Mary Maillard

Dear Carrie Caregiver Donna MacKinnon,Independent Child Caregivers Association,1991

Indigenous Peoples and Dementia Wendy Hulko,Danielle Wilson,Jean Balestrery,2019-06-15 Dementia is on the rise around the world, and health organizations in Canada, the United States, and New Zealand are responding to the urgent need – voiced by communities and practitioners – for guidance on how best to address memory loss in Indigenous communities. This innovative volume responds to the call by bringing together, for the first time, studies and Indigenous teaching stories that address three key areas of concern: prevalence, causes, and public discourse; Indigenous perspectives on care and prevention; and culturally safe application of research to Elder care. Collectively, the contributors demonstrate that care must be grounded in collaborative research informed by Indigenous knowledge and worldviews.

I Don't Have Your Eyes Carrie A. Kitze,2007-10 Gentle multicultural exploration of how people are alike despite differences in appearance, background or ethnicity.

The Last Childhood Carrie Knowles,2017-10-10 The Last Childhood is a knowledgeable companion for anyone who has a relative with Alzheimer's. The experience of the Knowles family through their mother's lengthy decline yields much wisdom and insight about how to manage – financially, psychologically, and emotionally – and how to make the best decisions. This memoir is beautifully written, heart-felt, and generously informative.

Decoding Anorexia Carrie Arnold,2012 Decoding Anorexia is the first and only book to explain anorexia nervosa from a biological point of view. Its clear, user-friendly descriptions of the genetics and neuroscience behind the disorder is paired with first person descriptions and personal narratives of what biological differences mean to sufferers. Author Carrie Arnold, a trained scientist, science writer, and past sufferer of anorexia, speaks with clinicians, researchers, parents, other family members, and sufferers about the factors that make one vulnerable to anorexia, the neurochemistry behind the call of starvation, and why it's so hard to leave anorexia behind. She also addresses: – How environment is still important and influences behaviors – The characteristics of people at high risk for developing anorexia nervosa – Why anorexics find starvation rewarding – Why denial is such a salient feature, and how sufferers can overcome it Carrie also includes interviews with key figures in the field who explain their work and how it contributes to our understanding of anorexia. Long thought to be a psychosocial disease of fickle teens, this book alters the way anorexia is understood and treated and gives patients, their doctors, and their family members hope.

The Practice of Pastoral Care Carrie Doehring,2014-12-05 The Practice of Pastoral Care has become a popular seminary textbook for courses in pastoral care and a manual for clinical pastoral education. In it, Doehring encourages counselors to view their ministry through a trifocal lens that incorporates premodern, modern, and postmodern approaches to religious and psychological knowledge. Doehring describes the basic ingredients of a caregiving relationship, shows how to use the caregiver's life experience as a source of authority, and demonstrates how to develop the skill of listening and establishing the actual relationship. This new edition elaborates on and expands the author's previous work, adding an intercultural perspective that gives more attention to religious pluralism in the pastoral care setting. It offers a road map for using a step-by-step narrative, relational, embodied approach to spiritual care that respects the unique ways people live out their values and beliefs, especially in coping with stress, loss, and violence. Readers will be able to confidently and professionally offer pastoral care and counseling to members of their congregations or other places of ministry.

The Practice of Pastoral Care, Revised and Expanded Edition Carrie Doehring,2015-01-12 The Practice of Pastoral Care has become a popular seminary textbook for courses in pastoral care and a manual for clinical pastoral education. Her Rejection, His Regret Rosie Meachem,2024-03-01 I, Alpha Miller, hereby reject you, Isla Higgins, as my mate and Luna of the Pembroke pack, he said with a smirk as his beta pinned me against the wall. My heart shattered into a thousand pieces, and I felt a physical ache in my body as pain penetrated through me. “There is no competition here.” Mora, the girl who had made my life hell since childhood, wrapped herself around my fated mate, and he pulled her into his chest, kissing her with passion and lust. I glared at her in frustration and wished I could punch her fake image. Isla decides to leave the pack after the humiliating rejection and the betrayal. Five years later, she returns to her old pack after her mother falls ill. As she comes to terms with the past and becomes a respected warrior in the Eclipse Moon Pack, secrets and lies are revealed. Isla must decide whether to give her ex-mate a second chance or realize her worth without him. (This is book 1 of the series.)

Peacemaking ,2021-10-25 Peacemaking includes a large array of activities from local to global attempts to attain peace. It includes consideration of international, interstate, and intertribal conflict resolution; communal, personal, and interpersonal social justice; deterrence of the use of nuclear weapons; design of international treaties that prevent war or other forms of international conflict; disarmament; international organizations that secure the order among nations; and even, from some points of view, war. As the 20th century drew to a close, we have witnessed peacemakers trying to end ethnic cleansing, reinstate justly elected political leaders, and reach compromises in the ideological differences that perpetuate age-old conflicts. We also see peacemaking in our schools, homes, and workplaces. Philosophers have long been interested in peacemaking in one form or another, and philosophical accounts of peacemaking reflect the variety of perspectives, methods, and activities developed in pursuing peacemaking. In some instances, philosophers expand upon the situations, activities, and methods of the peacemaker in the field. The essays in this volume propose some theoretical arguments for various aspects of peacemaking, offer nonmilitary alternatives to war, and discuss practical examples of peacemaking in daily life. The contributors analyze power relations, language, social groupings, and distribution of resources. At times, they draw insight from social and historical models of conflict and conflict-resolution. This collection of essays on peacemaking aims to enlighten contemporary social and political discussions and contribute to achieving the ever-challenging goal of peace.

Successful Aging as a Contemporary Obsession Sarah Lamb,2017-05-22 In recent decades, the North American public has pursued an inspirational vision of successful aging—striving through medical technique and individual effort to eradicate the declines, vulnerabilities, and dependencies previously commonly associated with old age. On the face of it, this bold new vision of successful, healthy, and active aging is highly appealing. But it also rests on a deep cultural discomfort with aging and being old. The contributors to Successful Aging as a Contemporary Obsession explore how the successful aging movement is playing out across five continents. Their chapters investigate a variety of people, including Catholic nuns in the United States; Hindu ashram dwellers; older American women seeking plastic surgery; aging African-American lesbians and gay men in the District of Columbia; Chicago home health care workers and their aging clients; Mexican men foregoing Viagra; dementia and

Alzheimer sufferers in the United States and Brazil; and aging policies in Denmark, Poland, India, China, Japan, and Uganda. This book offers a fresh look at a major cultural and public health movement of our time, questioning what has become for many a taken-for-granted goal—aging in a way that almost denies aging itself.

The Lion in Your Heart R.C. Chizhov,2021-10-20 A read-aloud bedtime tale that can help kids gain confidence in their own bravery. -- Kirkus Reviews Awards: 2021 International Book Award Finalist, 2021 Females of Fiction Award Finalist, 2021 Story Monsters Approved, 2021 Indies Today Semi-Finalist, LoveReadingUK Indie Books We Love, 2021 Readers Favorite. When Dennis is scared to sleep alone in his new room, he learns a special secret to conquer his fear: a brave lion in his heart. But Dennis is confused and curious: Where is the lion, if he can't see it? Will the lion be with him all the time and everywhere he goes? Does Mommy have a lion in her heart? Heartfelt storytelling paired with vibrant illustrations convey a valuable lesson for all children in this teacher and psychologist recommended picture book about courage. Makes a thoughtful holiday gift for children ages 3, 4, 5, 6, 7, 8 and up. Great for bedtime, confidence building, classroom discussions and improving children's reading skills.

How to Be Sick Toni Bernhard,2010-09-14 This life-affirming, instructive and thoroughly inspiring book is a must-read for anyone who is--or who might one day be-- sick. And it can also be the perfect gift of guidance, encouragement, and uplifting inspiration to family, friends, and loved ones struggling with the many terrifying or disheartening life changes that come so close on the heels of a diagnosis of a chronic condition or even life-threatening illness. The author--who became ill while a university law professor in the prime of her career--tells the reader how she got sick and, to her and her partner's bewilderment, stayed that way. Toni had been a longtime meditator, going on long meditation retreats and spending many hours rigorously practicing, but soon discovered that she simply could no longer engage in those difficult and taxing forms. She had to learn ways to make being sick the heart of her spiritual practice--and through truly learning how to be sick, she learned how, even with many physical and energetic limitations, to live a life of equanimity, compassion, and joy. And whether we ourselves are sick now or not, we can learn these vital arts of living well from How to Be Sick.

The Healing Power of Spirituality J. Harold Ellens,2009-12-30 This three-volume set addresses how the role of spirituality and its constructive expressions in various religions—and outside of formal religion—enhances human personality and experience. Theologian and acclaimed scholar J. Harold Ellens now offers a breakthrough work on the positive impact of faith. In *The Healing Power of Spirituality and Religion*, an extraordinary group of scholars discuss the latest scientific research into the connection between belief and psychological and physical well-being. Each volume of *The Healing Power of Spirituality* focuses on a specific aspect of the scientific exploration of faith and well being: volume one examines the healing power of personal spiritualities like I Ching and Transcendentalism; volume two looks at the subject in the context of Christianity, Judaism, and other world faiths; and volume three explores the psychodynamics of healing spirituality and religion, including the role of biochemical and chemical reactions in heightening psychospiritual apperception.

Telling the Truth to Your Adopted or Foster Child Betsy Keefer Smalley, Jayne E. Schooler,2015-09-15 Many adopted or foster children have complex, troubling, often painful pasts. This book provides parents and professionals with sound advice on how to communicate effectively about difficult and sensitive topics, providing concrete strategies for helping adopted and foster children make sense of the past so they can enjoy a healthy, well-adjusted future. Approximately one of every four adopted children will have adjustment challenges related to their separation from the birth family, earlier trauma, attachment difficulties, and/or issues stemming from the adoption process. Common complicating issues of adopted children are feelings of rejection, abandonment, or confusion about their origins. While many foster and adoptive parents and even many professionals are reluctant to communicate openly about birth histories, silence only adds to the child's confusion and pain. This revised and significantly expanded edition of the award-winning *Telling the Truth to Your Adopted or Foster Child* equips parents with the knowledge and tools they need to communicate with their adopted or foster child about their past. Revisions include coverage of significant new research and information regarding the importance of understanding the child's trauma history to his or her well-being and successful adjustment in his foster or adoptive family. The authors answer such questions as: How do I share difficult information about my child's adoption in a sensitive manner? When is the right time to tell my child the whole truth? How do I obtain more information on my child's history? Detailed descriptions of actual cases help the parent or caregiver find ways to discover the truth (particularly in closed and international adoption cases), organize the information, and explain the details of the past gently to a toddler, child, or young adult who may find it frightening or confusing.

Coping Rituals in Fearful Times Jeltje Gordon-Lennox,2022-03-13 This collection of articles reveals ritual to be a unique and powerful asset in healing trauma and broken relationships. Each contribution offers insights on how, in the face of uncertainty, threat and dislocation, human beings feel compelled to 'do something', usually with or for others, to alleviate their anxiety, fears and sense of powerlessness. The editor and authors demonstrate how the imaginative processes at the heart of ritualmaking contribute to self- and group regulation by healing and mitigating the negative impact of trauma on individuals, collective groups, and even global systems. The authors are a group of remarkable scholars, researchers and practitioners who represent a diverse range of disciplines and subfields, including archaeology, Chinese studies, digital culture, ecological science, philosophy, psychology, psychotherapy, the politics of memory and the preservation of cultural heritage in wartime, ritual anthropology, social research, physics, research on traumatic stress, and peace studies. Students and researchers across the social and behavioural sciences will find this volume useful.

The Happiest Baby on the Block Harvey Karp, M.D.,2008-11-19 Perfect for expecting parents who want to provide a soothing home for the newest member of their family, *The Happiest Baby on the Block*, the national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic “off-switch” for their baby’s crying. No wonder pediatricians across the country are praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. “I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work.” In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses: ·The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon. ·The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life. ·The 5 “S’s”: the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too. ·The Cuddle Cure: the perfect mix the 5 “S’s” that can soothe even the most colicky of

infants. In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant’s persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.

Cancer in the Elderly Carrie P. Hunter,Karen A. Johnson,Hyman B. Muss,2000-03-01 This book presents comprehensive assessment and up-to-date discussion of the epidemiology, prevention, and treatment of cancer in the elderly, highlighting the growing demands of the disease, its biology, individual susceptibility, the impact of state-of-the-art and emerging therapies on reducing morbidity, and decision making processes. Describ

Designing the Domestic Posthuman Colbey Emmerson Reid,Dennis M. Weiss,2023-12-28 Ever since TIME magazine's 1983 'Man of the Year' was the PC, we have been led to believe that our domestic spaces have been colonized by digital technology. Too little attention has been paid to the domestic spaces and inhabitants impacted by this, and critical posthumanism has been captured by a picture of humanity overly indebted to digital technologies and their largely male progenitors. By applying feminist theory to posthumanism, this work recovers the plethora of sophisticated human-technology mediations associated with the home and practiced primarily by women, the elderly, infants, the disabled and across cultures globally, challenging dominant, contemporary visions of a future humanity. Authors Dennis M. Weiss and Colbey Emmerson Reid look at various iterations of the posthuman and assert the need for alternative, feminist readings that emphasize different standpoints from which to assess people, places, and products. Chapters address the impact of posthumanism on design theory and look at familiar domestic objects, with different attributes from those typically affiliated with technology and the future, such as clothing, textiles, ceramics, furniture and wallpaper. They reveal their unhomely, extra-human qualities and offer a much-needed perspective on domestic spaces and practices, revivifying the home as a site of species transformation and pushing beyond traditional understandings of person, mothering, families and care-giving to highlight a range of critically-overlooked mediated materialisms and embodiments affiliated with domestic space. By focusing on the neglected intersection of the posthuman with the home and exploring domestic posthuman design, Designing the Domestic Posthuman offers a vision of a future humanity that retains identity, integrity and considers our relationship to others, to the world and things in it. This book widens the lens of critical focus in posthumanism, feminist philosophy and design and presents an alternative, inclusive design framework for the future.

Artificial Women Julie Wosk,2024 What distinguishes humanity from artificial beings? What do constructed creatures tell us about ourselves? From sex dolls to Siri, talking Barbies to the Bride of Frankenstein, Artificial Women explores the ways in which today's simulated females--both real and fictional--reflect and expose our own ideas about gender and female identity. Join Julie Wosk as she probes the realm of compliant sex workers, nurturing caretakers, genial servants, and rebellious creations in film, television, literature, art, photography, and current developments in robotics. These modern-day Galateas must embrace their own synthetic nature while also striving for authenticity and autonomy, all the while foregrounding gender stereotypes and changing perceptions of women and their roles. They embody the paradoxes and tensions that continue to arise in our increasingly simulated world, where the lines between the real and the virtual only continue to blur. As these artificial women become ever more lifelike, so too do the questions they raise become more provocative, and more illuminating of our own conceptions and conventions. Artificial Women pushes the boundaries of gender, sexuality, and culture studies to consider new digital technologies, artificial intelligences, and burgeoning simulations.

Whispers of Cruel Wrongs Mary Maillard,2017-05-09 Harriet Jacobs's famous autobiography, Incidents in the Life of a Slave Girl, includes her heartbreaking account of parting with her young daughter, Louisa, who had been taken away to the North by her white father. Here, Mary Maillard follows the thread of the Jacobs family lineage by revealing the communications of Louisa Jacobs and her close friends in more than seventy previously unidentified letters. In this annotated correspondence, new voices call out from the lost world of nineteenth-century African American women who persevered despite difficult family obligations and the racial strife that marked the post-Reconstruction era.
