Never War J.J. Green,2023-10-04 Deadly arrival Life is never simple and especially not for Carina Lin. Bloodthirsty tyrants, savage aliens, and vicious adversaries are just a few of the challenges she's been forced to overcome on her galactic voyage to the birthplace of mages: Earth. Against all the odds, she's made it. Eager to discover if the planet is a safe place for her and her family to openly practice their 'magical' abilities, she travels to the surface. What she finds there confounds all her expectations. In some ways, Earth is a paradise, but in others it's hell—for the new world harbors a dark secret that threatens to destroy her dream and end her life. Before she can make a home she must root out the evil, but it's going to take time, and her merc band companions, the Black Dogs, are impatient to start their new lives. If they go planetside they could ruin everything. Can Carina vanquish her final enemy before time runs out? *Never War* is the ninth and final book in the dark space fantasy, *Star Mage Saga*.

Choosing and Using a New CAT Rod Mollise,2009-02-28 Choosing and Using the New CAT will supersede the author's successful Choosing and Using a Schmidt-Cassegrain Telescope, which has enjoyed enthusiastic support from the amateur astronomy community for the past seven years. Since the first book was published, a lot has changed in the technology of amateur astronomy. The sophistication and variety of the telescopes available to amateurs has increased dramatically. Computerized SCTs, Maksutov-Cassegrains, and most recently Meade's new and acclaimed Ritchey-Chrétiens have come to dominate the market. That means that all amateurs considering the purchase of a new telescope (not only a SCT, and not just beginners) will benefit from this detailed guide. Choosing the right telescope for particular kinds of observation (or even for general work) is far from easy – but Rod Mollise gives invaluable advice and guidance.

The Historic Rama Nilesh Nilkanth Oak, 2014-01-28 From the author of 'When did the Mahabharata War happen? The Mystery of Arundhati'. Employing tools of Archeo-astronomy and the logic of scientific discovery, coupled with fantastic intuition, Nilesh Oak tests, with scientific precision, observations from the oldest epic of humanity - Valmiki Ramayana. He takes us on an exciting tour from the present, into remote antiquity of human civilization. Here is the book for everyone who is interested in antiquity of civilizations, Ramayana, ancient Indian history and Archeo-astronomy Praise for 'The Historic Rama' It was a fascinating ride. The pictures helped enormously. It is funny, logical, unapologetic, interesting, thought-provoking and most importantly, it requires a higher amount of reader participation. This is not a book for reading before bed or in a leisurely mood. This book is best read with a pen and a paper nearby. --- Congratulations for an amazing, meticulous and painstaking work. I salute your devotion and hard work. I have no knowledge or appreciation of arguments

connected with astronomy. I had read Pushkar Bhatnagar's book and also heard his lecture. Your book has prompted me to read books by Vartak, Yardi and others. I had found Bhatnagar's dates very attractive because they tally with the anthropological history of India. A date of 12000 BCE will need pushing back the history of agriculture in India to almost 5000 years earlier than its documented evidence. However, who knows, some new discoveries are waiting to be made as has happened in case of the use of iron. --- As I was reading, I got transported to Rama's time and went through the journey. I liked your set of questions that the dating of Ramayana does to the world history. Overall I am impressed and this will do a lot to revive interest in Ramayana and lend credence to the epic just as the discovery of Troy did to Homer's Iliad. --- The book is excellent. I also enjoyed the last appendix on the 'origins of weekday names and division'. It seemed like a relief when I reached the appendix, but ended up re-reading it in order to fully comprehend the gist of it. --- Thank you so much for the work you have done to unearth the timelines of Ramayana. Reading the book gives me Goosebumps. I never had such an experience before. Hindus were blamed for not keeping track of time. Your research disproves it totally, clearly showing how the use of motion of celestial bodies serves as the ultimate timekeeper. --- I love the quotations you give at the beginning of every chapter which sets the tone of that chapter. --- It is a great piece of work! Some parts I enjoyed more than others, particularly, the re-appearance of Brahma-Rashi. If it truly refers to star Abhijit (Vega), then description of it 'shining brightly' is clearly explained. An excellent observation indeed! --- It was an incredible experience to read your wonderful book. I did not realize that our tradition and history went so far back! Thanks again for this wonderful book. I am looking forward to reading your next book. --- I had a wonderful evening today explaining to my family how the 24 hour day, the 7 day week, the names of the weekdays, the sequence of weekday names, are all based on a system founded on logic

of astronomy observations. And the week had an Out-of-India migration just like the Zero! So next time some AIT-Nazi talks you down, ask him what weekday it is! Nilesch ji, a big thank you to you, Sudarshan Bharadwaj and Shri Suhas Gurjar. --- BHARAT is REBORN, as its most famous son, Lord Rama, has finally found a throne on world's timeline! And it is an open challenge from Nilesch Nilkanth Oak to the world to try and dethrone Lord Rama from that throne if they think they are intellectually up to the task. --- The book is gripping, fascinating and hard to put it down.
