Cannibals with Forks John Elkington, 1999 Based on first-hand experience with companies such as Volvo, BP, Proctor and Gamble, ICI and Fuji Xerox, Elkington defines the triple bottom line of 21st century business as profit, environmental sustainability and social responsibility.

Putinomics Albrecht Rothacher, 2021-05-20 This book sheds new light on the political economy of Russia under Putin's rule. The author, a former EU diplomat, presents a historical review of the Russian economy and 60 years of state-communist mismanagement, followed by oligarchic privatization. The book offers profound insights into Putin's rule and the power mechanics of the state-dominated management of the Russian economy. It identifies and assesses the lack of rule of law, together with an arbitrary and often corrupt administration that systematically discourages entrepreneurship and the emergence of an independent middle class. Furthermore, the book discusses Russia's budgetary policy, its dependence on the export of natural resources, state-owned enterprises and their privileges, and Russia's external trade. This hard-hitting, substantial analysis debunks the myth of Russia's economic might and is a must read for anyone seeking to understand the economic realities of the Eurasian continent, or considering doing business with Russia.

Commodities - Switzerland's Most Dangerous Business Berne Declaration, 2012-05-14 Today marks the release of the controversial book *Commodities: Switzerland's Most Dangerous Business*. The fact-filled and groundbreaking analysis of the industry, as powerful as it is unknown, shows why resource-rich developing countries remain poor while Switzerland-based commodity companies rake in profits in the billions. And it illustrates the gray areas of a business model whose risks are becoming increasingly apparent. Unnoticed by the public and politicians, Switzerland has become the world's most important commodities hub. Trade in oil, gas, coal, metals and agricultural products - particularly via deals made in Geneva and Zug - has grown by an incredible 1,500 percent since 1998, according to BD investigations. The result: Seven of the twelve corporations with the highest turnover in Switzerland trade in, and/or mine, commodities. Switzerland has become a global commodity hub thanks to its mix of tax privileges, a strong financial sector, weak regulation and lax embargo policy. The Swiss commodities business is dangerous for developing countries that are blessed with natural resources but that suffer from weak governance. The business is life-threatening for all those who must live amid the filth and toxins of the mines and facilities. The extensive misery of entire countries and the fairytale wealth of a few Swiss top traders are causally related. The book *Commodities: Switzerland's Most Dangerous Business* shows how. The richly-illustrated reference work offers a portrait of the key firms and people behind the discreet deals, provides insight into the social and ecological consequences for the producing countries, analyzes the practices and repercussions of tax avoidance and speculation, and offers proposals for achieving more justice in a multi-billion-dollar business that affects everyone.

Management Science Hans Daellenbach, Donald McNickle, Shane Dye, 2017-09-16 *Management Science* provides a comprehensive, accessible overview of the subject, incorporating a broad set of approaches and tools. The authors explore both 'soft' and 'hard' methodologies and highlight conceptual aspects rather than the mathematics of the techniques or computer methods. The book is therefore suitable for students and readers with a wide range of mathematical abilities at both the undergraduate and MBA level. The book bases management science within a clear systems thinking framework. Ideas and concepts are demonstrated with real-life examples and case studies. Readers are shown how decision making over time, under uncertainty, and subject to constraints, multiple objectives, and value and perception conflicts can be modelled, all within this system thinking framework. The second edition of *Management Science* offers: - An emphasis on problem formulation, indicating how management science and operational research techniques fit into the wider problem-solving process - Revised chapters on queuing, simulation, and problem structuring methods - updated coverage of forecasting, linear and integer programming - New sections on the role of management science consultants - Improved pedagogy, navigation and design - Up-to-date coverage of software - Real-world case studies, encouraging the reader to apply the concepts studied Comprehensive student and lecturer resources are available at www.palgrave.com/business/daellenbach2.

The Business of Tourism J. Christopher Holloway, Claire Humphreys, 2016 The tourism industry is in a constant state of flux, where trends and attitudes are frequently susceptible to outside influences, including factors such as technological and economic change. *The Business of Tourism* by Chris Holloway and Claire Humphreys is the ideal textbook to help readers not only understand these new changes but look at them with a critical eye and predict future trends. This book is an essential text for students of tourism management or travel and tourism. The historical context is combined with background theory and research, plus up-to-date international case studies. It examines in detail the tourism product, its impacts and the nature of the tourist, to provide the reader with a comprehensive understanding of the management of this important global industry. The result is a practical and relevant text for any student wishing to work in one of the many diverse sectors of the tourism industry.

Empire of Chaos Pepe Escobar, 2014-11-11 From Syria and Iraq to Ukraine, from AfPak to Libya, from Iran to Russia, and from the Persian Gulf to China, foreign correspondent Pepe Escobar, author of *The Roving Eye* column for *Asia Times/Hong Kong*, crisscrosses what the Pentagon calls the arc of instability. As Escobar tells it in the introduction, the columns selected for this volume follow the period 2009-2014 - the Obama years so far. A continuum with previous volumes published by Nimble Books does apply. *Globalistan*, from 2007, was an extended reportage/warped travel book across the Bush years, where I argued the world was being plunged into Liquid War - alluding to energy flows but also to the liquid modernity character of post-modern war. *Red Zone Blues*, also from 2007, was a vignette - an extended reportage

centering on the Baghdad surge. And Obama does Globalistan, from 2009, examined how the hyperpower could embark on a change we can believe in. The outcome, as these columns arguably reflect, is Empire of Chaos - where a plutocracy progressively projects its own internal disintegration upon the whole world. You will find some key overlapping nations/themes/expressions/acronyms in these columns; Iran, Iraq, Syria, Afghanistan, Pakistan, Central Asia, China, Russia, Ukraine, Pipelineistan, BRICS, EU, NATO, GCC, the Global South, GWOT (the global war on terror), The New Great Game, Full Spectrum Dominance. You will also find a progressive drift towards not conventional war, but above all economic war - manifestations of Liquid War. Incrementally, I have been arguing that Washington's number one objective now is to prevent a full economic integration of Eurasia that would leave the U.S. as a non-hegemon, or worse still, an outsider. Thus the three-pronged strategy of pivoting to Asia (containment of China); Ukraine (containment of Russia); and beefing up NATO (subjugation of Europe, and NATO as Global Robocop). Book the ultimate trip to the Empire of Chaos, and see how the U.S. - and the West - are tackling the emergence of a multipolar world.

That Winter Pamela Gillilan, 1986 Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem Come Away after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection That Winter (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

Marketing Essentials Philip Kotler, 1984

Marketing Strategy and Competitive Positioning, 7th Edition Prof Graham Hooley, Brigitte Nicoulaud, John Rudd, Nick Lee, 2020-01-09 Marketing Strategy and Competitive Positioning 6e deals with the process of developing and implementing a marketing strategy. The book focuses on competitive positioning at the heart of marketing strategy and includes in-depth discussion of the processes used in marketing to achieve competitive advantage. The book is primarily about creating and sustaining superior performance in the marketplace. It focuses on the two central issues in marketing strategy formulation – the identification of target markets and the creation of a differential advantage. In doing that, it recognises the emergence of new potential target markets born of the recession and increased concern for climate change; and it examines ways in which firms can differentiate their offerings through the recognition of environmental and social concerns. The book is ideal for undergraduate and postgraduate students taking modules in Marketing Strategy, Marketing Management and Strategic Marketing Management.
