrating how to make basic cards, but *Making Mechanical Cards* goes a considerable step further in showing how to make cards with mechanisms. The mechanisms are based on Victorian and Edwardian designs, and vary from the very simple to the really intricate. But the step-by-step instructions and diagrams provided make even the most complicated form of mechanism achievable. In addition, the materials and equipment needed to make these impressive cards are not extensive or specialized --- the main requirements are card stock, glue, and scissors, with wire or thread for the more complex designs.

*Language of Art Knowledge Cards* Dona Budd,Pomegranate Communications, Inc,2005-04-01 This deck of 48 Knowledge Cards offers brief summaries of the terminology of the art world. The different styles and movements (abstract expressionism, pointillism, Dadism), media (gouache, tempera), and methods (impasto, drypoint, chiaroscuro) are defined, one to each card. Descriptive examples and historical facts accompany the definition of each art-related word.

**Handmade Cards and Gift-wrap** Vivienne Bolton,2007 Features 50 projects and designs which use the materials available to card-makers such as stickers, transfers, napkins, wire, foam, rivets, and punches. This book contains ideas for cards, boxes, bags, tags, wrapping paper and envelopes. It illustrates each project step-by-step, along with photographs of the finished stationery.
